MAKING GLOBALIZATION WORK

JOSEPH E.
STIGLITZ

WITH A NEW PREFACE

"A brave book. . . . Stiglitz does an excellent job of describing dense topics . . . in language that's understandable and accessible."

—Russ Juskalian, *USA Today*

Making Globalization

Vijayashri Sripati

Making Globalization:

Making Globalization Work Joseph E. Stiglitz, 2007-08-28 Nobel Prize winner Stiglitz focuses on policies that truly work and offers fresh new thinking about the questions that shape the globalization debate *Making Globalisation* R. J. Holton, 2005-07 Publisher description **Making Globalization Good** John H. Dunning, 2004-09-16 Table of contents

Making Globalization Happen Vijayashri Sripati, 2024-03-10 In *Making Globalization Happen* The Untold Story of Power Profits Privilege Sripati explains how when through which entities and for what purposes economic globalization was catalyzed and its effects on the Global South in general and South Asia in particular Based on an innovative international constitutional political economy framework Sripati examines how the Western classical liberal constitution has shaped international law developments in this post colonial era given its salience and comprehensive scope Presenting a comprehensive narrative of economic globalization *Making Globalization Happen* accurately and comprehensively links constitutional globalization to the following UN family created agendas peacebuilding conflict prevention human security protection of civilians sustainable development global war on terrorism women peace and security poverty reduction or market oriented development ending conflict related sexual violence and justice climate criminal and transitional Sripati simultaneously provides the missing constitutional foundation for globalization and the fields that it has spawned global studies and law and political economy With these ground breaking insights *Making Globalization Happen* The Untold Story of Power Profits Privilege clearly illustrates who drove constitutional globalization and for whose benefit the UN family and transnational capitalists Thus it rips away the facade of UN family driven peace justice human rights democracy and development to expose it as a narrative of power profit and privilege for transnational capitalists and debt death and despair for the Global South *Making Globalisation* Robert J. Holton, 2017-03-23 This book offers a clear and concise account of the key debates in the globalization literature serving as an accessible introduction to students new to the topic It deals even handedly with all the various dimensions of globalization political economic social and cultural and particularly draws attention to the role of people in processes of globalization The book s historical dimension and its multicultural focus ensure that globalization is shown neither to be an inexorable process nor one that can be equated simply with Westernization

Making Globalization Work for Women Valentine M. Moghadam, Suzanne Franzway, Mary Margaret Fonow, 2011-11-28 *Making Globalization Work for Women* explores the potential for trade unions to defend the socioeconomic rights of women in a global context Looking at labor policies and interviews with people in unions and nongovernmental organizations the essays diagnose the problems faced by women workers across the world and assess the progress that unions in various countries have made in responding to those problems Some concerns addressed include the masculine culture of many unions and the challenges of female leadership within them laissez faire governance and the limited success of organizations working on these issues globally *Making Globalization Work for Women* brings together in a synthetic and fruitful

conversation the work and ideas of feminists unions NGOs and other human rights workers **Global Transformations**

David Held,1999 In this book the authors set forth a new model of globalization that lays claims to supersede existing models and then use this model to assess the way the processes of globalization have operated in different historic periods in respect to political organization military globalization trade finance corporate productivity migration culture and the environment Each of these topics is covered in a chapter which contrasts the contemporary nature of globalization with that of earlier epochs In mapping the shape and political consequences of globalization the authors concentrate on six states in advanced capitalist societies SIACS the United States the United Kingdom Sweden France Germany and Japan For comparative purposes other states particularly those with developing economics are referred to and discussed where relevant The book concludes by systematically describing and assessing contemporary globalization and appraising the implications of globalization for the sovereignty and autonomy of SIACS It also confronts directly the political fatalism that surrounds much discussion of globalization with a normative agenda that elaborates the possibilities for democratizing and civilizing the unfolding global transformation *Education in the Era of Globalization* Klas Roth,Ilan Gur-Ze'ev,2007-10-11 Education

