Mathematics In Action:

Mathematics in Action Consortium Found Math, 2003-05 Maths in Action, 1993 The Maths in Action series is a complete revision of the Scottish maths course Mathematics in Action. It provides a differentiated course in mathematics that delivers the 5-14 guidelines and the National Curriculum in England and Wales and Northern Ireland. *Mathematics in Action* Consortium for Foundation Mathematics, 2019-03-15 NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of the MyLab™ and Mastering™ platforms exist for each title and registrations are not transferable. To register for and use MyLab or Mastering, you may also need a Course ID which your instructor will provide. Used books, rentals, and purchases made outside of Pearson. If purchasing or renting from companies other than Pearson, the access codes for the MyLab platform may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For courses in Intermediate Algebra: This package includes MyLab Math Active learning for active minds. The authors of the Mathematics in Action series believe that students learn mathematics best by actually doing the math within a realistic context. If a student is taking this course, why teach them the same content in the same way that they've already seen yet did not retain? Following this principle, the authors provide a series of guided discovery activities that help students to construct, reflect upon, and apply mathematical concepts, deepening their conceptual understanding as they do so. The active style of learning develops critical thinking skills and mathematical literacy while keeping the concepts in the context of real applications. The 6th Edition includes updated examples and activities for maximum interest and relevance along with new and enhanced digital resources in MyLab™ Math to support conceptual understanding for students wherever and whenever they need it. Personalize learning with MyLab Math. By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. 0135281571 9780135281574 Mathematics in Action Algebraic Graphical and Trigonometric Problem Solving Plus MyLab Math with Pearson eText Access Card Package. Secondary Maths in Action Emma McCrea, 2025-07-11 In *Secondary Maths in Action*, experienced curriculum expert and maths teacher Emma McCrea offers insights into the complex task of teaching maths. Taking an evidence-informed stance, Emma first explores the age-old question of why we study maths and the important role it plays in our lives and in society. Next, she examines several pertinent debates in maths: those of pupil grouping, mastery, and gender. Finally, we are taken on a grand tour of curriculum, pedagogy, and assessment as the fundamental pillars of great teaching. Additionally, the book includes four rich case studies revisited throughout the curriculum, pedagogy, and assessment chapters, which help to

showcase how these ideas can be applied in various contexts so you can really see what it all looks like In Action
