Emotions across Cultures David Konstan,2022-06-21 It is now recognized that emotions have a history In this book eleven scholars examine a variety of emotions in ancient China and classical Greece in their historical and social context A general introduction presents the major issues in the analysis of emotions across cultures and over time in a given tradition Subsequent chapters consider how specific emotions evolve and change For example whereas for early Chinese thinkers worry was a moral defect it was later celebrated as a sign that one took responsibility for things In ancient Greece hope did not always focus on a positive outcome and in this respect differed from what we call hope Daring not to do or undaring was itself an emotional value in early China While Aristotle regarded the inability to feel anger as servile the Roman Stoic Seneca rejected anger entirely Hatred and revenge were encouraged at one moment in China and repressed at another Ancient Greek responses to tragedy do not map directly onto modern emotional registers and yet are similar to classical Chinese and Indian descriptions There are differences in the very way emotions are conceived This book will speak to anyone interested in the many ways that human beings feel

The Will to Nothingness Bernard Reginster, 2021-08-19 On the Genealogy of Morality is Nietzsche's most influential book but it continues to puzzle not least in its central claim the invention of Christian morality is an act of revenge and it is as such that it should arouse critical suspicion In *The Will to Nothingness* Bernard Reginster makes a fresh attempt at understanding this claim and its significance inspired by Nietzsche's claim that moralities are signs or symptoms of the affective states of moral agents The relation between morality and affects is envisioned as functional rather than expressive the genealogy of Christian morality aims to reveal how it is well suited to serve certain emotional needs One particular emotional need manifested in the affect of resentment plays a prominent role in the analysis of Christian morality This is the need to have the world reflect one's will which is rooted in a special drive toward power or toward bending the world to one's will Revenge is plausibly understood as aiming to bolster or restore power and the invention of new values is a particular way to do so by altering the agent's will her values it alters what counts as power for her By revealing how it is well suited to play such a functional role in the emotional economy of moral agents the genealogical inquiries arouse critical suspicion toward Christian morality The use of this moral outlook as an instrument of revenge is problematic not because it is immoral but because it is functionally self-undermining *Sitting In The Fire* Arnold Mindell, 2014 Arnold Mindell Ph.D shows how working with power rank revenge and abuse helps build sustainable communities Mindell is the co-founder of processwork and author of numerous books including *Quantum Mind* *The Deep Democracy of Open Forums* and *The Leader*
