Manifesto Of Entrepreneurial Democracies:

The Manifesto of Entrepreneurial Democracies Alexandre Raab, 1989 *Transformative Researchers and Educators for Democracy* João M. Paraskeva, Thad LaVallee, 2015-02-27 The 2012 Critical Transformative Educational Leadership and Policy Annual Conference hosted by the University of Massachusetts Dartmouth met head on with issues of neoliberalism educational democracy cultural politics public education and seeing teachers and administrators as critical transformational leaders This book is a collection of the highlights of that conference that addresses these arenas of debate from the presentations of Deborah Meier Ken Saltman Clyde Barrow and Joao Rosa among others to the works of emerging academics and intellectuals in the field of education The book to serve as an antidote to such ill informed thinking before it becomes a part of the cultural commonsense much the way the manufactured realities of high stakes testing standardization and police guarded schools have become normative It is urgent to learn to accurately read reality in a world in which language and discourse are being resignified to confuse people and turn reality into a board game a world which large corporations and global financial powers play the role of the old mythological gods creators of dogmas and flamboyant realities that they want us to submit and worship This volume is an outcome of an important political critical transformative pedagogical project that challenges the lethal consequences of the impact of neoliberal policies in education We need to welcome Paraskeva and LaVallee s contribution since it offers a crucial tool to help us articulate accurately a critical diagnosis as well as solutions for a more just and democratic public education that cultivates humanity Jurjo Torres Santom University of Corunha Spain This new collection Transformative Researchers and Educators for Democracy Dartmouth Dialogues is one of the most impressive outcomes of a critical transformative program at the University of Massachusetts Dartmouth Jo o M Paraskeva and Thad LaVallee provide their readers with a careful selection of chapters that explore the idea of critical and transformative leadership for a democratic conception of education focusing on a range of related themes in understanding the dimensions of cultural and organizational change A crucial volume focusing on aspects of the critique of neoliberal globalization in education and a needed book that insightfully combines critique and robust analysis with a utopian and positive agenda for critical transformation Michael A Peters University of Waikato NZ and University of Illinois Urbana Champaign USA This edited volume is the result of an amazing critical transformative program in educational leadership and policy studies chaired by Jo o M Paraskeva Paraskeva and LaVallee produced an important contribution to a timely topic that provides clear evidences that the free market model of education it is not a hope for good public education This book is not only important to US educators but it is really crucial for educators all over the world What is analyzed in this book is taking place in Europe Asia Latin America Africa and the Middle East Alvaro Moreira Hypolito University Federal de Pelotas Brasil *The Workshop of Democracy* James MacGregor Burns, 1985 *Comparing New Democracies* Enrique A. Baloyra, 2019-04-09 The transition to democracy has been a significant trend in Mediterranean Europe and Latin America during the last ten years

This book presents comparative analyses that offer a theoretical synthesis of the dynamics of recent democratization processes on both sides of the Atlantic. The contributors argue that transition is a response to fundamental **Democracy as Problem Solving** Xavier De Souza Briggs, 2008-07-18. Case studies from around the world and theoretical discussion show how the capacity to act collectively on local problems can be developed, strengthening democracy while changing social and economic outcomes. Complexity, division, mistrust, and process paralysis can thwart leaders and others when they tackle local challenges. In *Democracy as Problem Solving*, Xavier de Souza Briggs shows how civic capacity—the capacity to create and sustain smart collective action—can be developed and used. In an era of sharp debate over the conditions under which democracy can develop while broadening participation and building community, Briggs argues that understanding and building civic capacity is crucial for strengthening governance and changing the state of the world in the process. More than managing a contest among interest groups or spurring deliberation to reframe issues, democracy can be what the public most desires: a recipe for significant progress on important problems. Briggs examines efforts in six cities in the United States—Brazil, India, and South Africa—that face the millennial challenges of rapid urban growth, economic restructuring, and investing in the next generation. These challenges demand the engagement of government, business, and nongovernmental sectors. And the keys to progress include the ability to combine learning and bargaining, continuously forge multiple forms of accountability, and find ways to leverage the capacity of the grassroots and what Briggs terms the grassstops, regardless of who initiates change or who participates over time. Civic capacity, Briggs shows, can and must be developed even in places that lack traditions of cooperative civic action.

