Lectures on the History of Moral Philosophy John Rawls, Barbara Herman, 2000-11-15 The premier political philosopher of his day John Rawls in three decades of teaching at Harvard has had a profound influence on the way philosophical ethics is approached and understood today This book brings together the lectures that inspired a generation of students and a regeneration of moral philosophy It invites readers to learn from the most noted exemplars of modern moral philosophy with the inspired guidance of one of contemporary philosophy s most noteworthy practitioners and teachers Central to Rawls s approach is the idea that respectful attention to the great texts of our tradition can lead to a fruitful exchange of ideas across the centuries In this spirit his book engages thinkers such as Leibniz Hume Kant and Hegel as they struggle in brilliant and instructive ways to define the role of a moral conception in human life The lectures delineate four basic types of moral reasoning perfectionism utilitarianism intuitionism and the ultimate focus of Rawls s course Kantian constructivism Comprising a superb course on the history of moral philosophy they also afford unique insight into how John Rawls has transformed our view of this history

Jewish Exiles' Psychological Interpretations of Nazism Avihu Zakai, 2020-08-31 This book examines works of four German Jewish scholars who in their places of exile sought to probe the pathology of the Nazi mind Wilhelm Reich s *The Mass Psychology of Fascism* 1933 Erich Fromm s *Escape from Freedom* 1941 Siegfried Kracauer s *From Caligari to Hitler A Psychological History of the German Film* 1947 and Erich Neumann s *Depth Psychology and a New Ethic* 1949 While scholars have examined these authors individual legacies no comparative analysis of their shared concerns has yet been undertaken nor have the content and form of their psychological inquiries into Nazism been seriously and systematically analyzed Yet the sense of urgency in their works calls for attention They all took up their pens to counter Nazi barbarism believing like the English jurist and judge Sir William Blackstone who wrote in 1753 *scribere est agere* to write is to act

African Psychology Augustine Nwoye, 2022 One of the most unprecedented developments in the history of the scientific study of psychology in postcolonial Africa is the recent welcome inclusion of the study of African psychology within the

psychology degree curriculum of some foreword thinking African universities In each of those universities such as the University of KwaZulu Natal in South Africa and Kenyatta University in Nairobi Kenya East Africa there now exists a gradual entrenchment of the African derived psychology in the curricular provisions of their psychology degree programmes With particular reference to the University of KwaZulu Natal in South Africa for instance a number of African psychology based modules have recently been developed approved and incorporated into the list of modules for psychology degree students at the undergraduate Honours and the Master s degree levels see University of KwaZulu Natal College of Humanities Handbook 2018

The Roots of Nazi Psychology Jay Y. Gonen,2000 Was Hitler a moral aberration or a man of his people This topic has been hotly argued in recent years and now Jay Gonen brings new answers to the debate using a psychohistorical perspective contending that Hitler reflected the psyche of many Germans of his time Like any charismatic leader Hitler was an expert scanner of the Zeitgeist He possessed an uncanny ability to read the masses correctly and guide them with new ideas that were merely reflections of what the people already believed Gonen argues that Hitler s notions grew from the general fabric of German culture in th

The Psychology of Populism Joseph P. Forgas,William D. Crano,Klaus Fiedler,2021-02-18 The recent rise of populist politics represent a major challenge for liberal democracies This important book explores the psychological reasons for the rise of populism featuring contributions from leading international researchers in the fields of psychology and political science Unlike liberal democracy based on the Enlightenment values of individual freedom autonomy and rationality both right wing and left wing populism offer collectivist autocratic formulations reminiscent of the evolutionary history and tribal instincts of our species The book offers a comprehensive overview of the psychology of populism covering such phenomena as identity seeking anger and fear collective narcissism grievance norms perceptions of powerlessness and deprivation authoritarianism nationalism radicalism propaganda and persuasion ethnocentrism xenophobia and the effects of globalization The book is divided into four parts Part I deals with the motivational and emotional factors that attract voters to populist causes and the human needs and values that populist movements satisfy Part II analyzes the cognitive features of populist appeals especially their emphasis on simplicity epistemic certainty and moral absolutism Part III turns to one of the defining features of populism its offer of a powerful tribal identity and collectivist ideology that provide meaning and personal significance to its followers Finally in Part IV the propaganda tactics used by populist movements are analysed including the role of charismatic leadership authoritarianism and nationalism and the use of conspiracy narratives and persuasive strategies This is fascinating reading on a highly topical issue The book will be of interest to students researchers and applied professionals in all areas of

