Patriotism And Poetry In Eighteenth Century Britain:

Patriotism and Poetry in Eighteenth-Century Britain Dustin Griffin, 2005-11-17 The poetry of the mid and late eighteenth century has long been regarded as primarily private and apolitical in this wide ranging study Dustin Griffin argues that in fact the poets of the period were addressing the great issues of national life rebellion at home imperial wars abroad an expanding commercial empire an emerging new British national identity Taking up the topic of patriotic verse Griffin shows that poets such as Thomas Gray Christopher Smart Oliver Goldsmith and William Cowper were engaged in the century long debate about the nature of true patriotism *The Theme of Patriotism in the Poetry of the Early Eighteenth Century*

Bonamy Dobrée, 1949 **Imagining War and Peace in Eighteenth-Century Britain, 1690-1820** Andrew Lincoln, 2023-11-23 Ranging over political moral religious artistic and literary developments in eighteenth century Britain Andrew Lincoln explains in a clear and engaging style how the civilizing process and the rise of humanitarianism far from inhibiting war helped to make it acceptable to a modern commercial society In a close examination of a wide variety of illuminating examples he shows how criticism of the terrible effects of war could be used to promote the nation's war making His study explores how ideas and methods were developed to provide the British public with moral insulation from the overseas violence they read about and from the dire effects of war they encountered at home It shows too how the first campaigning peace society while promoting pacificism drew inspiration from the prospects opened by imperial conquest This volume is an important and timely call to rethink how we understand the cultural and moral foundations of imperial Britain

A Companion to Eighteenth-Century Poetry Christine Gerrard, 2014-02-10 A COMPANION TO EIGHTEENTH CENTURY POETRY A COMPANION TO EIGHTEENTH CENTURY POETRY Edited by Christine Gerrard This wide ranging Companion reflects the dramatic transformation that has taken place in the study of eighteenth century poetry over the past two decades New essays by leading scholars in the field address an expanded poetic canon that now incorporates verse by many women poets and other formerly marginalized poetic voices The volume engages with topical critical debates such as the production and consumption of literary texts the constructions of femininity sentiment and sensibility enthusiasm politics and aesthetics and the growth of imperialism The Companion opens with a section on contexts considering eighteenth century poetry's relationships with such topics as party politics religion science the visual arts and the literary marketplace A series of close readings of specific poems follows ranging from familiar texts such as Pope's *The Rape of the Lock* to slightly less well known works such as Swift's *Stella* poems and Lady Mary Wortley Montagu's *Town Eclogues* Essays on forms and genres and a series of more provocative contributions on significant themes and debates complete the volume The Companion gives readers a thorough grounding in both the background and the substance of eighteenth century poetry and is designed to be used alongside David Fairer and Christine Gerrard's *Eighteenth Century Poetry An Annotated Anthology* 3rd edition 2014

Visions of Britain, 1730-1830 Sebastian Mitchell, 2013-05-14 This is a revisionist study of the literary and visual

representation of the nation in the century following the formation of the British state It argues that the most engaging accounts of Great Britain subject their imagery to sustained artistic pressure threatening to dismantle the national vision at the moment of its construction **Authorship in the Long Eighteenth Century** Dustin Griffin,2013-12-11 This book deals with changing conditions and conceptions of authorship in the long eighteenth century a period said to have witnessed the birth of the modern author Challenging claims about the public sphere and the professional writer it engages with recent work on print culture and the history of the book and takes up such under treated topics as the forms of literary careers and the persistence of the Renaissance republic of letters into the age of authors **Eighteenth Century Writing from Wales** Sarah Prescott,2020-09-15 Examines Welsh writing in English in the context of critical debates concerning the rise of cultural nationalism and the invention of Great Britain as a nation in the eighteenth century This study investigates the ways in which Anglophone literature from and about Wales imagines the nation and its culture in a range of genres Invoking Slavery in the Eighteenth-Century British Imagination Srividhya Swaminathan,Adam R. Beach,2016-05-06 In the eighteenth century audiences in Great Britain understood the term slavery to refer to a range of physical and metaphysical conditions beyond the transatlantic slave trade Literary representations of slavery encompassed tales of Barbary captivity the exotic slaving practices of the Ottoman Empire the political enslavement practiced by government or church and even the harsh life of servants under a cruel master Arguing that literary and cultural studies have focused too narrowly on slavery as a term that refers almost exclusively to the race based chattel enslavement of sub Saharan Africans transported to the New World the contributors suggest that these analyses foreclose deeper discussion of other associations of the term They suggest that the term slavery became a powerful rhetorical device for helping British audiences gain a new perspective on their own position with respect to their government and the global sphere Far from eliding the real and important differences between slave systems operating in the Atlantic world this collection is a starting point for understanding how slavery as a concept came to encompass many forms of unfree labor and metaphorical bondage precisely because of the power of association

Taking Liberties Halina Filipowicz,2015-01-01 As narrow nationalist views of patriotic allegiance have become widespread and are routinely invoked to justify everything from flag waving triumphalism to xenophobic bigotry the concept of a nonnationalist patriotism has vanished from public conversation Taking Liberties is a study of what may be called patriotism without borders a nonnational form of loyalty compatible with the universal principles and practices of democracy and human rights respectful of ethnic and cultural diversity and overall open minded and inclusive Moving beyond a traditional study of Polish dramatic literature Halina Filipowicz turns to the plays themselves and to archival materials ranging from parliamentary speeches to polemical pamphlets and verse broadsides to explore the cultural phenomenon of transgressive patriotism and its implications for society in the twenty first century In addition to recovering lost or forgotten materials the author builds an innovative conceptual and methodological framework to make sense of those materials The

result is not only a significant contribution to the debate over the meaning and practice of patriotism but a masterful intellectual history

Literary Authority Claude Willan, 2023-03-07 This book is the cultural history of an idea which now seems so self evident as barely to be worth stating through writing imaginative literature an author can accrue significant and lasting economic and cultural power We take for granted now that authority dwells in literature and in being its author This state of affairs was not naturally occurring but deliberately invented This book tells the story of that invention The story's central figures are Alexander Pope and Samuel Johnson But its narrative begins in the 1680s with the last gasp of the bond linking literary to political authority While Jacobite poets celebrated and mourned the Stuart dynasty Whig writers traced the philosophical and aesthetic consequences of the accession of William of Orange Both groups left behind sets of literary devices ready made to confer and validate authority Claude Willan challenges the continued reign of the Scriblerian model of the period and shows how that reign was engineered In so doing he historicizes the relationship between good and bad writing and suggests how we might think about literature and beauty had Pope and Johnson not taken literary authority for themselves What might literature have looked like and what could we use it for he provocatively asks
