Translated from the German by Susan H Gillespie Paul Celan arguably the mid 20th century's most important German
language poet is commonly pigeonholed as a poet of the Holocaust a term however he never used Undoing facile assumptions
about Celan CORONA charts a more idiosyncratic and personal path through Celan's large oeuvre choosing 103 poems from
among the more than 900 Celan published The bilingual selection includes work from all of Celan's periods and genres
Without ignoring the poet's well known work of memory and memorialization it seeks to open a space for new appreciation of
Celan's love poems as well as his poems on political events painful reflections on his stays in mental hospitals and quasi
burlesque verse Susan H Gillespie's translations are characterized by their ease of diction and their attention to the somatic
and rhetorical aspects of Celan's lines their sound gait tone and gravity as well as to their internal and external echoes The
latter elucidated in notes to the poems include references to other poets and to Celan's wide readings of everything from
specialized dictionaries to other writers what Roman Jakobson called their poetic etymology Here poetry is not what gets lost
in translation writes Gillespie in the Introduction it is itself an act of translation of experience and thought into new language
