Making Ends Meet How Single Mothers Survive Welfare And Low Wage Work:

Making Ends Meet Kathryn Edin, Laura Lein, 1997-04-17 Welfare mothers are popularly viewed as passively dependent on their checks and averse to work Reformers across the political spectrum advocate moving these women off the welfare rolls and into the labor force as the solution to their problems *Making Ends Meet* offers dramatic evidence toward a different conclusion In the present labor market unskilled single mothers who hold jobs are frequently worse off than those on welfare and neither welfare nor low wage employment alone will support a family at subsistence levels Kathryn Edin and Laura Lein interviewed nearly four hundred welfare and low income single mothers from cities in Massachusetts Texas Illinois and South Carolina over a six year period They learned the reality of these mothers struggles to provide for their families where their money comes from what they spend it on how they cope with their children s needs and what hardships they suffer Edin and Lein s careful budgetary analyses reveal that even a full range of welfare benefits AFDC payments food stamps Medicaid and housing subsidies typically meet only three fifths of a family s needs and that funds for adequate food clothing and other necessities are often lacking Leaving welfare for work offers little hope for improvement and in many cases threatens even greater hardship Jobs for unskilled and semi skilled women provide meager salaries irregular or uncertain hours frequent layoffs and no promise of advancement Mothers who work not only assume extra child care medical and transportation expenses but are also deprived of many of the housing and educational subsidies available to those on welfare Regardless of whether they are on welfare or employed virtually all these single mothers need to supplement their income with menial off the books work and intermittent contributions from family live in boyfriends their children s fathers and local charities In doing so they pay a heavy price Welfare mothers must work covertly to avoid losing benefits while working mothers are forced to sacrifice even more time with their children *Making Ends Meet* demonstrates compellingly why the choice between welfare and work is more complex and risky than is commonly recognized by politicians the media or the public Almost all the welfare reliant women interviewed by Edin and Lein made repeated efforts to leave welfare for work only to be forced to return when they lost their jobs a child became ill or they could not cover their bills with their wages Mothers who managed more stable employment usually benefited from a variety of mitigating circumstances such as having a relative willing to watch their children for free regular child support payments or very low housing medical or commuting costs With first hand accounts and detailed financial data *Making Ends Meet* tells the real story of the challenges hardships and survival strategies of America s poorest families If this country s efforts to improve the self sufficiency of female headed families is to succeed reformers will need to move beyond the myths of welfare dependency and deal with the hard realities of an unrewarding American labor market the lack of affordable health insurance and child care for single mothers who work and the true cost of subsistence living *Making Ends Meet* is a realistic look at a world that so many would change and so few understand

Don't Call Us Out of Name Lisa Dodson, 1999-09-25 A radically new vision of women and girls living below the poverty line Lisa Dodson makes a frontal assault on conventional attitudes and stereotypes of women in poor America and the seriously misguided welfare reform policies of the end of the century I hear Odessa a thirty two year old woman speak at a forum on welfare reform I ask her about the phrase she used Don t call me out of name for it seemed to speak for a whole nation of people Odessa tells me that women who have no money and no one to stand up for them get put into a bad position and they get misnamed Most often they get called welfare mothers or recipients words she will no longer acknowledge With millions alongside her Odessa has emerged by her own strength and some opportunity and now she insists upon naming herself While Lisa Dodson was working in a Charlestown factory twenty years ago the stories of the women she worked with daily captivated her she listened to them speak about harsh lives and their deep commitment to family and community It was the beginning of Dodson s desire to learn the truth and write it down For over eight years Dodson has been documenting the lives of girls and women hundreds of white African American Latino Haitian Irish and other women in personal interviews focus groups surveys and Life History Studies This book is a crossing a class crossing taking readers into fellowship with people who are seldom invited to speak but who have powerful stories to tell and who force us to abandon common myths that have been fed to us by the media about school dropouts teen pregnancy and welfare cheats Don t Call Us Out of Name delves deeply into the realities of their lives often with surprising and uplifting stories of commonplace courage unimaginable strength and resourcefulness Lisa Dodson does not simply give us the truth about women living in poverty but offers realistic hope for meaningful policy reform based on the experience and analysis of the women we have seen so far only in stereotype and whose voices we have not truly heard These women emerge as critical

