Lomell, Svein Hammer**

Making Crime Count:

Making Crime Count Kevin D. Haggerty, 2001-01-01 Haggerty sheds light on the gathering and disseminating of crime statistics through an examination of the Canadian Centre for Justice Statistics the branch of Statistics Canada responsible for producing data on the criminal justice system *Making Crime Count* Kevin D. Haggerty, 2001 Official statistics are one of the most important sources of knowledge about crime and the criminal justice system Yet little is known about the inner workings of the institutions that produce these numbers In this groundbreaking study Kevin D Haggerty sheds light on the process involved in the gathering and disseminating of crime statistics through an empirical examination of the Canadian Centre for Justice Statistics CCJS the branch of Statistics Canada responsible for producing data on the criminal justice system *Making Crime Count* details how the availability of criminal justice statistics has fostered a distinctive approach to the governance of crime and criminal justice What has emerged is a form of actuarial justice whereby crime is increasingly understood as a statistical probability rather than a moral failing At the same time statistics render criminal justice organizations amenable to governmental strategies that aim to manage the system itself Using contemporary work in the sociology of science as a frame Haggerty explores the means by which the CCJS has been able to produce its statistics The emphasis is on the extra scientific factors involved in this process the complex knowledge networks that must be aligned between assorted elements and institutions and specifically the continual negotiations between CCJS employees and the police over how to secure data for the uniform crime report survey The conclusions accentuate the need for anyone studying governance to consider the politics and processes of governmental knowledge production

Making History Count C. H. Feinstein, Mark Thomas, 2002 *Making History Count* introduces the main quantitative methods used in historical research The emphasis is on intuitive understanding and application of the concepts rather than formal statistics no knowledge of mathematics beyond simple arithmetic is required The techniques are illustrated by applications in social political demographic and economic history Students will learn to read and evaluate the application of the quantitative methods used in many books and articles and to assess the historical conclusions drawn from them They will also see how quantitative techniques can open up new aspects of an enquiry and supplement and strengthen other methods of research This textbook will encourage students to recognize the benefits of using quantitative methods in their own research projects The text is clearly illustrated with tables graphs and diagrams leading the student through key topics Additional support includes five specific historical data sets available from the Cambridge website

How Countries Count Crime John A. Eterno, Arvind Verma, Eli B. Silverman, 2022-09-30 This edited collection illuminates the weaknesses and strengths of crime reporting across a wide range of countries with a focus on democratic countries in which the police bear some accountability to citizens In one compendium for the first time this book documents how different countries record or fail to record crimes With chapters written by native authors who are experts on the practices of their respective countries the book explores practices in 15

different countries across the globe Organized with a parallel country by country approach the book describes and analyzes methods police use to record crimes with the awareness that the counting of crimes is not only an issue of empirical measurement but also one of social construction Crime reporting practices vary widely by country In some cases reports are not taken and in others reports are carefully based on preliminary investigations Willful manipulation of crime reports can and does occur and the book explores related factors such as political pressure personal ambition community safety and more Discussion questions at the end of each chapter help the reader evaluate the significant issues influencing each country The editors conclude by suggesting best practices for crime reporting and the collection of crime data A unique addition to this book is a foreword by Tofiq Murshudlu the Head of Drugs and Crime for the United Nations in Vienna The book is intended for a wide range of audiences including policing scholars law enforcement and community leaders and students of criminal justice

Making It Count Stanley Lieberman, 1987-03-16 This title reexamines and reconsiders the model of empirical research underlying most empirical work The goal is neither a whitewash nor capital punishment but rather it is to reform and mold empirical research into an activity that contributes as much as possible to a rigorous understanding of society Without worrying about defining science or even determining the essence of the scientific enterprise the goal is one that pools together logical thinking and empirically determined information One of the fundamental issues to be addressed in this volume Are there questions currently studied that are basically unanswerable even if the investigator had ideal nonexperimental data If so what are the alternative questions that can be dealt with successfully by empirical social research and how should they be approached In the chapters ahead it will be important to keep in mind this doctrine of the undoable Of course one cannot simply mutter undoable when a difficult obstacle is encountered turn off the computer and look in the want ads for a new job or at least a new task Instead it means considering if there is some inherent logical reason or sociological force that makes certain empirical questions unanswerable There are four types of undoable questions to consider those that are inherently impossible those that are premature those that are overly complicated and those that empirical and theoretical knowledge have nullified

