French Kissing Nancy Warren, 2008-04-01 Manhattan magazine editor and fashionista Kimi Renton is one of the beautiful people at couture week every year But this time she's stuck with a rumpled P I posing as her photographer Holden MacGreggor is tough guy gorgeous and badly attired So if he's going to play the part right she's going to have to dress him properly then undress him slowly Soon they're having so much fun under the covers they almost forget that they're supposed to be undercover busting up an international theft ring Then ooh la la turns into oh oh when they're found out Could this be the last tango in Paris for both of them

Flirting with French William Alexander, 2014-09-16 A delightful and courageous tale and a romping good read Voila Mark Greenside author of *I'll Never Be French No Matter What I Do* William Alexander is more than a Francophile He wants to be French There's one small obstacle though he doesn't speak la langue fran aise In *Flirting with French* Alexander sets out to conquer the language he loves But will it love him back Alexander eats breathes and sleeps French even conjugating in his dreams He travels to France where mistranslations send him bicycling off in all sorts of wrong directions and he nearly drowns in an immersion class in Provence where faced with the riddle of masculine breasts feminine beards and a turkey cutlet of uncertain gender he starts to wonder whether he should've taken up golf instead of French While playing hooky from grammar lessons and memory techniques Alexander reports on the riotous workings of the Acad mie fran aise the four hundred year old institution charged with keeping the language pure explores the science of human communication learning why it's harder for fifty year olds to learn a second language than it is for five year olds and frustrated with his progress explores an IBM research lab where he trades barbs with a futuristic hand held translator Does he succeed in becoming fluent Readers will be as surprised as Alexander is to discover that in a fascinating twist studying French may have had a far greater impact on his life than actually learning to speak it ever would A blend of passion and neuroscience this literary love affair offers surprise insights into the human brain

and the benefits of learning a second language Reading William Alexander's book is akin to having an MRI of the soul Laura Shaine Cunningham author of *Sleeping Arrangements* Alexander proves that learning a new language is an adventure of its own with all the unexpected obstacles surprising breakthroughs and moments of sublime pleasure traveling brings Julie Barlow author of *Sixty Million Frenchmen Can't Be Wrong*

France and Germany in an Age of Crisis, 1900-1960 Shamir,2023-04-12 France and Germany two great powers in Europe and the world had in many respects a similar fate in the first half of the twentieth century Both nations knew war and defeat social upheaval grave economic crisis as well as political turmoil including major changes in their political regime On the other hand the two countries also faced some very different experiences in the course of their history in this period Germany had the terrible experience of the Third Reich while France shared with other powers the agonies of decolonisation Here is a collection of twenty two studies dealing with important aspects of the history of the two nations The studies are grouped under seven headings and include topics like foreign policy in peace and war domestic changes the impact of ideologies the colonial and Jewish aspects Taken as a whole these studies offer many new perceptions and insights to the history of France and Germany in the twentieth century

The Ethnography of Vietnam's Central Highlanders Oscar Salemink,2003-02-28 This book looks at the multiple relations between the ethnographic representations of the Montagnard ethnic groups in the Central Highlands of Vietnam and the changing historical context in and for which the ethnographies were produced and in which they were consumed There are two major arguments developed by the author It is maintained that economic political and military interests within a specific historical context condition ethnographic practice This is not however a one way process the author also argues that the ensuing ethnographic discourses in turn influence the historical context by suggesting and facilitating ethnic policies and by contributing to the formation or change of ethnic identities through processes of classification Oscar Salemink describes ethnographic discourses concerning the indigenous population of Vietnam s Central Highlands during periods of Christianization colonization war and socialist transformation and analyzes these in their relation to tribal ethnic territorial governmental and gendered discourses

In Uncle Sam's Service Susan Zeiger,2019-05-15 During World War I the first American war in which women were mobilized on a mass scale by the armed services more than sixteen thousand women served overseas with the American Expeditionary Force Although wealthy women volunteers members of the so called heiress corps monopolized public attention Susan Zeiger reveals that the majority of AEF women were wage earners Their motives for enlistment ranged from patriotism to economic self interest from a sense of adventure to a desire to challenge gender boundaries Zeiger uses diaries letters questionnaires oral histories and memoirs to explore the women s experience of war She draws upon insights from labor history political history popular culture and the study of gender and war to analyze the ways in which women s wartime service heightened and made visible the contradictions in the prevailing gender relations Zeiger argues that the interests of AEF women clashed with those of the wartime state at a crucial historical moment Women sought to expand their personal opportunities for mobility and professional success and lay claim to equal citizenship The government determined to contain the disruption to the status

quo created a separate subordinate status for women in the military domesticating women's service and reinscribing it within conventional limits

