Grenz, Roger E. Olson, 2010-01-26 Stanley J Grenz and Roger E Olson offer a sympathetic guide and a critical assessment of the significant theologies and theologians of the 20th century They trace the shifts in theology as it has moved back and forth between God's immanence and God's transcendence Søren Kierkegaard Elmer H. Duncan, 2016 Søren Kierkegaard 1813-1855 little known or read outside of Denmark in his own day has come to be widely appreciated for his affirmation of the Christian faith and his critique of the human condition

He is responsible for one of the major currents of twentieth century thought existentialism which emphasizes the priority of existence over essence Christian existentialism appropriated his insights for theology and ethics stressing human experience freedom and the commitment of faith Elements of his approach are found in Karl Barth Paul Tillich Emil Brunner Rudolf Bultmann Reinhold Niebuhr and Karl Rahner Kierkegaard tried to clarify for his contemporaries the nature of Christianity stressing that no philosophical system could explain the human condition He emphasized the subjectivity of truth and could not refrain from attacking the cold formality and indifference of the state church of his day In this book Dr Duncan guides the reader critically and skillfully through Kierkegaard's life and works Book jacket

Tull, 2000 James E Tull's study and critique of the history and teachings of Landmarkism has established itself as a classic treatment of this important movement This present version of that study is the revised condensed and updated edition of Tull's 1960 original Tull did not finish the revision before he died in 1989 but Morris Ashcraft has now completed that task according to Tull's directions and notes Ashcraft has also added a helpful preface With this new edition of Tull's invaluable work on Landmarkism a new generation of historians students and all seeking to understand Baptists have at hand a most helpful teacher Tull on Landmarkism

Baptist Theology James Leo Garrett, 2009 This title offers a comprehensive analysis of Baptist theology Embracing in one common trajectory the major Baptist confessions of faith the major Baptist theologians and the principal Baptist theological movements and controversies this book spans four centuries of Baptist doctrinal history Acknowledging first the pre 1609 roots patristic medieval and Reformational of Baptist theology it examines the Arminian versus Calvinist issues that were first expressed by the General Baptists and the Particular Baptists that dominated English and American Baptist theology during the seventeenth and eighteenth centuries from Helwys and Smyth and from Bunyan and Kiffin to Gill Fuller Backus and Boyce and that were quickened by the awakenings and the missionary movement Concurrently there were the Baptist defense of the Baptist distinctives vis a vis the pedobaptist world and the unfolding of a strong Baptist confessional tradition Then during the nineteenth and twentieth centuries the liberal versus evangelical issues became dominant with Hovey Strong Rauschenbusch and Henry in the North and Mullins Conner Hobbs and Criswell in the South even as a distinctive Baptist Landmarkism developed the discipline of biblical theology was practiced and a structured ecumenism was pursued Missiology both impacted Baptist theology and took it to all the continents where it became increasingly indigenous Conscious that Baptists belong to the free churches and to the believers churches a new generation of Baptist theologians at the advent of the twenty first century appears somewhat more Calvinist than Arminian and decidedly more evangelical than liberal

Faith at the Intersection of History and Experience Brent A. R. Hege, 2009-01-01

This present study is the first in English Georg Wobbermin 1869-1943 who has been called a captain of the liberal rearguard

Widely read and discussed in his own lifetime Wobbermin's theology fell into obscurity as dialectical theology rose to prominence in the years following the First World War Faith at the Intersection of History and Experience presents the major

themes of Wobbermin's theology particularly his analysis of the relationship between faith and history and his development of a religio psychological theological method that places faith at the intersection of history and experience Wobbermin's critiques of recent and contemporary approaches to the problem of faith and history and his attention to theological method reveal a sustained effort to continue what he called the Luther Kant Schleiermacher line of Protestant theology The consistent emphasis in Wobbermin's theology is on the systematic interrelation of objectivity and subjectivity an approach he considered to be a faithful continuation of the Reformation but one that invited conflict with the dialectical theologians chiefly Karl Barth Wobbermin's debates with Barth on issues of method reveal a vibrant and sophisticated liberal theology co existing with the dialectical theology that is conventionally assumed to have eclipsed it over a decade earlier Building on work that has been done primarily in German this study of one of the forgotten theologians of the early twentieth century appears as more German British and American theologians and historians are returning to this period of theology with renewed interest and fresh questions and it addresses an often neglected period of modern Protestant thought in histories currently available in English