contributors to the creation of sound humane public policy At the Heart of Work and Family Anita Iltis Garey, Karen V. Hansen, 2011 At the Heart of Work and Family presents original research on work and family by scholars who engage and build on the conceptual framework developed by well known sociologist Arlie Russell Hochschild These concepts such as the second shift the economy of gratitude emotion work feeling rules gender strategies and the time bind are basic to sociology and have shaped both popular discussions and academic study The common thread in these essays covering the gender division of housework childcare networks families in the global economy and children of consumers is the incorporation of emotion feelings and meaning into the study of working families These examinations like Hochschild's own work connect micro level interaction to larger social and economic forces and illustrate the continued relevance of linking economic relations to emotional ones for understanding contemporary work family life **Misery Traps** Sharon

Washington, 2020-11-02 I believe that the Family Safety Net Act could be to raising kids in America what the Civil Rights Movement is to minorities The legislation will mandate that every fit parent have equal access to their kids automatic joint custody co parenting is insufficient with the best interests of the child at the heart of the legislation regardless of the status of the relationship of the parents with primary custody initially granted to the mother No more fathers begging to see their kids It's time The key is fit The adults must have the capacity to parent free of drug abuse emotional abuse and physical abuse and to establish a home that is free of such maltreatment It is time In addition since America is about enterprise working to support self and family and fulfilling dreams within the legal framework of this country the parents and our educational institutions must model that behavior so every student steps into adulthood with a plan to support themselves for the only way we will triumph over this nebulous future is to launch with the genuine love and support of as many friends and family we can muster together and to have the confidence from preparation to work and or pursue dreams I am for kids

In a Box Merry Morash, 2024-02-27 **In a Box** draws on the experiences of over one hundred Michigan women on probation or parole to analyze how the criminal justice system and neoliberal social policies hampered the state's efforts at gender responsive reforms in community supervision Closely narrating the stories of a diverse sample of six of these women Merry Morash shows how countervailing influences kept reform oriented probation and parole agents and women they supervise in a box by limiting and even blocking positive effects of supervision approaches that break away from the punitive frameworks that characterize many past and present correctional efforts Inspired by the interviewees' reflections on their own experiences the book concludes with recommendations for truly effective reforms within and outside the justice system

Women Redefining the Experience of Food Insecurity Janet Page-Reeves, 2014-07-03 Women Redefining the Experience of Food Insecurity Life Off the Edge of the Table is about understanding the relationship between food insecurity and women s agency The contributors explore both the structural constraints that limit what and how much people eat and the myriad ways that women creatively and strategically re structure their own fields of action in relation to food demonstrating that the nature of food insecurity is multi dimensional The chapters portray how women develop strategies to make it possible to have food in the cupboard and on the table to be able to feed their families Exploring these themes this book offers a lens for thinking about the food system that incorporates women as agentive actors and links women s everyday food related activities with ideas about food justice food sovereignty and food citizenship Taken together the chapters provide a unique perspective on how we can think broadly about the issue of food insecurity in relation to gender culture inequality poverty and health disparity By problematizing the mundane world of how women procure and prepare food in a context of scarcity this book reveals dynamics relationships and experiences that would otherwise go unremarked Normally under the radar these processes are embedded in power relations that demand analysis and demonstrate strategic individual action that requires recognition All of the chapters provide a counter to caricatured notions that the choices women make are irresponsible or ignorant or that the lives of women from low income low wealth communities are predicated on impotence

and weakness Yet the authors do not romanticize women as uniformly resilient or consistently heroic Instead they explore the contradictions inherent in the ways that marginalized seemingly powerless women ignore resist embrace and challenge hegemonic patriarchal systems through their relationship with food
