The Making of Eastern Europe Philip Longworth, 1992-08-18 Why has the collapse of Communism resulted in so much disappointment for the hopeful millions of Eastern Europe In this original and provocative book Philip Longworth argues that their predicament is only partly due to the imposition of the Soviet system but rather they are the heirs of misfortune which dates back centuries In exploring the origins of current problems this sweeping history ranges from the present day to the time of Constantine the Great from the Urals to the Mediterranean and the Baltic and emphasises culture and society as well as politics and economics The resulting analysis provides the crucial and until now much needed long term background to the difficulties now facing Eastern Europe This new perspective and the insight it brings will improve our understanding of this complex region and be of immense value to all who want to understand Eastern Europe s past and present **The**

Bulent Gokay, 2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region **A History of**

Eastern Europe 1918 to the Present Ian D. Armour, 2021-04-08 Why is Eastern Europe still different from Western Europe more than a quarter century after the collapse of Communism A History of Eastern Europe 1918 to the Present shows how the roots of this difference are based in Eastern Europe s tortured 20th century Eastern Europe emerged in 1918 as the lands between new states whose weakness vis vis Germany and Soviet Russia soon became obvious The region was the main killing field of the Second World War which visited unimaginable horrors on its inhabitants before their liberation by the

Soviets in 1945 The imposition of Communist dictatorships on the region ironically only deepened Eastern Europe's backwardness Even in the post Communist period its problems continue to make it a fertile breeding ground for nationalism and political extremism A History of Eastern Europe 1918 to the Present explores the comparative backwardness of Eastern Europe and how this has driven strategies of modernisation it looks at the ways in which the region has served as a giant test tube for political experimentation and in particular at the enduring strength of nationalism which since 1989 has re emerged more virulent than ever This book is the essential textbook for any student of 20th century Eastern Europe Narrating Post/Communism Natasa Kovacevic, 2008-05-19 The transition of communist Eastern Europe to capitalist democracy post 1989 and in the aftermath of the Yugoslav wars has focused much scholarly attention in history political science and literature on the fostering of new identities across Eastern European countries in the absence of the old communist social and ideological frameworks This book examines an important but hitherto largely neglected part of this story the ways in which the West has defined its own identity and ideals via the demonization of communist regimes and Eastern European cultures as a totalitarian barbarian and Orientalist other It describes how old Orientalist prejudices resurfaced during the Cold War period and argues that the establishment of this discourse helped to justify transitions of Eastern European societies to market capitalism and liberal democracy suppressing Eastern Europe's communist histories and legacies whilst perpetuating its dependence on the West as a source of its own sense of identity It argues that this process of Orientalization was reinforced by the literary narratives of Eastern European and Russian anti communist dissidents and exiles including Vladimir Nabokov Czeslaw Milosz and Milan Kundera in their attempts to present themselves as native Eastern European experts and also emancipate themselves and their homelands as civilized enlightened and Westernized It goes on to suggest that the greatest potential for recognizing and overcoming this self Orientalization lies in post communist literary and visual narratives with their themes of disappointment in the social economic or political changes brought on by the transitions challenge of the unequal discursive power in East West dialogues where the East is positioned as a disciple or a mimic of the West and the various guises of nostalgia for communism