Modernizing Crime Statistics National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on National Statistics, Panel on Modernizing the Nation's Crime Statistics, 2016-06-30 To derive statistics about crime to estimate its levels and trends assess its costs to and impacts on society and inform law enforcement approaches to prevent it a conceptual framework for defining and thinking about crime is virtually a prerequisite Developing and maintaining such a framework is no easy task because the mechanics of crime are ever evolving and shifting tied to shifts and development in technology society and legislation Interest in understanding crime surged in the 1920s which proved to be a pivotal decade for the collection of nationwide crime statistics Now established as a permanent agency the Census Bureau commissioned the drafting of a manual for preparing crime statistics intended for use by the police

corrections departments and courts alike The new manual sought to solve a perennial problem by suggesting a standard taxonomy of crime Shortly after the Census Bureau issued its manual the International Association of Chiefs of Police in convention adopted a resolution to create a Committee on Uniform Crime Records to begin the process of describing what a national system of data on crimes known to the police might look like The key distinction between the rigorous classification proposed in this report and the classifications that have come before in U S crime statistics is that it is intended to partition the entirety of behaviors that could be considered criminal offenses into mutually exclusive categories Modernizing Crime Statistics Report 1 Defining and Classifying Crime assesses and makes recommendations for the development of a modern set of crime measures in the United States and the best means for obtaining them This first report develops a new classification of crime by weighing various perspectives on how crime should be defined and organized with the needs and demands of the full array of crime data users and stakeholders

The Science of Crime Measurement Martin A.

Andresen,2014-01-03 Crime statistics are ubiquitous in modern society but how accurate are they This book investigates the science of crime measurement focussing on four main questions how do we count crime How do we calculate crime rates Are there other measurements of crime What are the issues surrounding crime statistics All too often we take the measurement of crime at face value when there is in fact a science behind it This book specifically deals with issues related to spatially referenced crime data that are used to analyse crime patterns across the urban environment The first section of the book considers alternative crime rate calculations The second section of the book contains a thorough discussion of a measure of crime specialisation Finally the third section of the book addresses a number of aggregation issues that are present with such data crime type aggregations temporal aggregations of crime data the stability of crime patterns over time and the importance of spatial scale This book builds on a growing body of literature on the science of crime measurement and offers a comprehensive account of this growing subfield of criminology The book speaks to wider debates in the fields of crime analysis environmental criminology and crime prevention and will be perfect reading for advanced level undergraduate and graduate students looking to find out more about the measurement of crime

Criminalization, Representation, Regulation

Deborah Brock,Amanda Glasbeek,Carmela Murdocca,2014-01-01 This book draws on Foucault s concept of governmentality as a lens to analyze and critique how crime is understood reproduced and challenged

The Criminological Foundations of Penal Policy Lucia Zedner,Andrew Ashworth,2003

The Criminological Foundations of Penal Policy brings together leading international criminologists to examine the link between the fruits of criminological research and the development of criminal justice policy This volume includes comparative discussions of the United States Germany Australia England and Wales It is divided into four parts Part 1 discusses the theoretical issues surrounding the relationship between public policy and the discipline of criminology Part 2 consists of three essays exploring historical aspects of that relationship Part 3 then examines three distinct areas of penal policy sentencing policing and parole as case studies of the influence of research upon

the development of policy Finally in Part 4 which is explicitly devoted to international comparisons there is a consideration of the factors that distinguish research projects that do influence criminal justice policy from those that appear not to The Criminological Foundations of Penal Policy is a volume in honour of Roger Hood Professor of Criminology and Director of the Centre for Criminological Research in the University of Oxford **Feminism Counts** Christina Hughes,Rachel Cohen,2013-09-13 This is an important and timely text that provides a unique overview of contemporary quantitative approaches to gender research The contributors are internationally recognised researchers from the UK USA and Sweden who occupy a range of disciplinary locations including historical demography sociology and policy studies Their research includes explorations of heterosexual and same sex violence media responses to feminist research data sources for the study of equalities approaches for analysing global and local demographic change and intersectional concerns in respect of work and employment Through detailed sophisticated and thoughtful considerations of the place of quantification within gender studies and the place of feminist approaches to quantification each contributor overturns the stereotype that quantitative research is antithetical to feminism by demonstrating its importance for challenging continuing global inequalities associated with gendered outcomes An introductory chapter illustrates the significance of geography and discipline in the take up of methodological preferences Feminism Counts Quantitative Methods and Researching Gender makes an important contribution to the ways in which feminists respond to contemporary methodological and interdisciplinary challenges and is essential reading for all research students in gender studies This book was originally published as a special issue of the International Journal of Social Research Methodology The Routledge Handbook of Chinese Criminology Liqun Cao,Ivan Y. Sun,Bill Heberton,2013-07-24 As the world s second largest economy China has made great progress in developing criminology The Routledge Handbook of Chinese Criminology aims to be a key reference point to summarize the large body of literature in both Chinese and English about various aspects of crime and its control in China for international scholars with an interest in the development of criminological research on and in the Greater China region and for everyone with a broad interest in international criminology The editors of the handbook have selected authoritative contributors recognized for their research and scholarship on China Hong Kong Macao and Taiwan This handbook consists of five sections An account of the development of criminology as an academic discipline in modern China as well as some of the unique theories strategies or philosophies of crime control that have emerged An analysis of the criminal justice system in China including the police the courts corrections juvenile justice and the death penalty An exploration of the issues and problems in conducting research in China Reflections on the nature of crime and criminality in China including drugs prostitution human trafficking corruption floating population domestic violence and white collar crime An account of crime and criminal justice in Taiwan Hong Kong and Macao The book presents a coherent and comprehensive collection of essays on current research and theory in criminology crime and justice in China and Greater China and the Editors Introduction and Conclusion provide