Clear and Definite Words Ronald G. Goetz, 2010-01-01 Clear and Definite Words is a lucid exposure of the present confusion within theological discourse It charges and proves that avoiding or equivocating on the question of ontology is impossible It thus undermines the premise of much theological discourse today and lays the way for greater theological clarity and commitment This book goes head to head with great forcefulness and passion against anyone and anything that has served to impede the right of theology to speak with clear and definite words

Paulus, Then and Now

John Jesse Carey, 2002 *Is The Courage to Be* still a viable analysis of the human situation Does Tillich's positive sense of Eros illumine our intense discussions of human sexuality Does Postmodernism really dissolve Tillich's major assumptions Can Tillich contribute to the contemporary discussion of science and religion How does his work stand when compared to other writers on creation such as Langdon Gilkey and Sallie McFague Given the paradoxes of Tillich's life is his ethical theory still viable In *Paulus Then and Now A Study of Paul Tillich's Theological World and the Continuing Relevance of his Work* John J Carey clarifies previously neglected foundational aspects of Tillich's thought Carey places Tillich's theological work in political social economic and scholarly context He also explains Tillich's thinking on Luther Marx history and politics and his unique perspective on the Bible and on biblical authority Having accomplished these things Carey then moves to show how Tillich's thinking can be applied to contemporary problems **The Barthian Revolt in Modern Theology** Gary J.

Dorrien, 2000-01-01 In this history of the rise development and near demise of Karl Barth's theology Gary Dorrien carefully analyzes the making of the Barthian revolution and the reasons behind its simultaneously dominating and marginal character He discusses Barth's relationship to his predecessors and contemporaries as well as to modern theologians and argues that his approach to theology was deeply indebted to his liberal past The Journey of Modern Theology Roger E.

Olson, 2013-11-01 In this major revision and expansion of the classic *20th Century Theology* 1992 coauthored with Stanley J Grenz Roger Olson tells the full story of modern theology from Descartes to Caputo from the Kantian revolution to postmodernism now recast in terms of how theologians have accommodated or rejected modernity **God and History**

Laurence W. Wood, 2005 This book argues for an integrative dialectic of faith and history It is a fresh examination of the problem of faith and history Instead of being a mere liability it is argued here that the strength of the Christian faith is its historicity Although modern thought was not always friendly to Christian faith because of its deeply embedded dualism it raised the critical intellectual issues that Christian theology needed to address Advancing a more critical understanding of the nature of history than modern thought was generally able to achieve because of its dualistic thinking this work argues for an integrative dialectic of historical probability and the certainty of faith This book gives a comprehensive and fascinating account of the development of the idea of history in correspondence to changing conceptions of the divine reality from its origin in Ancient Israel and in Greece all the way to the contemporary discussion It focuses on the rise of critical historical investigation in modern times and on the struggle of modern theology to come to terms with it It is an important contribution to this discussion The split between fact and meaning is persuasively identified as a main obstacle and it is shown to be overcome in the reconstruction of history in the light of the eschatological future Also very helpful is the final chapter on time space time and eternity with its emphasis on Boethius and with its critical remarks on nontrinitarian theistic notions of a personal God Wolfhart Pannenberg University of Munich **Index to Book Reviews in Religion**, 1990 *Evangelical Dictionary of Theology* Walter A. Elwell, 2001-05 This thoroughly updated edition of a standard reference tool covers

systematic historical and philosophical theology as well as theological ethics Modern Theology Rachel Muers, Mike Higon, 2015-06-11 This book offers a fresh and up to date introduction to modern Christian theology The long nineteenth century saw enormous transformations of theology and of thought about religion that shaped the way both Christianity and religion are understood today Muers and Higon provide a lucid guide to the development of theology since 1789 giving students a critical understanding of their own modern assumptions of the origins of the debates and the fields of study in which they are involved and of major modern thinkers Modern Theology introduces the context and work of a selection of major nineteenth century thinkers who decisively affected the shape of modern theology presents key debates and issues that have their roots in the nineteenth century but are also central to the study of twentieth and twenty first century theology includes exercises and study materials that explicitly focus on the development of core academic skills This valuable resource also contains a glossary timeline annotated bibliographies and illustrations