psychology and the social sciences as a textbook or reference book and to anyone interested in the global rise of populism Please follow this link for an insightful interview by one of the editors of the book Joseph P Forgas <https://www.routledge.com/blog/article/editor-interview-the-psychology-of-populism> We have also created a short promotional video for the book here <https://www.youtube.com/watch?v=iK1BEF8WyMA> *The Complexity and Progression of Black Representation in Film and Television* David L. Moody, 2016-06-02 The Complexity and Progression of Black Representation in Film and Television examines the intricacies of race representation Black masculinity sexuality class and color in American cinema and television Black images on the silver screen date back to the silent film era yet these films and television programs presented disturbing images of African American culture and regrettably many early films and small screen programs portrayed Black characters in demeaning and stereotypical roles In order to fully analyze the roles of Black actors and actresses in film and television Moody addresses the following issues the historical significance of the term race films female Black identities and constructs queerness and Black masculinity Black male identities and Black buffoonery in film and television Internalized Oppression Eric John Ramos David, 2013-12-09 Print CourseSmart *Learning Race, Learning Place* Erin N. Winkler, 2012-11-15 In an American society both increasingly diverse and increasingly segregated the signals children receive about race are more confusing than ever In this context how do children negotiate and make meaning of multiple and conflicting messages to develop their own ideas about race Learning Race Learning Place engages this question using in depth interviews with an economically diverse group of African American children and their mothers Through these rich narratives Erin N Winkler seeks to reorient the way we look at how children develop their ideas about race through the introduction of a new framework comprehensive racial learning that shows the importance of considering this process from children's points of view and listening to their interpretations of their experiences which are often quite different from what the adults around them expect or intend At the children's prompting Winkler examines the roles of multiple actors and influences including gender skin tone colorblind rhetoric peers family media school and especially place She brings to the fore the complex and understudied power of place positing that while children's racial identities and experiences are shaped by a national construction of race they are also specific to a particular place that exerts both direct and indirect influence on their racial identities and ideas *Future Work in Clinical Child and Adolescent Psychology* Mitchell J. Prinstein, 2018-10-18 Preeminent clinical child and adolescent psychological scientists offer an agenda for future research in this compendium of thought pieces On a wide range of topics including ADHD depression self injury emotion regulation conduct problems addictions clinical assessment and therapy and many more scientists review the current state of the literature and offer specific recommendations for what investigators next need to tackle to reduce mental illness among youth Chapters include a discussion of theories and methods in clinical child and adolescent psychology current funding priorities and the intersection of traditional clinical psychology research with the burgeoning field of psychological neuroscience This book is an essential

resource for classes on clinical child and adolescent psychopathology and treatment It also provides a unique guide for undergraduate and early graduate students who are determining how to start their research careers in the field All of the chapters in this book were originally published as articles in the Journal of Clinical Child and Adolescent Psychology

Wisdom's Friendly Heart Jennifer Hockenbery, 2020-09-25 Sixteen hundred years ago Augustine begged his African congregants to think rationally pay attention to evidence and listen to their neighbors He knew this would not be easy He knew that human error is more common than human knowledge He himself had been a member of an elitist cult for nearly ten years and then had spent several years as a skeptic resigned to seeking wealth and honors rather than hoping for truth or goodness He would not be surprised by the rise of white supremacist cults or the nihilistic apathy that have arisen in the post truth era He had seen nativism elitism fear and doubt rise in response to a crisis of hope that truth could be found a crisis that led to the use of physical force rather than educated disputation a crisis that ended in the fall of both Rome and Carthage to Vandals and Visigoths Augustine s response was to preach publically the hope that encouraged him in his own personal quest for a happy life This book examines that hope in Augustine s context until the current moment
