Color, Space, and Creativity Jack Stewart,2008 This study of Virginia Woolf D H Lawrence Joyce Cary Lawrence Durrell and A S Byatt focuses on color space and creativity in selected novels stories travel texts essays and letters Stewart highlights a nexus of color space and creativity that takes on ontological dimensions in the writing of five writers who are linked by stylistic affinities and correspondingly calibrated sensibilities They engage writing with painting and their acts of attention converge in a zone where color space and creativity sustain the imaginative life world of their characters This study should lead to ongoing reflections on the roles of color and space in modernist and postmodernist texts and direct attention to the subtle and pervasive interactions of literature with painting **BOOK JACKET** *Library Catalog of the Metropolitan Museum of Art, New York : Supplement* Metropolitan Museum of Art (New York, N.Y.). Library,1962 *Matisse* Rebecca A. Rabinow,Dorthe Aagesen,Metropolitan Museum of Art (New York, N.Y.),2012 Throughout his long career Henri Matisse 1869 1954 continually expanded the boundaries of his art By repeating images in pairs trios and series he conducted an ongoing dialogue with his earlier works in order to as he put it push further and deeper into true painting In this fresh approach to a much studied artist prominent scholars from the United States and Europe examine more than sixty works in concise chapters that focus on this aspect of Matisse s working process From early pairs such as *Young Sailor I* and *II* 1906 and *Le*

Lexe I and II 1907 8 through a series of late studio scenes from Vence 1946 48 Matisse is shown revisiting a given theme with the aim of devising innovative often radical solutions to such problems as how to portray light handle paint select colors and manipulate perspective New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse's complex evolution In numerous excerpts from letters and interviews he is revealed as an artist who regularly questioned himself and his methods a man of powerful intellect who regarded each new painting as an adventure A significant addition to art historical literature Matisse In Search of True Painting is a revelatory study of a seminal figure in 20th century modernism Page 4 of cover

Color and Meaning John Gage, 1999 John Gage's *Color and Meaning* is full of ideas He is one of the best writers on art now alive A S Byatt Booker Prize winner [The British Library General Catalogue of Printed Books to 1975](#) British Library, 1983 [Matisse's Poets](#) Kathryn Brown, 2017-09-21

Throughout his career Henri Matisse used imagery as a means of engaging critically with poetry and prose by a diverse range of authors Kathryn Brown offers a groundbreaking account of Matisse's position in the literary cross currents of 20th century France and explores ways in which reading influenced the artist's work in a range of media This study argues that the *livre d'artiste* became the privileged means by which Matisse enfolded literature into his own idiom and demonstrated the centrality of his aesthetic to modernist debates about authorship and creativity By tracing the compositional and interpretive choices that Matisse made as a painter print maker and reader in the field of book production this study offers a new theoretical account of visual art's capacity to function as a form of literary criticism and extends debates about the gendering of 20th century bibliophilia Brown also demonstrates the importance of Matisse's self placement in relation to the French literary canon in the charged political climate of the Second World War and its aftermath Through a combination of archival resources art history and literary criticism this study offers a new interpretation of Matisse's artist's books and will be of interest to art historians literary scholars and researchers in book history and modernism