seems to have lost its orientation in Western culture and is in disarray all over the globe in time of global transitions Globalizing capitalism is the general headline for some of the most profound deep and dramatic developments in our era that education must address The response of educationalists is only in its beginning and there is an urgent need to address the dramatic changes inflicted on promised to our era philosophically sociologically culturally ecologically physically aesthetically and politically In the proposed book we try to address the challenge of globalization to education in the broadest sense of the concept of education by treating this challenge in various perspectives through different disciplines and topics within which the challenge of globalization is conceived as the most profound dynamic of this historical moment a development that is realized in many diverse and different levels fields and spaces of human and natural existence The various texts in this collection written by some of the famous and interesting scholars in the field of philosophy of education and the sociology of education try to address the richness and diversity of the challenge of globalization It tries to reconstruct historically sociologically and philosophically the roots the practices and the fruits of globalization as a threat and as a gateway for new possibilities for today s education The collection is a meeting point for research that is not only analytical and critical but also offers new roads and possibilities for education in the 21st century in face of globalization As such this collection is unique in this field and opens the door for further research and public discussion on the future role of education *Democracy in a Global World* Deen K. Chatterjee,2008 Introduction Deen K Chatterjee Democracy and globalization Development ethics democracy and globalization David A Crocker Negotiating the global and the local situating transnational democracy and human rights Carol C Gould Autonomy diversity and universal human rights Relativism self determination and human rights James Nickel and David Reidy Constitutions and capabilities Martha C Nussbaum

Nationalism and global democracy The varieties of nationalism Andrew Oldenquist Global democracy international not cosmopolitan Kok Chor Tan Global public and the new world order Rawls law of peoples and the new world order William McBride The global public and its problems Frank Cunningham Making Globalisation a Force for Good Great Britain. Department of Trade and Industry, 2004 Globalisation refers to the process of growing interdependence between the economies and businesses of different countries with the ever increasing movement across national boundaries of goods services investment finance and jobs This White Paper considers the Government's policy approach towards international trade and investment based upon its commitment to sustainable development and in the context of an enlarged EU It addresses the implications of globalisation both nationally and internationally and sets out the Government's vision of a world trading system which is fair as well as free for all It contains three sections which focus on i the internationalisation of business markets and production EU developments and the experience of developing countries ii how to ensure the UK economy benefits from globalisation and iii the role of trade and investment in global poverty reduction including the Doha Development Agenda market liberalisation in developing countries international regulation agricultural trade and development environmental protection and labour standards promoting corporate social responsibility and improving the functioning of the World Trade Organization **A World United or a World Exploited?** Peter Price, 2014-09-01 The processes of globalisation are reshaping our world dramatically and rapidly The great issues of our day emphasise that we are all in this together startling inequalities pressures on the environment continuing hunger and poverty climate change economic integration mass migrations instant communications and recurring armed conflicts Beyond the Spirit of Empire Joerg Rieger, 2013-01-25 How does empire mould human subjectivity for instance and how does it affect the understanding of humans within the whole of creation This title analyzes the global empire in its political and economic dimensions in its symbolic constructions of power and in its general assumptions often taken for granted *Greed to Green* Charles Derber, 2015-11-17 This book shows how we can solve the climate change crisis which is the greatest threat humanity has faced Charles Derber a prominent sociologist and political economist shows that global warming is a symptom of deep pathologies in global capitalism In conversational and passionate writing Derber shows that climate change is capitalism's time bomb certain to explode unless we rapidly transform our economy and create a new green American Dream Derber shows there is hope in the financial meltdown and Great Recession we are now suffering The economic crisis has raised deep questions about Wall Street and the US capitalist model Derber systematically explores the causal links between capitalism and climate change a taboo subject in the U S and opens up new thinking to solve both the economic and climate crises **Globalization and Sustainable Development** Martin Oyevaar, Diego Vazquez-Brust, Harrie W.M. Van Bommel, 2017-09-16 This important core textbook explores the complex and dynamic nature of globalization and sustainability analyzing the main ideas ethical principles and processes driving the growth and development of the global

