that demonstrate trust influence or integrity in relationships Ann also illustrates how you can teach students to break patterns to help them move on in the learning process by recognising and rejecting long held patterns of behaviour or assumptions that are unhelpful or redundant Formal education and training do not necessarily produce learners who are well resourced to take advantage of opportunities that arise and to avoid some of the stresses that uncertainty ambiguity or imposed change place upon them So perhaps one of the most important patterns that we can explore and understand as we move forward in a changing world is our own pattern of learning Whether you are a parent teacher tutor trainer coach or manager you need to be an effective facilitator of learning and this book is the perfect starting place
