Pope John Paul II The Poynter Institute, 2005-05 Includes newspaper front pages announcing the death of Pope John Paul II in a variety of languages *Christianity: the One, the Many* John F. Nash, 2008-02-29 What is Christianity Who was Jesus Christ What relevance does Christianity have in a post Christian age Why are there so many Christian sects and what are the prospects for bringing them together Does Christianity have a future Am I a Christian Are you Christianity the One the Many offers encouraging answers and options for modern spiritual seekers This second volume focuses on western Christianity from 1000 CE onward Decline of the medieval church led to the Reformation and emergence of the Lutheran Calvinist and Anglican Churches Baptists and Methodists soon followed and in due course the charismatic movement The scientific

revolution and the Enlightenment challenged Christianity's very foundations and produced innovative religious forms like Deism and Transcendentalism. Meanwhile esoteric Christianity has established itself as a further option. A bold new vision is offered that honors the diversity within Christianity as well as a transcendent unifying reality: the Body of Christ. Seven spiritual paths are identified which offer all sincere Christians opportunities to express personal and collective aspirations. Archetypal in nature and cutting across denominational boundaries, they are Devotion, Ceremony, Knowledge, Service, Healing, Activism, and Renunciation. The unifying reality is a larger archetype: the Ekklesia visualized as a great Cathedral into which all are invited to open themselves to the Divine love, their neighbor humbly seek truth, and work to make the world a better place. A masterpiece of research, insight, and faith. A must read for believers and nonbelievers alike. Now I know there's a place in Christianity for me. The Pope and the Professor Thomas Albert Howard, 2017-04-14. The Pope and the Professor tells the captivating story of the German Catholic theologian and historian Ignaz von Döllinger (1799-1890) who fiercely opposed the teaching of Papal Infallibility at the time of the First Vatican Council (1869-70) convened by Pope Pius IX (r. 1846-1878), among the most controversial popes in the history of the papacy. Döllinger's thought, his opposition to the Council, his high profile excommunication in 1871, and the international sensation that this action caused offer a fascinating window into the intellectual and religious history of the nineteenth century. Thomas Albert Howard examines Döllinger's post-conciliar activities including pioneering work in ecumenism and inspiring the Old Catholic movement in Central Europe. Set against the backdrop of Italian and German national unification and the rise of anticlericalism and ultramontanism after the French Revolution, *The Pope and the Professor* is at once an endeavor of historical and theological inquiry. It provides nuanced historical contextualization of the events, topics, and personalities while also raising abiding questions about the often fraught relationship between individual conscience and scholarly credentials on the one hand, and church authority and tradition on the other. *Chicago Tribune Index*, 2005.
