Consejo de Bienestar Rural,1955 **Microfacies del Cretáceo de Venezuela Occidental** Ford,2023-07-10 , *Social Technologies for Inclusive Development: Multilevel Policy and Practices* Kleinsy Bonilla,Susana Arrechea, Luis Guillermo Velásquez Pérez, Efraín Bámaca-López,2025-05-15

Social technologies fostering inclusion represent a contemporary research paradigm that has resurfaced. Broader discussions aim to expand the scope of science technology and innovation beyond purely economic considerations into the social domain. Hern n Thomas suggests that innovative solutions encompass a broad spectrum of approaches for conceiving, constructing, implementing and overseeing technological interventions tailored to address pressing social and environmental challenges. These solutions strive to stimulate the emergence of socially inclusive and sustainable economic dynamics in various areas including nutrition, housing, energy, clean water access, transportation and communication. This multifaceted approach reflects a commitment to harnessing technology's potential for the betterment of society at large. This Research Topic focuses on showcasing experiences, strategies and policies in science technology and innovation primarily in the context of Latin America. Such experiences, strategies and policies aim to reduce social disparities and stimulate development. This article collection welcomes multifaceted approaches including comparative analysis, policy evaluations, community case studies and more. Additionally, it engages with theoretical discussions on the influence of scientific and technological paradigms on public management, examining how these paradigms shape policy design, implementation and technology integration. Furthermore, this Research Topic aims to explore recent technological advancements particularly in the realms of digital transformation and data driven decision making as tools to forge new avenues for social inclusivity. By delving into these innovations, the collection aims to facilitate knowledge on innovative solutions, improve governance practices and foster greater citizen involvement. Overall, this research initiative aims to contribute to the burgeoning literature on social technologies for social inclusion. It will critically assess the strengths and limitations of multilevel interventions, offering paradigmatic case studies and pinpointing unexplored opportunities within this field, thereby advancing our understanding and enhancing discourse in this critical area of study. The scope of this Research Topic revolves around the burgeoning field of social technologies and their nascent integration with public management and community engagement, specifically focusing on Latin America. We welcome a diverse range of manuscript types including original research articles, reviews, case studies, policy analyses and theoretical perspectives. We aim to assemble a comprehensive collection of insights and experiences that shed light on the evolving landscape of social technology in Latin America and its implications for addressing contemporary global challenges. We invite contributions that delve into this dynamic intersection: social technologies and public management in Latin America, exploring themes such as innovative approaches to social technology adoption, the impact of digital transformation on local communities, practical strategies for

fostering inclusive development and the role of scientific diasporas in advancing these initiatives Subtopics include but are not limited to the following community developed technologies data production and data access social technologies and health solutions digital transformations social technologies and inclusive development the use of research metrics or analytics to understand social trends and networks in research social technologies and climate change nutrition and food security gender perspectives in social technologies Indigenous knowledge and social technologies for cultural survival crisis management COVID 19 community resilience science communication education and digital inclusion youth engagement and empowerment urbanization and smart cities human mobility and social mobility including the use of metrics indicators to look at researcher and scholarly mobility social entrepreneurship governance and policy implementation using actionable research metrics and analytics in policy creation and decision making collapse

Una introducción a la Venezuela prehispanica Fernando Arellano,1987 Bulletin ,1899 **Venezuela** Leonard Victor Dalton,1912 **Urumaco and Venezuelan Paleontology** Marcelo R. Sãinchez-Villagra,Orangel A. Aguilera,Alfredo A. Carlini,2010-07-16 Urumaco and Venezuelan Paleontology offers a synthesis of the paleontological record of Venezuela including new discoveries on stratigraphy paleobotany fossil invertebrates and vertebrates Besides providing a critical summary of the record of decapods fishes crocodiles turtles rodents armadillos and ungulates several chapters introduce new information on the distribution and paleobiology of groups not previously studied in this part of the world Given its position in the northern neotropics close to the Panamanian land bridge Venezuela is a key location for understanding faunal exchanges between the Americas in the recent geological past The book reviews the recent paleobotanical and vertebrate fossil record of the region provides an understanding of Pleistocene climatic change and biogeography for the last few thousand years and integrates new information with summaries of Spanish language works on Venezuelan geology and paleontology Columnar Cacti and Their Mutualists Theodore H. Fleming,Alfonso Valiente-Banuet,2021-11-30 Although cacti such as the saguaro and organ pipe have come to define the Sonoran Desert for many people they represent some 170 species of columnar cacti found in many parts of the Americas These giant plants are so dominant in some ecosystems that many species of animals rely on them for food and shelter They are pollinated by bats in central Mexico and Venezuela by birds and bees in northern Mexico and Peru This book summarizes our current knowledge about the ecology evolution and conservation of columnar cacti and their vertebrate mutualists to show that the very survival of these cacti depends on animals who pollinate them and disperse their seeds Contributors from the United States Mexico Venezuela and Colombia explore aspects of geology and evolution that have forged this relationship review findings in anatomy and physiology and discuss recent research in population and community ecology as well as conservation issues Ranging from the Sonoran Desert to the northern Andes these studies reflect recent progress in understanding how abiotic and biotic factors interact to influence the evolution distribution and abundance of cacti and mutualists alike In addition this book examines the ways in which humans through the process of

domestication have modified these plants for economic benefit The contributors also review phylogenetic relationships between cacti and nectar feeding bats in an effort to understand how bat plant interactions have influenced the evolution of diversity and ecological specialization of both Because of the number of migratory pollinators feeding on columnar cacti the authors make conservation recommendations aimed at preserving fully functional ecosystems in arid portions of the New World tropics and subtropics No other book treats the pollination ecology of cacti in such depth or offers such a wealth of up to date material on the nectar feeding bats of the New World As scientists become increasingly concerned with the need to protect biotic interactions Columnar Cacti and Their Mutualists provides a benchmark for both conservation efforts and future research The National Union Catalogs, 1963- ,1964 **The Caribbean-South American Plate Boundary and Regional Tectonics** William Emory Bonini,Robert B. Hargraves,Reginald Shagam,1984 **Technical Series Bulletin** United States. Agency for International Development. Office of Agriculture,1975 **Neotropical Gradients and Their Analysis** Randall W. Myser,2023-03-31 The importance of the Neotropics to the world s climate biogeochemical cycling and biodiversity cannot be questioned This book suggests that gradients are key to understanding both these issues and Neotropical ecosystem structure function and dynamics in general Those gradients are either spatial temporal or spatio temporal where many temporal and spatio temporal gradients are initiated by disturbances e g tree fall landslide cultivation And in particular for the Neotropics three large spatial gradients latitude longitude altitude elevation are of critical importance The editor has over 30 years of experience investigating Neotropical gradients in Costa Rica Puerto Rico Peru and Ecuador and has published 5 previous books on different aspects of the Neotropics Once again he has assembled top shelf Neotropical scientists and researchers here to focus on gradients their nature interactions and how they structure ecosystems **Area Handbook for Venezuela** Thomas E.