economy Including a wide range of international cases from a variety of industries it anchors key concepts in a modern global context and provides an overall picture of what it means to be a sustainable business Bridging international business business ethics and sustainable development the text enables students to place core concepts into a modern global context and provides an extensive and engaging pedagogical framework that carries the student from a foundation level through to a more advanced analysis This is an ideal textbook for undergraduate and postgraduate students taking modules in international business sustainable development the global economy or globalisation Global EmpowermentEmerging Practices Uma Narula,2008-10 **Reinventing Government for the Twenty-first Century** Dennis A. Rondinelli,G. Shabbir Cheema,2003 Melds theoretical models with practical experience Written by world renowned experts on public administration Guides future policy debates on helping to build effective and efficient states How does a government seeking to participate in and benefit from an integrated and interdependent world become more professional technologically proficient deregulated and accountable Reinventing Government for the Twenty First Century tells you how The authors identify the forces of globalization and the structural changes needed to increase state capacity and enhance global scale participation Professionals directly involved in assisting governments show public leaders and administrators how to improve the quality of their performance in government **Making Equal Rights Real** Jody Heymann,Adele Cassola,2012-02-27 Details approaches to implementing equal rights for women in Africa children in the Middle East and different minorities in Asia and North America *Making Globalization Work* Joseph E. Stiglitz,2007 This book focuses on policies that truly work offering fresh new thinking about the questions that shape the globalization debate including a plan to restructure a global financial system made unstable by America s debt ideas for how countries can grow without degrading the environment a framework for free and fair global trade and much more Throughout the author reveals that economic globalization continues to outpace both the political structures and the moral sensitivity required to ensure a just and sustainable world And he makes plain the real work that all nations must undertake to realize that goal Dust jacket **Political Morality in a Disenchanted World** Edmund Abegg,2013-06-20 Political morality concerns what programs and policies government ought to adopt What would this morality look like in a disenchanted world one in which rationality prevails The enchanted world is extensive including not just religion but traditional morality In this book Edmund Abegg constructs a coherent path that leads from abstract psychological and moral theory to ideal political and economic scenarios and then to their real world applications which for him are in terms of national political goals These goals individual autonomy and welfare function as political morality in this new framework in place of traditional mythical ideas such as justice Descriptive chapters on our current world indicate that these goals are in play if only partly Concerning these national moral political goals which may be domestic or international the crucial distinction he seeks to establish is between aggregated or big picture goals and individualized goals The latter are typically seen as establishing individual rights This book establishes a framework that

clarifies important public policy issues in a way not possible if a jungle growth of myth envelopes our efforts with confusion and unnecessary controversies

Globalization and Society Dr. Bindeshwar Prasad Mandal, 2021-09-11 Globalization is the process of international integration arising from the interchange of world views, products, ideas, and other aspects of culture. Put in simple terms, globalization refers to processes that promote worldwide exchanges of national and cultural resources. Advances in transportation and telecommunications infrastructure, including the rise of the Internet, are major factors in globalization, generating further interdependence of economic and cultural activities. Globalization's contribution to the alienation of individuals from their traditions may be modest compared to the impact of modernity itself, as alleged by existentialists such as Jean-Paul Sartre and Albert Camus. Globalization has expanded recreational opportunities by spreading pop culture, particularly via the Internet and satellite television. Religious movements were among the earliest cultural forces to globalize, spread by force, migration, evangelists, imperialists, and traders. Christianity, Islam, Buddhism, and more recently, sects such as Mormonism, have taken root and influenced endemic cultures in places far from their origins. Multilingual speakers outnumber monolingual speakers in the world's population. Multilingualism is becoming a social phenomenon governed by the needs of globalization and cultural openness. The book examines the subtle mechanisms of globalization and its effects, namely adding wealth and prosperity to a few while misery and devastation to societies in Asian, Latin American, and African countries, and especially India. The book shows that globalization perpetuates and worsens the already existing uneven development in the world.

Contents: Introduction, Economic Globalization, Society, Features of Globalization, Social and Cultural Impacts of Globalization, Globalization and its Effect on Cultural Diversity, Globalization, Equality and Non-discrimination, Globalization and Migration, Emerging Dilemmas and Policy Implications, Modernization Theory and Globalization Theory, The Future of Rural Communities in a Global Economy.
