understandings of Australasia shifted away from Asia in light of British imperial interests in the 19th century and the concept was adapted by varying political agendas and cultural visions in order to reach into the Pacific or towards Antarctica. The Making and Remaking of Australasia offers a number of rich case studies which highlight how the idea itself was adapted and moulded by people and texts both in the southern hemisphere and the imperial metropole where a range of competing actors articulated divergent visions of this part of the British Empire. An important contribution to the cultural history of the British Empire. Australia, New Zealand and Pacific Studies. This collection shows how Australasia has had multiple often contrasting meanings.

Global Matrix Tom Nairn, Paul James, 2005-03-20 Globalization has brought with it many difficult and contradictory phenomena: violence, deep national insecurities, religious divisions and individual insecurities. This book takes a critical look at three key areas: globalism, nationalism and state terror to confront common mythologies and identify the root causes of the problems we face. Too many commentators still argue that globalization is predominantly a neo-liberal economic phenomenon that nation states are on the way out and that terror is something that primarily comes from below. *Global Matrix* exposes the limitations of this argument. Written by two leading scholars, this is a lucid study of what place the nation state has in a globalizing world that will appeal to students across the political and social sciences.

Intention in Law and Philosophy Ngairé Naffine, Rosemary Owens, 2019-05-24 This title was first published in 2001. Legal systems are posited on the assumption that people are rational intentional agents who can choose to follow or break the law. This book connects the common interests of lawyers and philosophers in the meaning of intention and its relation to responsibility in legal, moral and political contexts.

Subjects Or Citizens? Adolf Ens, 1994 During the 1870s 7 000 Mennonites (descendants of Dutch and German Anabaptists) arrived in Canada to settle in the newly created province of Manitoba. While in Europe they had steadily moved eastward under pressure of persecution and governmental restrictions until they settled in foreign colonies in New Russia, Ukraine. In 1789 generations of living as non-citizen settlers under special arrangements with the ruler had reinforced their separatist understanding of what it meant to live in nonconformity with the world. Adolf Ens's volume traces the tensions of Mennonites becoming full citizens in the participatory democracy of Canada through the crucial steps of immigration, settlement and naturalization, implementing local municipal government and becoming part of the public school system. This process was greatly complicated by the outbreak of the First World War and the intolerance it produced toward those who were pacifist German and different. Almost 8 000 of the descendants of this immigrant group left for Latin America in the aftermath of the war, becoming subjects once again. The rest gradually accommodated themselves to being full Canadian citizens.
