Pattern of People Elizabeth Goudge, Muriel Grainger, 1978 **Pattern of people : an Elizabeth Goudge anthology** Elizabeth Goudge, 1978 **Pattern and Person** Martin J. Powers, 2020-03-17 In Classical China crafted artifacts offered a material substrate for abstract thought as graphic paradigms for social relationships Focusing on the fifth to second centuries B C Martin Powers explores how these paradigms continued to inform social thought long after the material substrate had been abandoned In this detailed study the author makes the claim that artifacts are never neutral as a distinctive possession each object through the abstracting function of style offers a material template for scales of value Likewise through style pictorial forms can make claims about material referents the things depicted By manipulating these scales and their referents artifacts can shape the way status social role or identity is understood and enforced The result is a kind of spatial epistemology within which the identities of persons are constructed Powers thereby posits a relationship between art and society that operates at a level deeper than iconography attributes or social institutions Historically Pattern and Person traces the evolution of personhood in China from a condition of hereditary status to one of achieved social role and greater personal choice This latter development essential for bureaucratic organization and individual achievement challenges the conventional opposition between Western individuals and collective Asians Best New African Poets 2016 Anthology Mwanaka, Tendai R., da Purifacacao, Daniel, 2017-03-27 Best New African Poets 2016 Anthology has 251 pieces from 131 poets and artists in 7 languages English Portuguese French Afrikaans Shona Yoruba and Kiswahili from 24 African countries and Diasporas with South African and Angolan poets dominating the list We also have a healthy number of poets from Uganda Zimbabwe Kenya Mozambique Ghana and Nigeria as usual The nationalist sense is the one that most predominates with its pink blue and gray tints that are expressed in parallel with existentialist perspectives that in turn go hand in hand with love desire hankering joy sensuality that transports us to epic lyrical utopian contexts without being lost in fantasy they are artistic lines sometimes with traditional and sometimes more innovative touches However in contrast and to a lesser extent almost as if there were resistant and with restraint we also find desolation pain negation that can be so sweet or so bitter that it allows the imagination to stop in a lament or end in resignation *Patterns of American Popular Heroism* James G. Shoopman, 2020-10-06 The American popular hero has deeply bipolar origins Depending on prevailing attitudes about the use or abuse of authority American heroes may be rooted in the traditions of the Roman conquerors of The Aeneid or of the biblical underdog warriors and prophets This book reviews the history of American popular culture and its heroes from the Revolutionary War and pre Civil War women's literature to the dime novel tales of Jesse James and Buffalo Bill Hinge heroes like The Virginian and the Riders of the Purple Sage paved the way for John Wayne's and Humphrey Bogart's champions of civilization while Jimmy Stewart's scrappy rebels fought soulless bankers and cynical politicians The 1960s and 1970s saw a wave of new renegades the doctors of MASH and the rebel alliance of Star Wars but early 21st Century

terrorism called for the grit of world weary cops and the super heroism of Wonder Woman and Black Panther to make the world safe
