The Promise and Perils of Transnationalization Benjamin Stachursky, 2013 To date most constructivist international relations studies have characterized the influence of transnationalism on domestic forms of activism as uniformly positive In particular transnational interactions are viewed as positive factors for the development and daily impact of gender activism Benjamin Stachursky's book questions the unvarying positive view of transnationalism on domestic forms of activism arguing for a more nuanced analysis that permits an understanding of the enabling and restricting effects of transnationalism Stachursky also challenges the dominant view of civil society as normatively homogenous by illustrating the complex relationships and conflicts that exist between NGOs and other civil society representatives He grounds his theoretical arguments with a comparative case study on women's rights activism in Egypt and Iran which uses semi structured interviews with women's

rights activists in the two countries and analysis of documentation by local political and societal actors Looking at the period from the mid 1980s up to present developments such as the Arab Spring Stachursky analyzes the emergence and development of NGO activism in Egypt and Iran the social political and legal context of NGO activism and key domestic debates on the impact and legitimacy of the actors operating in women s rights activism By closely examining the ambivalent relationship between transnationalism and human rights organizations Stachursky proves that transnationalization has both enabling and constraining effects on the domestic legitimacy of women s rights activists and on their ability to create meaningful social and political change

The Promise and Peril of FDI in Sub-Saharan Africa Sean Gossel,2025-11-01

This book explores the developmental prospects risks and implications of foreign direct investment FDI in sub Saharan African SSA Despite the region s significant potential it continues to face complex challenges and significant capital shortages In theory FDI could promote development by supplementing domestic savings enhancing financial systems and promoting global integration but it can also weaken the balance of payments and undermine domestic investment In addition SSA s weak institutions and poor governance means that FDI may also contribute to dysfunctional capitalism and tax evasion This book argues that colonial legacies and flawed policy choices have entrenched institutional weaknesses and socio economic outcomes that deter diversified FDI and attract extractive FDI leading to underdevelopment and resource dependency while undermining industrialization and diversification This book will be relevant to students researchers and policymakers interested in development economics and the political economy of SSA

The Promise of Wholeness Eric Ehrke,2019-02-08 Henosis is the Greek word for oneness unity Since time immemorial this universal concept has been championed within traditional wisdom ancient philosophy and theology The psychoanalyst Carl Jung referred our shared human experience with the phrase collective unconscious while physicists use the term quantum entanglement to describe how every particle is inherently connected to the whole The missing links between the wisdom of ancient philosophy and the startling insights within modern psychology to transform suffering transcend circumstances and increase our capacity for love are explored in *The Promise of Wholeness* Most philosophical studies of ancient wisdom lack practical applications and many popular psychology books simply skim the surface of the human experience Licensed clinical social worker and psychotherapist Eric Ehrke offers a new foundation for profound living based on classical teachings and enriched by modern scientific psychological breakthroughs The principles and values it takes to be happy and whole endure but gentle makeovers are needed to modernize the message Clinical examples from Eric Ehrke s forty years of psychotherapy practice and personal stories from courageous individuals are included throughout the book Emphasizing innovative teachings and new critical exercises for infantile childish and adolescent stress responses Ehrke offers powerful meditations and invaluable tools for bringing these concepts and strategies into everyday life Here eternal wisdom sound psychological principles and practical solutions come together in this handbook of consciousness a truly helpful guide for anyone seeking lasting peace and well

being **Public Services Inspection in the UK** Howard Davis, Steve Martin, 2008 This text provides a detailed account of the changing role of inspection in public services management It outlines the continuing debates about providing inspection that encourages not only accountability but also effective service provision and best practice **Another Cosmopolitanism** Seyla Benhabib, 2008-07-15 In these two important lectures distinguished political philosopher Seyla Benhabib argues that since the UN Declaration of Human Rights in 1948 we have entered a phase of global civil society which is governed by cosmopolitan norms of universal justice norms which are difficult for some to accept as legitimate since they are in conflict with democratic ideals In her first lecture Benhabib argues that this tension can never be fully resolved but it can be mitigated through the renegotiation of the dual commitments to human rights and sovereign self determination Her second lecture develops this idea in detail with special reference to recent developments in Europe for example the banning of Muslim head scarves in France The EU has seen the replacement of the traditional unitary model of citizenship with a new model that disaggregates the components of traditional citizenship making it possible to be a citizen of multiple entities at the same time The volume also contains a substantive introduction by Robert Post the volume editor and contributions by Bonnie Honig Northwestern University Will Kymlicka Queens University and Jeremy Waldron Columbia School of Law
