Pavel Florensky A Metaphysics Of Love:

Pavel Florensky Robert Slesinski,1984 This present work examines the life and thought of Father Pavel Florensky 1882 1943 the one individual who probably best both in his personality and speculative output incarnates the spirit of the religious renaissance which occurred in Russia in the years immediately preceding the Revolution in 1917 His masterwork *The Pillar and Foundation of Truth* proved so influential that it has left an indelible mark on Russian religious thought right up until our own day This book examines Florensky's experimental methodology his antinomic theory of truth and above all his sophiological conception which subsequently evoked much debate in Orthodox circles This present work offers a way out of this controversy *A Metaphysics of Love* George Pattison,2021 As the third part of a philosophy of Christian life *A Metaphysics of Love* builds on a view of Christian life as shaped by the dynamic of call response and promise It argues that love is the ultimate content of this dynamic and considers how far this claim extends Taking its bearings from Dante's vision of divine love as the power that moves the sun and other stars this study explores the requirement that love is both human and cosmic uniting being and beings Cognizant of much recent philosophy's desire to overcome or move beyond a metaphysics of being it examines some of the formal structures that make love possible including language time social being forgiveness and ultimacy Following on from the earlier volumes extensive use is made of the idea of the poetic as the eminent mode of Christian witness contextualized within the prose of everyday life Heidegger provides fundamental philosophical orientation whilst key features of love are brought to the fore through dialogue with Kierkegaard Dante and Dostoevsky are frequent points of reference in addition to a range of literary and religious sources including the Scottish poet Edwin Muir Leading scholar George Pattison concludes that the phenomenon of love requires us to articulate a metaphysics that involves both being and nothingness thereby taking a critical position vis vis both classical theism and existential atheism

Antinomy and Symbol: Pavel Florensky's Philosophy of Discontinuity Andrea Oppo,2024-08-19 Pavel Florensky 1882 1937 was a Russian philosopher theologian and scientist He was considered by his contemporaries to be a polymath on a par with Pascal or Da Vinci This book is the first comprehensive study in the English language to examine Florensky's entire philosophical oeuvre in its key metaphysical concepts For Florensky antinomy and symbol are the two faces of a single issue the universal truth of discontinuity This truth is a general law that represents better than any other the innermost structure of the universe With its original perspective Florensky's philosophy is unique in the context of modern Russian thought but also in the history of philosophy per se *The Oxford Handbook of Russian Religious Thought* Caryl Emerson,George Pattison,Randall A. Poole,2020 A comprehensive collection exploring the role of ideas institutions and movements in the evolution of Russian religious thought Contains cutting edge scholarship that expands understanding of one of the richest aspects of Russian cultural and intellectual life Considers the influence of Russian religious thought in the West and the role of religion in aesthetics music poetry art film and the novel An authoritative reference for students and

scholars Book jacket **The Orthodox Christian World** Augustine Casiday, 2012-08-21 Over the last century unprecedented numbers of Christians from traditionally Orthodox societies migrated around the world Once seen as an oriental or eastern phenomenon Orthodox Christianity is now much more widely dispersed and in many parts of the modern world one need not go far to find an Orthodox community at worship This collection offers a compelling overview of the Orthodox world covering the main regional traditions of Orthodox Christianity and the ways in which they have become global The contributors are drawn from the Orthodox community worldwide and explore a rich selection of key figures and themes The book provides an innovative and illuminating approach to the subject ideal for students and scholars alike

