Portrait of America, 2003 **Portrait of America, Volume II** Stephen Oates, Charles J. Errico, 2010-08-05 PORTRAIT OF AMERICA is an anthology of essays written by some of America's most eminent historians. The collection maintains a loose biographical focus. Portrait of America, Volume II Stephen B. Oates (editor), 1973 **America at 1750** Richard Hofstadter, 1971 This book describes how the colonies developed into the first nation created under the influences of nationalism, modern capitalism, and Protestantism. *Imagery of Lynching* Dora Apel, 2004 Outside of the classroom and scholarly publications, lynching has long been a taboo subject. Nice people, it is felt, do not talk about it, and they certainly do not look at images representing the atrocity. In *Imagery of Lynching*, Dora Apel contests this adopted stance of ignorance. Through a careful and compelling analysis of over one hundred representations of lynching, she shows how the visual documentation of such crimes can be a

central vehicle for both constructing and challenging racial hierarchies She examines how lynching was often orchestrated explicitly for the camera and how these images circulated on postcards but also how they eventually were appropriated by antilynching forces and artists from the 1930s to the present She further investigates how photographs were used to construct ideologies of whiteness and blackness the role that gender played in these visual representations and how interracial desire became part of the imagery Offering the fullest and most systematic discussion of the depiction of lynching in diverse visual forms this book addresses questions about race class gender and dissent in the shaping of American society Although we may want to avert our gaze Apel holds it with her sophisticated interpretations of traumatic images and the uses to which they have been put **Portrait of America** Michael D.
