A painting of a snowy, mountainous landscape. In the center, a small red cabin with a dark roof sits on a snow-covered slope. A lone figure stands in the brightly lit doorway, with a long shadow cast across the snow. To the left, a dark, snow-laden evergreen tree stands in the foreground. The sky is dark and filled with falling snow.

The Chicago of Fiction James A. Kaser, 2011 The importance of Chicago in American culture has made the city's place in the American imagination a crucial topic for literary scholars and cultural historians While databases of bibliographical information on Chicago centered fiction are available they are of little use to scholars researching works written before the 1980s In *The Chicago of Fiction A Resource Guide* James A Kaser provides detailed synopses for more than 1 200 works of fiction significantly set in Chicago and published between 1852 and 1980 The synopses include plot summaries names of major characters and an indication of physical settings An appendix provides bibliographical information for works dating from 1981 well into the 21st century while a biographical section provides basic information about the authors some of whom are obscure and would be difficult to find in other sources Written to assist researchers in locating works of fiction for analysis the plot summaries highlight ways in which the works touch on major aspects of social history and cultural studies i e class ethnicity gender immigrant experience and race The book is also a useful reader advisory tool for librarians and readers who want to identify materials for leisure reading particularly since genre juvenile and young adult fiction as well as literary fiction are included

Mystery Women, Volume Three (Revised) Colleen Barnett, 2010-12-31 Like other fictional characters female sleuths may live in the past or the future They may represent current times with some level of reality or shape their settings to suit an agenda There are audiences for both realism and escapism in the mystery novel It is interesting however to compare the fictional world of the mystery sleuth with the world in which readers live Of course mystery readers do not share one simplistic world They live in urban suburban and rural areas as do the female heroines in the books they read They may choose a book because it has a familiar background or because it takes them to places they long to visit Readers may be rich or poor young or old conservative or liberal So are the heroines What incredible choices there are today in mystery series This three volume encyclopedia of women characters in the mystery novel is like a gigantic menu Like a menu the descriptions of the items that are provided are subjective Volume 3 of *Mystery Women* as currently updated adds an additional 42 sleuths to the 500 plus who were covered in the initial Volume 3 These are more recently discovered sleuths who were introduced during the period from January 1 1990 to December 31 1999 This more than doubles the number of sleuths introduced in the 1980s 298 of whom were covered in Volume 2 and easily exceeded the 347 series and some outstanding individuals described in Volume 1 which covered a 130 year period from 1860 1979 It also includes updates on those individuals covered in the first edition changes in status short reviews of books published since the first edition through December 31 2008