further contextualisation of the Handbook's key themes The Encyclopedia of Crime and Punishment Wesley G. Jennings, George E. Higgins, Mildred M. Maldonado-Molina, David N. Khey, 2016-01-19 The Encyclopedia of Crime and Punishment provides the most comprehensive reference for a vast number of topics relevant to crime and punishment with a unique focus on the multi interdisciplinary and international aspects of these topics and historical perspectives on crime and punishment around the world Named as one of Choice's Outstanding Academic Titles of 2016 Comprising nearly 300 entries this invaluable reference resource serves as the most up to date and wide ranging resource on crime and punishment Offers a global perspective from an international team of leading scholars including coverage of the strong and rapidly growing body of work on criminology in Europe Asia and other areas Acknowledges the overlap of criminology and criminal justice with a number of disciplines such as sociology psychology epidemiology history economics and public health and law Entry topics are organized around 12 core substantive areas international aspects multi interdisciplinary aspects crime types corrections policing law and justice research methods criminological theory correlates of crime organizations and institutions U S victimology and special populations Organized authored and Edited by leading scholars all of whom come to the project with exemplary track records and international standing 3 Volumes www.crimeandpunishmentencyclopedia.com

Modernizing Crime Statistics: Report 2 National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on National Statistics, Panel on Modernizing the Nation's Crime Statistics, 2018-05-23 To derive statistics about crime to estimate its levels and trends assess its costs to and impacts on society and inform law enforcement approaches to prevent it a conceptual framework for defining and thinking about crime is virtually a prerequisite Developing and maintaining such a framework is no easy task because the mechanics of crime are ever evolving and shifting tied to shifts and development in technology society and legislation Interest in understanding crime surged in the 1920s which proved to be a pivotal decade for the collection of nationwide crime statistics Now established as a permanent agency the Census Bureau commissioned the drafting of a manual for preparing crime statistics intended for use by the police corrections departments and courts alike The new manual sought to solve a perennial problem by suggesting a standard taxonomy of crime Shortly after the Census Bureau issued its manual the International Association of Chiefs of Police in convention adopted a resolution to create a Committee on Uniform Crime Records to begin the process of describing what a national system of data on crimes known to the police might look like Report 1 performed a comprehensive reassessment of what is meant by crime in U S crime statistics and recommends a new classification of crime to organize measurement efforts This second report examines methodological and implementation issues and presents a conceptual blueprint for modernizing crime statistics Little Bites of Big Data for Public Policy Donald F. Kettl, 2017-02-23 Little Bites of Big Data for Public Policy brings to life the quest to make better policy with better evidence This brief book frames the big puzzles and through lively stories and clear examples provides a valuable how to

guide for producing analysis that works that speaks persuasively to policy makers in the language they can best hear on the problems for which they most need answers Author Donald F Kettl brings together the cutting edge streams of data analytics and data visualization to frame the big puzzles and find ways to make the pieces fit together By taking little bites of a wide variety of useful data and then by analyzing it in ways that decision makers will find most helpful analysts can be much more effective in shaping solutions to the most important problems governments face **The Mutual Construction of**

Statistics and Society Ann Rudinow Saetnan, Heidi Mork Lomell, Svein Hammer, 2010-09-13 Statistics are often seen as simple straightforward and objective descriptions of society However what we choose to count what we choose not to count who does the counting and the categories and values we choose to apply when counting matter This volume addresses the ways in which statistics and numbers are gathered and applied in social science research The contributors argue that we must become more aware of the power and the limitations of statistics Learning statistics needs to be about more than simply mastering the techniques of using the tool it needs to also be about learning the dangers of that tool and learning to control it within social and ethical bounds These dangers lie in the routines through which statistics are applied the discourses from which they emerge and into which they are deployed the power relations created by those discourses and the assumptions meanings and categories statistics carry with them in those discourses This volume will be necessary reading for students and scholars using quantitative data within the social sciences **Research Methods in the Social and Health Sciences**

