Against Physician Assisted Suicide David Jeffrey, 2009 The majority of doctors and nurses involved in specialist palliative care reject the legalisation of physician assisted suicide PAS This book explores the reasons why the healthcare professionals who have the most experience of caring for dying patients should object to a change in the law Debate about euthanasia and PAS often arises in response to a well publicised tragic case of unrelieved suffering Such heart rending stories do not reflect the fact that the majority of people dying have a dignified death There is a marked disparity between medical intuitions and the philosophers arguments about euthanasia and PAS It seems that part of the moral constitution of a doctor is a commitment not to intend the death of a patient and to protect them from harm The perspective of those who are privileged to care for thousands of dying patients and their families should inform the debate about PAS This book will enable those who are not working within palliative care to gain an insight into the scope of this

speciality and to understand why legalisation of PAS should be resisted to maintain and improve care of dying patients