The Entrepreneurial Imperative Carl J. Schramm, PhD, 2013-02-26. In 2004, Carl Schramm, president of the Kauffman Foundation, the world's leading foundation for entrepreneurship, published a groundbreaking essay with a radical premise: that Americans literally have no conception of the secret that truly underlies our economic success and that for the United States to survive and continue to lead the world's economy, it is imperative we learn to understand and employ that secret. The secret that has led the American economy to become the world's strongest? Our unparalleled skill as entrepreneurs. As Schramm compellingly shows in this sweeping manifesto, entrepreneurship alone—not anything else—can give America the necessary leverage to remain an economic superpower. Not technology, since everyone now has the same technology or access to it. Not education, we are years behind other nations in this area. Not basic manufacturing, long since moved overseas from the United States. And not capital markets, now truly global entities. Drawing on detailed research conducted by the Kauffman Foundation and on his decades of experience as an entrepreneur himself and as a leader and mentor to other entrepreneurs, Schramm persuasively demonstrates in detail what this entrepreneurial imperative means for the way we run universities and foundations, lead companies, make personal job decisions, and even conduct our foreign affairs. *The Entrepreneurial Imperative* will change not only the way our government corporations and nonprofits operate but also our day-to-day lives as working Americans.

The Struggle for Democracy in Chile Paul W.

Drake, Ivan Jaksic, 1995-01-01 This revised edition of *The Struggle for Democracy in Chile* should prove even more useful to the student of Latin American history and politics than the original. It updates important background information on the evolution of Chile's military dictatorship in the 1970s and its erosion in the 1980s. Brian Loveman, an authority on contemporary Chilean politics, offers a comprehensive examination of the transition to civilian government in Chile from 1990 to 1994 in a substantial new chapter. Loveman chronicles the rise of the Concertación coalition, the strained relations between General Pinochet's military and President Aylwin's civilian government, and the roles of the National Women's Service (SERNAM), the Catholic Church, and the indigenous peoples of Chile. All eleven essays by the leading authorities on the Pinochet regime from the earlier edition have been retained. The bibliography has been updated and the index improved. *The Struggle for Democracy in Chile* remains the first and foremost book on the transition over the last twenty-five years from dictatorship to democracy in Chile.

Dance of Democracy E. Sudhakar, 2023-08-31 This is a general narration of the entire drama of the elections in the largest democracy of the world, India. Being a slugfest intended to decide who should sit in the seat of power, it attracts a lot of attention within and outside the country and ropes in a number of enthusiastic actors, big and small, and rakes up a lot of din and dust, throwing up money and material in the process. The general elections are a quinquennial affair in India, and every time they are held, they create a lot of commotion and hype throughout the country. This time around, i.e. in 2019, this battle of ballots provided a colourful, intensely absorbing and juicy drama which was not witnessed on previous occasions, with some exceptions. There were many players in the arena with an ardent desire to seize power, including the incumbent prime minister, Mr. Narendra Modi, and others like Mamata Banerjee, Mayawati, K. Chandrashekharao, Sharad Pawar, Arvind Kejriwal, Deve Gowda, and of course, the Gandhi scion, Rahul. The array of political stalwarts, everyone having with an axe to grind and everyone exuding fierce instinct and confidence to fight the sworn enemy, viz. the Bharatiya Janata Party, and its top leader and Prime Minister, Narendra Modi, made it a saga of grand proportions. As every election brings some lessons, messages, and some experiences to guide the political leaders, people, and the scholars, this story of 2019 elections is a piece of brief political history that can guide to assess the past and prove to be an instrument of reality check to the political parties, its leaders, and the people.

Protest and Democracy Claudius Wagemann, Toma Burean, Dan Mercea, Lorenzo Mosca, Christina Neumayer, 2025-02-11 This book offers an interdisciplinary analysis of the interplay between protest and institutions during an era of multiple crises in Denmark, Germany, Hungary, Italy, Romania, and the UK. Focusing on the interaction between citizens' social movements and movement parties and questions of democratic quality related to participation, competition, and responsiveness, it considers the role of traditional and social media when connecting institutional and non-institutional arenas. Building on insights from political science, sociology, and communication studies, it combines an original cross-national survey, interviews, media analysis, document analysis, statistical analytical techniques, critical discourse analysis, social network analysis, and natural language processing in a comparative

