over a third of whom had been born overseas was a constantly shifting balance between the generation of wealth and respectability and the risks of inundation by poor newcomers. But while earlier studies have used this balance as a backdrop for the story of individual Jewish communities, this book highlights the interactions between the people who made them up. At the core of the book is the question of what membership of the imagined community of global Jewry meant, how it helped those who belonged to it, how it affected where they lived and who they lived with, the jobs that they did and the wealth or charity that they had access to. By stitching together patterns of residence, charity and worship, Alysa Levene is here able to reveal that religious and cultural bonds had vital functions both for making ends meet and for the formation of identity in a period of rapid demographic, religious and cultural change. *Nineteenth-century Britain*, 1980. Lord and Peasant in Nineteenth Century Britain Dennis Mills, 2016-06-17. First published in 1980, this book looks at the social structure of 18th and 19th century rural Britain. It is particularly concerned with the relationship of landlord and peasant in the rural village and examines the open/closed model of English rural social structure in great depth. In doing so, it explores the ways in which the estate system influenced urban development and how the peasant system facilitated the industrialisation of many villages. This book will be of particular interest to students of Victorian and social history, industrialisation and urbanisation.

Economy and Society in Nineteenth Century Britain Richard Tames, 1972. **Society and Cultural Forms in Nineteenth Century England** Simon Dentith, 1998. This is an accessible introduction to 19th century British society and culture. It maps the cultural changes that took place during this period of extraordinary transformation. *Journalism and the Periodical Press in Nineteenth-Century Britain* Joanne Shattock, 2017-03-16. Newly commissioned essays by leading scholars offer a comprehensive and authoritative overview of the diversity, range and impact of the newspaper and periodical press in nineteenth century Britain. Essays range from studies of periodical formats in the nineteenth century, reviews, magazines and newspapers to accounts of individual journalists, many of them eminent writers of the day. The uneasy relationship between the new profession of journalism and the evolving profession of authorship is investigated, as is the impact of technological innovations such as the telegraph, the typewriter and new processes of illustration. Contributors go on to consider the transnational and global dimensions of the British press and its impact in the rest of the world. As digitisation of historical media opens up new avenues of research, the collection reveals the centrality of the press to our understanding of the nineteenth century. Women's Theology in Nineteenth-Century Britain Julie Melnyk, 2019-07-16. First published in 1998, this collection of original essays identifies and analyzes 19th century women's theological thought in all its diversity, demonstrating the ways that women revised, subverted or rejected elements of masculine theology in creating theologies of their own. While women's religion has been widely studied, this is the only collection of essays that examines 19th century women's theology as such. A substantial introduction clarifies the relationships between religion and theology and discusses the barriers to women's participation in theological discourse, as well as the ways women overcame or avoided these barriers.

The essays analyze theological ideas in a variety of genres The first group of essays discusses women s nonfiction prose including women s devotional writings on the Apocalypse devotional prose by Christina Rossetti and its similarities to the work of Hildegard von Bingen periodical prose by Anna Jameson and Julia Wedgwood and the letters of Harriet and Jemima Newman sisters of John Henry Newman Other essays examine the novel presenting analysis of the theologies of novelists Emma Jane Worboise Charlotte M Yonge and Mary Arnold Ward Further essays discuss the theological ideas of two purity reformers Josephine Butler and Ellice Hopkins while the final essays move beyond Victorian Christianity to examine spiritualist and Buddhist theology by women This collection will be important to students and scholars interested in Victorian culture and ideas literary critics historians and theologians and particularly to those in women s studies and religious studies
