Making Of Paul Klees Career 1914 19:

The Making of Paul Klee's Career, 1914-1920 Otto Karl Werckmeister, 1989-07-10 Paul Klee one of the preeminent artists of the twentieth century was associated with all of the major movements of the first half of the century expressionism cubism surrealism and abstraction In this economic and political history O K Werckmeister traces Klee s career as a professional artist concentrating on the years 1914 20 in which Klee rose from obscurity to recognition in the visual culture of the incipient Weimar Republic Werckmeister reveals the degree to which Klee who has been traditionally portrayed as aloof from politics and the vicissitudes of the art market was subject to and interacted with material conditions Drawing on rich documentary evidence records of Klee s sales reviews of his exhibitions the artist s published writings about his art unpublished correspondence as well as contemporary criticism Werckmeister follows Klee s transformation from an idiosyncratic abstract individualist to a metaphysical storyteller to mystical sage Werckmeister argues that this latter image was promoted by a number of influential art critics and dealers acting in cooperation with the artist himself This posture prompted Klee s success first in the war weary modernist art world of 1916 18 and then in the pseudo revolutionary art world of 1919 20 This work is a critical challenge to the myth of Klee s art and to the hagiography of his artistic personality Werckmeister s historical account is sure to be a controversial yet significant contribution to Klee studies one that will change the nature of Klee scholarship for some time to come **Imagine Math 7** Michele Emmer, Marco Abate, 2020-10-07

Parallel Modernism Chinghsin Wu, 2019-11-12 This significant historical study recasts modern art in Japan as a parallel modernism that was visually similar to Euroamerican modernism but developed according to its own internal logic Using the art and thought of prominent Japanese modern artist Koga Harue 1895-1933 as a lens to understand this process Chinghsin Wu explores how watercolor cubism expressionism and surrealism emerged and developed in Japan in ways that paralleled similar trends in the west but also rejected and diverged from them In this first English language book on Koga Harue Wu provides close readings of virtually all of the artist's major works and provides unprecedented access to the critical writing about modernism in Japan during the 1920s and 1930s through primary source documentation including translations of period art criticism artist statements letters and journals *The Material Imagination* Matthew Mindrup, 2016-03-03 In recent years architectural discourse has witnessed a renewed interest in materiality under the guise of such familiar tropes as material honesty form finding or digital materiality Motivated in part by the development of new materials and an increasing integration of designers in fabricating architecture a proliferation of recent publications from both practice and academia explore the pragmatics of materiality and its role as a protagonist of architectural form Yet as the ethos of material pragmatism gains more popularity theorizations about the poetic imagination of architecture continue to recede Compared to an emphasis on the design of visual form in architectural practice the material imagination is employed when the architect thinks matter dreams in it lives in it or in other words materializes the imaginary As an alternative to a formal approach in