perspective *Makers of Democracy* A. Ricardo López-Pedreros, 2019-03-28 In *Makers of Democracy* A. Ricardo López-Pedreros traces the ways in which a thriving middle class was understood to be a foundational marker of democracy in Colombia during the second half of the twentieth century. Drawing on a wide array of sources ranging from training manuals and oral histories to school and business archives, López-Pedreros shows how the Colombian middle class created a model of democracy based on free market ideologies, private property rights, material inequality, and an emphasis on a masculine work culture. This model, which naturalized class and gender hierarchies, provided the groundwork for Colombia's later adoption of neoliberalism and inspired the emergence of alternate models of democracy and social hierarchies in the 1960s and 1970s that helped foment political radicalization. By highlighting the contested relationships between class, gender, economics, and politics, López-Pedreros theorizes democracy as a historically unstable practice that exacerbated multiple forms of domination, thereby prompting a rethinking of the formation of democracies throughout the Americas.

Manipulating Democracy

Wayne Le Cheminant, John M. Parrish, 2010-09-22 Manipulation is a source of pervasive anxiety in contemporary American politics. Observers charge that manipulative practices in political advertising, media coverage, and public discourse have helped to produce an increasingly polarized political arena: an uninformed and apathetic electorate, election campaigns that exploit public fears and prejudices, a media that titillates rather than educates, and a policy process that too often focuses on the symbolic rather than substantive. *Manipulating Democracy* offers the first comprehensive dialogue between empirical political scientists and normative theorists on the definition and contemporary practice of democratic manipulation. This impressive array of distinguished scholars—political scientists, philosophers, cognitive psychologists, and communications scholars—collectively draw out the connections between competing definitions of manipulation, the psychology of manipulation, and the political institutions and practices through which manipulation is seen to produce a tightly knit exploration of an issue at the heart of democratic politics.

[The Routledge Handbook of Collective Intelligence for Democracy and Governance](#) Stephen Boucher, Carina Antonia Hallin, Lex Paulson, 2023-06-19 *The Routledge Handbook of Collective Intelligence for Democracy and Governance* explores the concepts, methodologies, and implications of collective intelligence for democratic governance in the first comprehensive survey of this field. Illustrated by a collection of inspiring case studies and edited by three pioneers in collective intelligence, this handbook serves as a unique primer on the science of collective intelligence applied to public challenges and will inspire public actors, academics, students, and activists across the world to apply collective intelligence in policymaking and administration to explore its potential both to foster policy innovations and reinvent democracy. *The Routledge Handbook of Collective Intelligence for Democracy and Governance* is essential reading and an authoritative reference for scholars, students, researchers, and practitioners of public policy, public administration, governance, public management, information technology, and systems innovation, as well as more broadly for political science, psychology, management studies, public organizations, and individual policy practitioners, public authorities.

Democracy, Civic Culture and Small Business in Russia's Regions Molly O'Neal,2015-08-20 This book adopts a novel analytical approach to understanding how Russia s stalled democratisation is related to the incomplete liberalisation of the economy Based on extensive original comparative study of Russia s regions the book explores the precise channels of interaction that create the mutuality of property rights entrepreneurship rule of law norms of citizenship and liberal democracy It demonstrates that the extent of democratisation varies across regions and that this variation is connected to the extent of liberalisation of the economy Moreover it argues that the key factor in producing this linkage is the relative prominence of small business owners and their supporters in articulating their interests vis vis regional and local administrations especially through the institutionalisation of networks and business associations The book develops its key theses by means of detailed analysis of the experiences of four case study regions Overall the book provides a major contribution to understanding the path of democratisation in Russia

The SAGE Handbook of Digital Journalism Tamara Witschge, C. W. Anderson, David Domingo, Alfred Hermida, 2016-05-18 The production and consumption of news in the digital era is blurring the boundaries between professionals, citizens, and activists. Actors producing information are multiplying, but still media companies hold central position. Journalism research faces important challenges to capture, examine, and understand the current news environment. The SAGE Handbook of Digital Journalism starts from the pressing need for a thorough and bold debate to redefine the assumptions of research in the changing field of journalism. The 38 chapters, written by a team of global experts, are organized into four key areas: Section A Changing Contexts, Section B News Practices in the Digital Era, Section C Conceptualizations of Journalism, and Section D Research Strategies. By addressing both institutional and non-institutional news production and providing ample attention to the question of who is a journalist and the changing practices of news audiences in the digital era, this Handbook shapes the field and defines the roadmap for the research challenges that scholars will face in the coming decades.
