Ebook: Managerial Accounting - Global

Edition Ronald Hilton, David Platt, 2014-09-16 We are pleased to present this Global Edition which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity based costing, target costing, the value chain, customer profitability analysis, and throughput costing, while also including traditional topics such as job order costing, budgeting, and performance evaluation. Many of the real world examples in the Management Accounting Practice boxes have been revised and updated to make them more current, and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

[Cost & Management Accounting: Tools for Planning and Control](#) Prof. (Dr.) Savita Mohan, Prof. Moumita Mishra, Prof. Saumya Srivastava, 2025-04-17 **Relevant Accounting Concepts and Applications (RLE Accounting)**

Harvey Hendrickson, 2013-11-26 C. Rufus Rorem, 1894-1988 was a pioneer in the development of group medical insurance and pre-paid health care. At the time the concepts were radical, but in 1937 he became head of the American Hospital Association's committee on hospital services, which fostered the first prepaid hospitalization plans in New York, and other cities followed in the 1940s by doctors' group practice. This collection includes out-of-print and difficult-to-access primary and secondary sources on Rorem's work, including his 1929 dissertation, which presents his major and still-relevant writings on financial accounting theory and practice in a comprehensive, integrated context.
