Leading Financial Sustainability in Theological Institutions Emmanuel Okantah Bellon, 2017-04-24

The role of theological institutions in Christian mission is likened to the crucible that shapes the hearts and minds of those leading the charge to reconcile the world to God Nevertheless it is also the weakest link in the chain of Christian ministry and efforts to sustain the unique contribution of institutions have been enigmatic So why should we be concerned about theological institutions What if there were no theologians missiologists trained pastors or missionaries in Christian ministry What if there were no theological institutions What if the existing theological institutions collapsed shut down for lack of resources How effective would the witness of the Christian church be without theological institutions in a world in need of God Over the centuries various models for supporting theological training have been tried in institutions but very few of these have been successful Time cost and quality of education among others have been the driving forces behind the changing models and yet financial sustainability has been elusive Only informed leadership that draws insights from historical biblical and practical wisdom is necessary in achieving this goal This book is your faithful companion in the quest to achieve financial sustainability in theological institutions

Solidarity and Difference David G. Horrell, 2015-11-19

David G Horrell presents a study of Pauline ethics examining how Paul's moral discourse envisages and constructs communities in which there is a strong sense of solidarity but also legitimate difference in various aspects of ethical practice Horrell reads

New Testament texts with an explicit awareness of contemporary ethical theory and assesses Paul's contribution as a moral thinker in the context of modern debate. Using a framework indebted to the social sciences as well as to contemporary ethical theory, Horrell examines the construction of community in Paul's letters, the notions of purity, boundaries and identity, Paul's attempts to deal with diversity in his churches, the role of imitating Christ in Paul's ethics and the ethic Paul develops for interaction with outsiders. Finally, the pattern of Paul's moral thinking is considered in relation to the liberal communitarian debate, with explicit consideration given to the central moral norms of Pauline thought and the prospects for and problems with appropriating these in the contemporary world. This Cornerstones edition includes an extended reflective introduction and a substantial foreword from N. T. Wright.

Jew Among Jews Kimberly Ambrose, 2015-11-17

Misunderstanding of Paul had started already in his lifetime and his letters offer many examples of this. Throughout the centuries, Paul has continued to be misunderstood by both Jews and Gentiles, especially in relation to his view of the law and the covenant. Paul has often been misunderstood because his form of argument, his use of Scripture, his view of Jews and Gentiles in Christ, especially of those Jews who were not convinced that Jesus was Messiah and his view of what constitutes true Judaism, do not seem to conform to our expectations and perceptions of the apostle. We have been accustomed to read his letters as of one who was emancipating people from Judaism as one who sought to obliterate all ethnic and other distinctions rather than maintaining the identity of Jews and Gentiles even in Christ. By building on some of the insights of the New Perspective and developing other more recent insights as well as a more consistent and credible Paul as a first-century Diaspora Jew organizing a mission to Gentiles will be presented.
