traditional general mathematics market has been replaced in some schools with courses called Tech Prep Math Applied Mathematics or Mathematics for Technology Schools that offer these courses generally want programs that integrate ideas from algebra geometry probability statistics and logic and focus on real world applications As a three year series

MathMatters covers all essential skills of first year algebra and informal geometry Book 3 includes some attention to formal geometry proof and most essential Algebra 2 skills Although MathMatters consists of three books many schools may choose to use only one or two of the three books in the series When this is the market Books 1 2 and 3 are viewed as levels and the school's selection is determined by the book or books that best fit their needs The list of schools that require all students to complete algebra one is growing rapidly Students who would be in a traditional general mathematics program often cannot handle the pace of a regular algebra one course MathMatters Books 1 2 3 offer a viable alternative In fact students completing this three year sequence will have also covered the essential skills and concepts of geometry and much of the
