Maths In Context A Thematic Approach:

Maths in Context Deidre Edwards, 1990 Resource book for primary school teachers providing guidelines for implementation of a thematic approach to teaching mathematics Gives advice on topics such as how to handle group work classroom organisation and how to plan and implement assessment strategies Also discusses the benefits of a thematic approach to mathematics Includes references The author is an experienced teacher and is a tutor in the TExploring Mathematics in the Classroom program *Integrated Curriculum and Developmentally Appropriate Practice* Craig H. Hart, Diane C. Burts, Rosalind Charlesworth, 1997-01-01 Combines research and practice on integrated developmentally appropriate curriculum that helps theorists researchers parents and teachers understand how to match early childhood teaching practices to the integrated manner that young children naturally think and learn Exploring Maths through Stories and Rhymes Janet Rees, 2019-05-09 This practical book is packed with tried and tested activities which draw on popular stories and rhymes and use everyday materials and objects to help young children develop their understanding and enjoyment of mathematical concepts By relating ideas of number shape size and pattern to everyday contexts stories and experiences Exploring Maths through Stories and Rhymes improves confidence increases understanding and develops children's desire to engage with maths Offering a range of creative and exciting activities to encourage hands on learning and discussion chapters include a range of step by step activities which are easily adapted to varying needs ages and abilities use popular stories and nursery rhymes as a way of engaging children with mathematical thinking show how inexpensive everyday materials can be used to encourage learning include full colour photographs photocopyable materials vocabulary lists and key questions to help the reader get the most out of the ideas described This practical text will be a go to resource for early years practitioners and students looking to adopt a creative approach to early years mathematics Fostering Children's Mathematical Power Arthur Baroody, Arthur J. Baroody, Jesse L.M. Wilkins, Ronald T. Coslick, 1998-09-01 Teachers have the responsibility of helping all of their students construct the disposition and knowledge needed to live successfully in a complex and rapidly changing world To meet the challenges of the 21st century students will especially need mathematical power a positive disposition toward mathematics curiosity and self confidence facility with the processes of mathematical inquiry problem solving reasoning and communicating and well connected mathematical knowledge an understanding of mathematical concepts procedures and formulas This guide seeks to help teachers achieve the capability to foster children's mathematical power the ability to excite them about mathematics help them see that it makes sense and enable them to harness its might for solving everyday and extraordinary problems The investigative approach attempts to foster mathematical power by making mathematics instruction process based understandable or relevant to the everyday life of students Past efforts to reform mathematics instruction have focused on only one or two of these aims whereas the investigative approach accomplishes all three By teaching content in a purposeful context an inquiry based fashion and a

meaningful manner this approach promotes children's mathematical learning in an interesting thought provoking and comprehensible way This teaching guide is designed to help teachers appreciate the need for the investigative approach and to provide practical advice on how to make this approach happen in the classroom It not only dispenses information but also serves as a catalyst for exploring conjecturing about discussing and contemplating the teaching and learning of mathematics

Mathematics & Science in the Real World, 2000 *Maths in the Mind* Ann Baker, Johnny Baker, 1991 Resource book for primary school mathematics teachers focusing on the development of mental skills and strategies Suggested activities encourage children to use their knowledge to independently solve mathematical problems Includes a bibliography and an index The authors have extensive experience in the field of mathematics education Companion volume to *Mathematics in Process* and *Counting on a Small Planet* *Australian National Bibliography*, 1978 *Math Makes Sense* Rachel Griffiths, Margaret Clyne, 1994 **ENC Focus**, 2000 **The Arithmetic Teacher**, 1993 **Perspectives on Practice and Meaning in Mathematics and Science Classrooms** D.
