Senate. Committee on Foreign Relations. Subcommittee on Multinational Corporations, 1973 The Rising Clamor David P. Hadley, 2019-06-14 The US intelligence community as it currently exists has been deeply influenced by the press Although considered a vital overseer of intelligence activity the press and its validity is often questioned even by the current presidential administration But dating back to its creation in 1947 the US Central Intelligence Agency CIA has benefited from relationships with members of the US press to garner public support for its activities defend itself from its failures and promote US interests around the world Many reporters editors and publishers were willing and even eager to work with the agency especially at the height of the Cold War That relationship began to change by the 1960s when the press began to challenge the CIA and expose many of its questionable activities Respected publications went from studiously ignoring the CIA s activities to reporting on the Bay of Pigs CIA pacification programs in Vietnam the CIA s war in Laos and its efforts to use US student groups and a variety of other non government organizations as Cold War tools This reporting prompted the first major congressional investigation of the CIA in December 1974 In *The Rising Clamor* The American Press the Central Intelligence Agency and the Cold War David P Hadley explores the relationships that developed between the CIA and the press its evolution over time and its practical impact from the creation of the CIA to the first major congressional investigations of its activities in 1975 76 by the Church and Pike committees Drawing on a combination of archival research declassified documents and more than 2 000 news articles Hadley provides a balanced and considered account of the different actors in the press and CIA relationships how their collaboration helped define public expectations of what role intelligence should play in the US government and what an intelligence agency should be able to do **Multinational Corporations and United States Foreign Policy** United States. Development, Growth, and State of the Atomic Energy Industry United States. Congress. Joint Committee on Atomic Energy,1960 Hearings United States. Congress. House,1959 Eisenhower, Science Advice, and the Nuclear Test-Ban Debate, 1945-1963 Benjamin P. Greene,2007 Based on extensive research in government archives and private papers this book analyzes the secret debate within the Eisenhower administration over the pursuit of a nuclear test ban agreement In contrast to much recent scholarship this study concludes that Eisenhower strongly desired to reach an accord with the Soviet Union and the United Kingdom to cease nuclear weapons testing For Eisenhower a test ban would ease Cold War tensions slow the nuclear arms race and build confidence toward disarmament however he faced continual resistance from his early scientific advisers most notably Lewis L Strauss and Edward Teller Extensive research into previously unavailable government archival sources and collections of private manuscripts reveals the manipulative acts of test ban opponents and other factors that inhibited Eisenhower s actions throughout his presidency Meticulously analyzed these sources underscore Eisenhower s dependence on the counsel of his science advisors such as Strauss James R Killian and George B Kistiakowsky to determine the course he pursued in regard to several components of his national security strategy In addition to its comprehensive analysis of the test ban debate this book makes important contributions to the scholarly

literature assessing Eisenhower's leadership and his approach to arms control Investigation of the National Defense Program United States. Congress. Senate. Special Committee Investigating the National Defense Program, 1941 Part 41 focuses on Navy fuel purchase contracts for Saudi Arabian oil and businesses use of institutional advertising for tax exemptions during and after the war
