Neoliberal Hegemony Dieter Plehwe, Bernhard J. A. Walpen, Gisela Neunhöffer, 2007-05-07 Neoliberalism is fast becoming the dominant ideology of our age yet politicians businessmen and academics rarely identify themselves with it and even political forces critical of it continue to carry out neoliberal policies around the globe How can we make sense of this paradox Who actually are the neoliberals This is the first explanation of neoliberal hegemony which systematically considers and analyzes the networks and organizations of around 1 000 self conscious neoliberal intellectuals organized in the Mont Plerin Society This book challenges simplistic understandings of neoliberalism It underlines the variety of neoliberal schools of thought the various approaches of its proponents in the fight for hegemony in research and policy development political and communication efforts and the well funded well coordinated and highly effective new types of knowledge organizations generated by the neoliberal movement partisan think tanks It also closes an important gap in the growing literature on private authority presenting new perspectives on transnational civil society formation processes This fascinating new book will be of great interest to students of international relations political economy globalization and politics

Off the Main Sequence Tom Easton, 2006-10-01 Tom Easton has served as the monthly book review columnist for Analog Science Fiction for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer's job he says is not to judge books for the ages but to tell readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he's discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to Periodic Stars Borgo Wildside collects another 250 of Easton's best reviews from the last fifteen years of The Reference Library No one does it better and no other guide provides such lengthy or discerning commentary on the best SF works of recent times Complete with Introduction and detailed Index
