The Pawn of Pharma Evan Jacobs, 2005-03 Samantha Harmon a recently hired sales representative for a multinational drug company struggles to succeed in the extremely competitive American pharmaceutical industry Living in the shadows of her widowed father a high level executive with the organization she attempts to develop a career while caught up in a business environment where the players do not always have the public s best interest in mind Dr Goldfarb a prominent physician speaker and promoter for the corporation creates a web of industry professionals he manipulates in order to gain from the loosely regulated business Samantha accidentally learns of one of his murderous schemes Her knowledge threatens to bring down Dr Goldfarb ending his profiteering Consequently the young woman s life is threatened by those who wish to silence her The Pawn of Pharma is a story about corporate greed business ethics family loyalty a search for purpose and the excessiveness of the American pharmaceutical industry Perspectives on Twentieth-century Pharmaceuticals Viviane

Quirke, Judy Slinn, 2010 One of the most striking features of the twentieth century has been the rapid growth of the pharmaceutical industry and the large increases in the use and consumption of its products This trend began in the first half of the century but accelerated most sharply after the Second World War when the creation of national systems of healthcare created mass markets for drugs The industry then assumed a major economic social and political significance and became one of the most highly regulated sectors of the economy attracting the attention of industry analysts as well as academics This volume brings together a collection of papers exploring and reflecting upon some of the significant strands in the current studies of pharmaceuticals in the twentieth century They touch upon many of the issues that are matters of concern and debate today and their international and multidisciplinary approaches enrich our understanding of an object of an industry and of a process that are at the heart of our highly medicalized contemporary societies **Pharmaceutical**
