Social Solutions to Poverty Scott Myers-Lipton, Charles C.

Lemert, 2015-11-17 The voices of famous and lesser known figures in America's quest to reduce poverty are collected for the first time in this comprehensive historical anthology. The book traces the most important ideas and contributions of citizens, activists, labour leaders, scholars, politicians, and governmental agencies to ensure American citizens the basics of food, housing, employment, education, and health care. The book follows the idea of poverty reduction from Thomas Paine's agrarian justice to Josiah Quincy's proposal for the construction of poorhouses, from the Freedmen's Bureau to Sitting Bull's demand for money and supplies from Coxe's army of the unemployed to Jane Addams's Hull House from the Civil Works Administration to Dr Martin Luther King Jr's call for an Economic Bill of Rights and from William Julius Wilson's universal programme of reform to George W. Bush's armies of compassion.

End of Millennium Manuel Castells, 2010-03-29 **END OF MILLENNIUM** This final volume in Manuel Castells's trilogy studies the key defining processes taking place in the last decade of the twentieth century as an expression of the crises resulting from the transition between the old industrial society and the emerging global network society. Every now and then one reads a book of social science that is uplifting and mind expanding. These books are ambitious and lustrous, teaching us much about our world. Such is this work from the brilliant sociologist Manuel Castells. There is no other sociological work today that brings together in one panoramic expanse so many of the changes now occurring. This is a story not simply of global economic change but of cultural upheavals. It is a tale not simply of the decline of sovereign states but of the emergence of the new bases of power. And it is a narrative not merely about computer technology or the media but of the very terms in which those agents work.

Anthony M. Orum, *Contemporary Sociology* A magnum opus if ever there was one. In my view, the finest piece of contemporary social analysis for at least a generation.

Frank Webster, *British Journal of Sociology* A truly stunning achievement. A scholar who with remarkable mastery has brought his experience over a lifetime to bear on astonishingly diversified data, setting them together into a compelling account of the complex relationship between the progressive and the reactionary, the globalizing and particularizing forces that are transforming our perplexing world.

Benjamin Barber, *The Los Angeles Times Sunday Book Reviews*

Research Methods in Psychology Paul G. Nestor, Russell K. Schutt, 2018-10-05 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award, enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop.

Research Methods in Psychology: Investigating Human Behavior draws on fascinating stories to illustrate the entire research process within a unifying conceptual framework. Bestselling authors Paul G. Nestor and Russell K. Schutt present a clear and comprehensive introduction to the logic and techniques of research methods in psychology by employing a unique combination of two distinct yet complementary pedagogical techniques. First, chapters designed for experiential, hands-on studies put the student in the roles of researcher, participant, and consumer to bring concepts to life. Second, the findings of cognitive science guide the text in a way that is most conducive to learning. This novel approach serves as an effective way to make the world of psychological

research fun and rewarding for students in addition to allowing them to gain the foundational knowledge they need to design conduct and present research

Shelter Blues Robert R. Desjarlais, 2011-09-16 Desjarlais shows us not anonymous faces of the homeless but real people While it is estimated that 25 percent or more of America's homeless are mentally ill their lives are largely unknown to us What must life be like for those who in addition to living on the street hear voices suffer paranoid delusions or have trouble thinking clearly or talking to others *Shelter Blues* is an innovative portrait of people residing in Boston's Station Street Shelter It examines the everyday lives of more than 40 homeless men and women both white and African American ranging in age from early 20s to mid 60s Based on a sixteen month study it draws readers into the personal worlds of these individuals and by addressing the intimacies of homelessness illness and abjection picks up where most scholarship and journalism stops Robert Desjarlais works against the grain of media representations of homelessness by showing us not anonymous stereotypes but individuals He draws on conversations as well as observations talking with and listening to shelter residents to understand how they relate to their environment to one another and to those entrusted with their care His book considers their lives in terms of a complex range of forces and helps us comprehend the linkages between culture illness personhood and political agency on the margins of contemporary American society *Shelter Blues* is unlike anything else ever written about homelessness It challenges social scientists and mental health professionals to rethink their approaches to human subjectivity and helps us all to better understand one of the most pressing problems of our time
