because of your pains Through this book you will come to understand how other people are ready and willing to pay you money to know what you already know and to do what you can already do You don t need to be qualified certified or have letters after your name Your qualification to do this work is your life experiences your passion for helping others and your determination to make a difference Andy Harrington has worked with Richard Branson Tony Robbins Robert Kiyosaki Brian Tracy Bob Proctor and even Former President of the United States Bill Clinton and through this book he will show you how to find and shape the message inside of you and importantly in such a way that you get paid for sharing your advice You will also discover how to Position yourself as an expert so you are seen as an authority Prepare your advice so it s easy for others to follow Package your knowledge into programs workshops and books Promote yourself intelligently so you get paid what you are really worth Perform like a professional with confidence congruency and charisma In his debut book Andy shows you how to harness your experiences and turn them into advice for others whilst becoming a person of influence impact and inspiration You have incredible untapped potential residing within yourself in your own talents and abilities This book shows you how to achieve all your goals by focusing on making a difference with what you already have Brian Tracy Brian Tracy International *The Book of all 20 Methodologies to Improve and Profit from Customer Experience and Service* Heverton Anunciação,2023-12-04 In the past medicine worked like this a patient looked for a doctor who evaluated him carefully After the evaluation the doctor said to the patient Are you willing to abandon everything that has made you sick so far Only then do I accept to be your doctor Now I ask you Is your company willing to abandon all the bad processes and bad strategies that have given your customers a bad experience The big problem is that in many cases we look for doctors pharmacists and software resellers and what they want most is to recommend medicines and CRM systems for a temporary cure or imaginary cure to serve the media or advertising What s wrong with that It is that in the customer service sector the side effect is worse than acting directly on the cause of the corporate pains that cause the bad experience to customers If professionals don t know how to hire and build a long term strategy your suppliers will always want you to come back for new software purchases and more software and not for a permanent cure The objective of this book is to bring the most widely used and effective standards on the market to serious professionals who really want to embrace and offer excellent customer service There is no methodology that will solve everything overnight but the right methodology will help the company to respond quickly and without repression As the conclusion I wrote in this book too a table that help you to identify Why when and how to use each one of those worldwide methodologies or tools to improve and profit from your customer service This book is part of the CRM and Customer Experience Trilogy called CX Trilogy which aims to unite the worldwide community of CX Customer Service Data Science and CRM professionals I believe that this union would facilitate the contracting of our sector and profession as well as identifying the best professionals in the market The CX Trilogy consists of 3 books and one Dictionary 1st 30 Advice from 30 greatest professionals in CRM and customer service in the world 2nd The Book of all
