

PATRIARCHY

Patriarchy At Work

Michael Roper, John Tosh

Patriarchy At Work:

Patriarchy at Work Sylvia Walby, 1986 **Patriarchy at Work** Sylvia Walby, 2013-05-20 The concept of patriarchy is one which signals a sharp divide between traditions of feminist thought Sylvia Walby attempts to conceptualize patriarchy in a way that takes account not only of the complexity of relationships of gender but also of the subtleties of the interconnections of patriarchy and capitalism She rejects those accounts which treat patriarchy as a unified set of relations or which confine the site of patriarchy to any one privileged sphere such as the family Instead she elaborates a novel view of patriarchy as a set of relatively autonomous relations the connections between which are spelled out through a variety of detailed case studies In contrast to many other views of capitalist patriarchy Sylvia Walby characterizes the relationship between capitalism and patriarchy as a relationship not of harmony and mutual accommodation but of tension and conflict This thesis is substantiated through a comparative historical analysis of three contrasting areas of employment cotton textiles engineering and clerical work These analyses show the shortcomings of much conventional literature in sociology history and economics on women's employment which pays insufficient attention to the independence of patriarchal relations The book draws upon sociological historical economic and geographic materials to argue for an understanding of gender relations in terms of the specific tensions and compromises between patriarchal and capitalist relations Exploring the impact of the state on patterns of employment and unemployment completes a book rich in theoretical and empirical analysis *Patriarchy at Work* will be recognized as a major contribution to feminist thought and the social sciences

The Sociology of Work Keith Grint, 2005-06-10 The third edition of this best selling textbook has been carefully revised to provide an up to date indispensable introduction to the sociology of work It not only includes clear explanations of classic theories and evidence but also covers the most cutting edge research data and debates In addition to being revised throughout the book contains substantive new sections on globalisation including global branding and slave labour and a new chapter on the myths and realities of modern employment Chapter by chapter Keith Grint examines different sociological approaches to work emphasising the links between social processes the institutions of employment and their social and domestic contexts His use of an international range of empirical evidence helps to make his account especially accessible to undergraduate readers The book has been specially designed to support students understanding and to develop their critical responses to the literature Written in a lively and accessible style it provides student friendly chapter summaries suggestions for further reading a glossary and practice essay questions This third edition will be essential reading for students of the sociology of work industrial sociology organisational behaviour and industrial relations Students studying business and management courses with a sociological component will also find the book invaluable

Transforming Capitalism and Patriarchy April A. Gordon, 1996 Gordon analyzes the interplay between capitalism development and the status of African women Drawing on the work of both African and Western researchers she shows that capitalist development projects have mainly benefited a

small stratum of African elites and proposes concrete strategies for making it more equitable for women Impact of Patriarchy and Gender Stereotypes on Working Women Bhabani Shankar Nayak, Naznin Tabassum, 2025-01-10 This book explores the meaning perceptions historical and current cultural and psychological roots of gender stereotypes and patriarchy in the workplace It provides a comprehensive analysis of the types of stereotypes their origins and theoretical underpinnings as well as a comparison of the different paradigms across cultures As the narrative progresses the book then provides a conceptual model of impact of gender stereotyping on female expatriates and provides evidence of women's experiences at work and in the society from across different countries It also shows mindsets across different generations and examines the possible impact of generative AI tools This all reveals how this phenomenon still exists despite the increased number of women in workforce and how these stereotypes perpetuate harmful norms that limit individual potential reinforce inequality and enhance discrimination Relevant for scholars researchers students practitioners and policy makers this book encourages readers to self reflect on their own internalized beliefs and biases paving the way for personal growth and societal transformation *Key Issues in Women's Work* Catherine Hakim, 2004 Rethinking patriarchy and male dominance **Manful Assertions** Michael Roper, John Tosh, 2021-10-14 Masculine assertions whether of verbal command political power or physical violence have formed the traditional subject matter of history This volume combines current discussions in sexual politics with historical analysis to demonstrate that far from being natural and monolithic masculinity is an historical and cultural construct with varied competing and above all changing forms Values, Work, Education Samuel M. Natale, Brian M. Rothschild, Joseph W. Sora, Tara M. Madden, 1995 This book is a collection of reflections and empirical studies which examine the many facets of the meanings of work The authors are significant scholars in fields of study ranging from ethics to sociology The book is a text which aims at balancing the academic with the practical and so the chapters often reflect the tensions implicit in such a venture The reader will find in these pages historical philosophical educational religious entrepreneurial and many other points of view which combine to emerge as a text which is both encyclopedic in information yet engaging and lively in style The reader will be able to understand how the meanings of work have changed over the centuries varying according to historical place and point of view At the same time the diligent reader will observe the centrality that work has in the lives of people both practically and in terms of life quests Work has previously been defined as an activity that produces something of value for other people This definition does not even begin to include the information about work that is presented in this book The reader will feel a invigorating sense of worth from this book *Class, Patriarchy, and the Structure of Women's Work in Rural Bangladesh* Mead Cain, Syeda Rokeya Khanam, Shamsun Nahar Mahmud, 1979 **Conversing on Gender** G. G. Bolich, 2007-08 Conversing on Gender is as its subtitle indicates a primer for entering the broad conversation on gender that can be found both inside and outside of academic circles The book considers the relation of gender to sex and sexuality reviews prominent theories of gender and covers basic gender issues
