Inerrancy and Worldview Vern S. Poythress, 2012-05-31 Though the Bible presents a personal and relational God popular modern worldviews portray an impersonal divine force in a purely material world Readers influenced by this competing worldview hold assumptions about fundamental issues like the nature of humanity evil and the purpose of life that present profound obstacles to understanding the Bible In Inerrancy and Worldview Dr Vern Poythress offers the first worldview based defense of scriptural inerrancy showing how worldview differences create or aggravate most perceived difficulties with the Bible His positive case for biblical inerrancy implicitly critiques the worldview of theologians like Enns Sparks Allert and McGowan Poythress who has researched and published in a variety of fields including science linguistics and sociology deals skillfully with the challenges presented in each of these disciplines By directly addressing key examples in each field Poythress shows that many difficulties can be resolved simply by exposing the influence of modern materialism Inerrancy and Worldview s positive response to current attempts to abandon or redefine

inerrancy will enable Christians to respond well to modern challenges by employing a worldview that allows the Bible to speak on its own terms

A Critical Examination of the Doctrine of Revelation in Evangelical Theology Carisa A. Ash, 2015-07-14 How God reveals himself is an important matter for Christians especially evangelicals For too long Carisa Ash contends evangelicals have rightly affirmed that God reveals through the created world but then they functionally neglect such revelation In this monograph Ash offers a corrective to this practice by presenting a theology of revelation that explores the commonalities between various forms of revelation world written and spoken word and Incarnate Word Particularly aimed at theologians interested in theological method Ash s study will also benefit people interested in faith and learning or interdisciplinary integration Ash argues that evangelicals must strive to align more closely their affirmations and their practice Her critique of current practices in theological method and integration along with the proposed theology of revelation are designed to help move the conversation forward

Reaping the Whirlwind John R. Pottenger, 2007-07-05 As early as the sixteenth century the liberal democratic state has been forced to confront the question of religion in politics The result has been a tense and uncomfortable balancing act Today in the public square of liberal democracy a number of religious confessions and beliefs compete for attention In the American experience some sense of religious pluralism and relative social harmony has been maintained However for this relationship to prevail a tension must continue to exist one that balances the political and social pursuits of self interest with meeting the objectives of the common good In Reaping the Whirlwind John R Pottenger shows how this process began in the modern world and how societies attempt to manage this ongoing conflict The first part of the book lays the groundwork of his analysis by using examples from history to demonstrate the genesis of political and religious whirlwinds It goes on to explore contemporary case studies such as conflicts between Mormons and Evangelicals in the United States liberation theology in Latin America Islam and the state in Uzbekistan and radical Christian reconstructionism Pottenger believes that the formal institutions of liberal democracy should maintain this turbulence even as religious activism threatens to upset the balance He concludes by advocating religious liberty and recognizing the individual and social need for expression At the same time he maintains that the survival of liberal democracy requires that these religious traditions not dominate the public sphere

Christian Men Of Science George Mulfinger, Julia Mulfinger Orozco, 2004-04 These short biographies present each man s scientific accomplishments as well as the evidence of his Christian faith These testimonies demonstrate that true scientists can also be genuine Christians and that faith in God and the authority of the Bible is not a sign of inferior intellect This book includes scientists such as Johannes Kepler Robert Boyle Michael Faraday Samuel Morse James Clark Maxwell Lord Kelvin Henry Morris and Walt Brown
