Excerpt from Lord Kilgobbin Fringing this broad waste little patches of cultivation are to be seen small potato gardens as they are called or a few roods of oats green even in the late autumn but strangely enough with nothing to Show where the humble tiller of the soil was living nor often any visible road to these isolated Spots of culture Gradually however but very gradually the prospect brightens Fields with enclosures and a cabin or two are to be met with a solitary tree generally an ash will be seen some rude instrument of husbandry or an ass cart will Show that we are emerging from the region of complete destitution and approachn a land of at least struggling civilization At last and by a transition that is not always easy to mark the scene glides into those rich pasture lands and well tilled farms that form the wealth of the Midland Counties Gentlemen s seats and

waving plantations succeed and we are in a country of comfort and abundance About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Lord**

Kilgobbin: a Tale of Ireland in Our Own Time Charles James Lever, 1878 Lord Kilgobbin Charles James

Lever, 2016-06-21 Some one has said that almost all that Ireland possesses of picturesque beauty is to be found on or in the immediate neighbourhood of the seaboard and if we except some brief patches of river scenery on the Nore and the Blackwater and a part of Lough Erne the assertion is not devoid of truth The dreary expanse called the Bog of Allen which occupies a tableland in the centre of the island stretches away for miles flat sad coloured and monotonous fissured in every direction by channels of dark tinted water in which the very fish take the same sad colour This tract is almost without trace of habitation save where at distant intervals utter destitution has raised a mud hovel undistinguishable from the hillocks of turf around it Lord Kilgobbin Charles James 1806-1872 Lever, 2016-08-28 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant Lord Kilgobbin Charles James Lever, Hablot Knight Browne, 2015-11-19 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be