Vietnam 1946 Stein Tønnesson, 2010 *Vietnam 1946* is a masterful narrative of the immediate origins of the first Vietnam War. It is by turns vivid and shocking; it is always immensely revealing. Tønnesson brings forensic clarity to crucial events about which even now, some sixty years later, fundamental misapprehensions exist. An outstanding work of scholarship of major international importance. Martin Thomas, author of *Empires of Intelligence*. Tønnesson captures brilliantly the 1946 confrontation between two republics. France determined to redeem itself from Axis humiliation by regaining Indochina. Vietnam equally determined to retake independence after eighty years of colonial servitude. Tønnesson also demonstrates, however, that some leaders on each side really wanted a peaceful, mutually beneficial outcome. Descent into full-scale war was not inevitable. This is a carefully researched, clearly written analysis of a vital moment in the 20th-century history of both countries. It is also a meditation on the elusive boundary between free will and determinism in human affairs. David Marr, author of *Vietnamese Tradition on Trial, 1920-1945*. Stein Tønnesson's *Vietnam 1946* answers the fundamental question about the first of Vietnam's 20th-century wars: the one fought against the French, how did it happen? He has written a meticulously researched account which restores their contingency to the events. The first Indochina war, like those that succeeded it, was not inevitable, and Tønnesson explains why and how it happened anyway. Marilyn Young, author of *The Vietnam Wars, 1945-1990*

The History of Western Africa Amy McKenna, Senior Editor, Geography and History, 2011-01-15

From its ancient kingdoms to the independent post-colonial states that make up the region today, western Africa has transformed dramatically over the centuries. Economically lucrative for European slave traders and later for their colonial successors, the territories along Africa's Atlantic coast were forced to overcome great adversity before achieving autonomy. This volume surveys the history of the many nations of western Africa where vestiges of its celebrated past are still visible in cities like Timbuktu and where its diverse peoples continue to navigate a path towards a more stable future.

The Savage Storm David Andress, 2012-09-27 Britain's defeat of Napoleon is one of the great accomplishments in our history. And yet it was by no means certain that Britain itself would survive the revolutionary fervour of the age, let alone emerge victorious from such a vast conflict. From the late 1790s the country was stricken by naval mutinies, rebellion in Ireland and riots born of hunger, poverty and grinding injustice. As the new century opened with republican graffiti on the walls of the cities and revolutionary secret societies reportedly widespread, King George III only narrowly escaped assassination. Jacobin forces seemed to threaten a dissolution of the social order. Above all, the threat of French invasion was ever present. Yet despite all this, and new threats from royal madness and rampant corruption, Britain did not become a revolutionary republic. Her elites proved remarkably resilient and drew on the power of an already global empire to find the strength to defeat Napoleon abroad and continued popular unrest at home. In this brilliant, sweeping history of the period, David Andress fuses two hitherto separate historical perspectives: the military and

the social to provide a vivid portrait of the age From the conditions of warfare faced by the British soldier and the great battles in which they fought to the literary and artistic culture of the time The Savage Storm is at once a searing narrative of dramatic events and an important reassessment of one of the most significant turning points in our history **French Furniture and Gilt Bronzes** J. Paul Getty Museum, Gillian Wilson, Charissa Bremer-David, Jeffrey Weaver, 2008 Each object is described and analyzed in terms of its provenance and published history as well as its construction materials and conservation With its painstaking attention to detail this volume is the definitive catalogue of the Getty Museum's collection of French Baroque furniture and will be of interest to scholars conservators and all students of French decorative arts BOOK JACKET **A Very French Scandal** Anya London, Evie Campbell has a secret No one can know that ten years ago she had married and divorced the now notorious Jackson Auclair Her parents would be disappointed her career destroyed She and Jackson had ensured that they would never interact after their divorce he claimed France as his and she took all the U S states west of the Mississippi When Evie accidentally violates their divorce agreement and lands into France with her new fianc Jackson threatens to reveal her biggest kept secret unless she accepts his deal to dump her fianc and spend the next two weeks with him Could she resume her relationship with Jackson without falling in love with him all over again Jackson Auclair leads a wealthy life but a lonely one As a kid constantly denied the same love and attention as his three half brothers he learned long ago to fight for what he wanted His ruthless drive is what made him launch Zohra the largest sex club in the world But it's not enough He wants legitimacy and opening up a nightclub in Las Vegas will be the first step His divorce agreement keeps him from operating in Nevada but he has a plan he'll get Evie to lift the boundaries When Evie's life is threatened during her stay in France Jackson's plan is turned topsy turvy He now has to decide what he wants more Evie or Vegas A First English Book for Boys and Girls Whose Mother-tongue is Not English Walter Ripman, 1920 **Imperial Policy and Southeast Asian Nationalism** Hans Antlov, Stein Tonnesson, 2013-10-08 Traditionally the tumultuous period 1930-50 in South East Asia has been viewed as a dichotomy of European vs Asian or imperialist vs nationalist This highly acclaimed volume presents another triangular perspective and challenges established wisdom about the period **Ohio State University Bulletin**, 1928