Ted Palys, Chris Atchison, 2021-02-05 Research Methods in the Social and Health Sciences Research Decisions by Ted Palys and Chris Atchison gives students a thorough thoughtful and highly readable introduction to the entire research process from start to finish From its underlying premise that your research questions and objectives rather than any specific method should guide your research this book discusses each step of the research process from limiting the scope of a literature review to navigating ethical considerations to deciding which methods are best suited for finding answers to specific research questions to how to analyze data and present findings Readers are encouraged to think deeply about each step of the research process The book promotes this deliberation by discussing the strengths and limitations of different methods and Throughout the process the authors provide many examples from their own and student research sharing insights for research decisions arising from that experience Readers will develop the skills to create solid research questions perform literature reviews identify appropriate data sources and methods conduct research analyze and interpret data and translate the resulting knowledge generated from the research process to a wider audience all core parts of the research process by developing their knowledge and creating confidence in their own decision making skills After explaining the unique and often complementary strengths of qualitative and quantitative methods students focus on what methods are best suited for finding answers to the research questions that interest them Major types of research including experiments case studies surveys quasi experiments ethnographies focus groups participatory action research and archival studies all receive significant

coverage The text illustrates how these methods are enhanced by integrating them with 21st century technologies and combining them in mixed methods projects Chapters on constructing a research proposal and disseminating research bookend the process with concrete steps in between to support students designing their own original research projects Study questions at the end of each chapter encourage students to think critically about the research process and how the choices a researcher makes will broaden or constrain what they can find By the end of the text social and health science students will feel confident in undertaking ethical and thoughtful research

Crime Statistics in the News Jairo

Lugo-Ocando,2017-10-06 This book offers a comparative exploration of how journalists across different newsrooms around the world access and interpret statistics when producing stories related to crime Looking at the nature of news sources regularly used by journalists Lugo Ocando analyses how these numbers are used to report crime As the author argues far from being straightforward the relationship between numbers and journalists in the context of crime reporting is complex and at times problematic Because the reporting of crime statistics impacts upon policymaking we need to better understand how these statistics are used and reported in order to improve the process of decision Finally Lugo Ocando maintains that the only way to create a fairer justice system and a better informed general public is by improving the way crime is covered in the news A compelling and informed text this book will be of interest to scholars and students of criminology and journalism alike

Federal Decisions: Crime United States. Courts,1885 Migrants in Europe Arnold Marshall

Rose,1969 **International Handbook of Criminology** Shlomo Giora Shoham,Paul Knepper,Martin Kett,2010-02-23 The second handbook in the Shoham trilogy which includes the esteemed International Handbook of Penology and Criminal Justice and the upcoming International Handbook of Victimology this volume is a comprehensive treatment of criminology theory This text contains contributions from 25 of the top international scholars in the field across a wide range of disciplines Topics include social deviance research methods biological and physiological explanations personality types and family socialization processes The book also explores ecological and economic factors differential association and situational crime prevention cultural conflicts and immigration as well as stigmas group delinquency and juvenile delinquency

Getting the books **Making Crime Count** now is not type of inspiring means. You could not single-handedly going in the manner of books heap or library or borrowing from your links to read them. This is an entirely simple means to specifically acquire guide by on-line. This online message Making Crime Count can be one of the options to accompany you as soon as having new time.

It will not waste your time. how to me, the e-book will extremely manner you other concern to read. Just invest little mature to log on this on-line revelation **Making Crime Count** as well as evaluation them wherever you are now.

Making Crime Count Introduction

Making Crime Count Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Making Crime Count Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Making Crime Count : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Making Crime Count : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Making Crime Count Offers a diverse range of free eBooks across various genres. Making Crime Count Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Making Crime Count Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Making Crime Count, especially related to Making Crime Count, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Making Crime Count, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Making Crime Count books or magazines might include. Look for these in online stores or libraries. Remember that while Making Crime Count, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Making Crime Count eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Making Crime Count full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Making Crime Count eBooks, including some popular titles.

FAQs About Making Crime Count Books

1. Where can I buy Making Crime Count books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Making Crime Count book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Making Crime Count books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Making Crime Count audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide selection of audiobooks.
8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Making Crime Count books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