Freedom and Necessity in Modern Trinitarian Theology Brandon Gallaher, 2016-09-02 Freedom and Necessity in Modern Trinitarian Theology examines the tension between God and the world through a constructive reading of the Trinitarian theologies and Christologies of Sergii Bulgakov 1871 1944 Karl Barth 1886 1968 and Hans Urs von Balthasar 1905 1988 It focuses on what is called the problematic of divine freedom and necessity and the response of the writers Problematic refers to God being simultaneously radically free and utterly bound to creation God did not need to create and redeem the world in Christ It is a contingent free gift Yet on the other side of a dialectic he also has eternally determined himself to be God as Jesus Christ He must create and redeem the world to be God as he has so determined In this way the world is given a certain free necessity by him because if there were no world then there would be no Christ A spectrum of different concepts of freedom and necessity and a theological ideal of a balance between the same are outlined and then used to illumine the writers and to articulate a constructive response to the problematic Brandon Gallaher shows that the classical Christian understanding of God having a non necessary relationship to the world and divine freedom being a sheer assertion of God's will must be completely rethought Gallaher proposes a Trinitarian Christocentric and cruciform vision of divine freedom God is free as eternally self giving self emptying and self receiving love The work concludes with a contemporary theology of divine freedom founded on divine election

Sergii Bulgakov Serge? Nikolaevich Bulgakov, 1999-01-01 Sergii Bulgakov was one of the most influential Russian thinkers in the Silver Age of Russian intellectual life in the decade and a half before the Revolution This book offers a representative selection and engagement with the books and essays of his formative years In this way Williams brings to our attention a figure who continues to be influential in dissident movements establishing a major point of reference for those seeking a radical or Christian alternative to state socialism and the free market

Passionate Holiness Dennis O'Neill, 2018-09-20 Archbishop Desmond Tutu of Cape Town once said with regard to South Africa's apartheid policy One of the ways of helping to destroy a people is to tell them that they don't have a history that they have no roots More recently he described homophobic discrimination as totally unacceptable and unjust as apartheid ever was Unfortunately it has been particularly difficult for some gay lesbian bisexual and transgender Christians to remain connected to identify with their own faith traditions because some of these traditions not only treat them as people

of secondary status but also teach Christian history as though no people of same gender attraction or opposite gender identity had any noteworthy place in it and made no significant contributions at all to Christian tradition. Passionate Holiness tries to remedy this situation by explaining why acquaintance with the stories of certain saints with whom gender minorities can identify can help them to connect with their own history and spiritual legacy and empower them to face a brighter future with a sense of optimism and inclusion.

Multireligious Reflections on Friendship Laura Duhan-Kaplan, Anne-Marie Ellithorpe, Hussam S. Timani, 2023-05-22. Multireligious Reflections on Friendship Becoming Ourselves in Community presents a multi religious discussion of spiritual and ethical formation through friendship. Contributors discuss the positive effects of friendship and some of the culturally diverse ways that friendships develop. Friends help us co exist in diverse societies, live sustainably in our ecosystems, heal from trauma, develop inner virtues, engage wisely in social action and connect with the divine. While friendship is a core human value, cultural traditions have used different tools to build friendships. For example, Indigenous communities emphasize reciprocity on the land, Jewish traditions encourage respect for study partners, Buddhist teachers suggest discernment in befriending. Christian texts speak of bringing God's love into community. The fifteen scholars contributing to this book draw on the teachings of six different global traditions: Indigenous, Hindu, Jewish, Buddhist, Islamic, and Christian. Each scholar applies the tools of their tradition: reciprocity, respect, discernment, love, and more, to discuss how we might become our best selves in community.

Doing Theology in Today's World John D. Woodbridge, 1994-07. This volume focuses on a central question: What does a person need to know for developing a theology? In other words, this book will not only answer objections lodged against the study of theology but will explain to students, pastors, and laypersons alike what a theologian actually does. It will also present different approaches to the study of theology and review the present status of theological reflection in various Protestant, Orthodox, and Roman Catholic traditions. In the first section of the book, evangelical Protestant scholars describe the contributions various disciplines make to the study of theology. In the next section, evangelical Protestant scholars explain the distinctives of their approaches to doing theology. In the third part, theologians who do not identify with evangelical Protestant convictions seek to explain the distinctives of their approaches to doing theology. In the final section, Dr. Kantzer provides a summary analysis of how he does theology and interacts critically with a number of essays in this volume.
