Traveling Prehistoric Seas Alice Beck Kehoe,2015-12-15 Until recently the theory that people could have traversed large expanses of ocean in prehistoric times was considered pseudoscience But recent discoveries in places as disparate as Australia Labrador Crete California and Chile open the possibility that ancient oceans were highways not barriers and that ancient people possessed the means and motives to traverse them In this brief thought provoking but controversial book Alice Kehoe considers the existing evidence

in her reassessment of ancient sailing Her book critically analyzes the growing body of evidence on prehistoric sailing to help scholars and students evaluate a highly controversial hypothesis examines evidence from archaeology anthropology botany art mythology linguistics maritime technology architecture paleopathology and other disciplines presents her evidence in student accessible language to allow instructors to use this work for teaching critical thinking skills
