ROBERT P. WATSON

Presidents Wives Reassessing The Office Of First Lady

Katherine A.S. Sibley

Presidents Wives Reassessing The Office Of First Lady:

The Presidents' Wives Robert P. Watson, 2000 Traces the development of the First Lady's role from obscurity into an influential force in politics complete with office staff and budgetary resources to rival those of key presidential advisors The author also explores the paradoxes surrounding activism in the office

Laura Bush Robert P. Watson, 2005 In this book version of the official report presented to First Lady Laura Bush the reader will find the same contents that were included in the actual report This report marks the first ever time that such an undertaking was performed for the nation's first lady The report designed as a service to assist Mrs Bush in meeting the demands of her new role contains advice for the first lady and her senior staff as well as information on the history challenges and duties associated with the Office of the First Lady The contributors include the former first ladies public officials and leading historians of the first ladyship The Office of the First Lady is arguably the most intriguing and demanding unpaid job in the country The president's wife is in the unique position to wield significant power and influence as she presides over White House social affairs and important social projects while serving as the president's most trusted confidante and one of the country's most celebrated women

The Health of the First Ladies Ludwig M. Deppisch, M.D., 2015-01-28 This first comprehensive study of the medical histories of America's first ladies from Martha Washington to Michelle Obama discusses their illnesses their treatments and their physicians in the context of their times As the categories of illness afflicting Americans have changed through history so have the kinds of maladies affecting the first ladies Infectious diseases and the consequences of poorly supervised pregnancies have been replaced by cerebrovascular accidents and malignancies The secrecy with which the White House has traditionally handled inquiries about the health of the president's wife is explored in detail however several first ladies notably Betty Ford have been transparent about their illnesses in order to educate the public The effects of a first lady's responsibilities on her health is examined This book also seeks to discern how the well being of the first lady influences presidential performance

A Companion to Lyndon B. Johnson Mitchell B. Lerner, 2012-02-13 This companion offers an overview of Lyndon B Johnson's life presidency and legacy as well as a detailed look at the central arguments and scholarly debates from his term in office Explores the legacy of Johnson and the historical significance of his years as president Covers the full range of topics from the social and civil rights reforms of the Great Society to the increased American involvement in Vietnam Incorporates the dramatic new evidence that has come to light through the release of around 8 000 phone conversations and meetings that Johnson secretly recorded as President

Jacqueline Kennedy Barbara A. Perry, 2018-03-31 In a mere one thousand days Jacqueline Bouvier Kennedy created an entrancing public persona that has remained intact for more than a half century Even now long after her death in 1994 she remains a figure of enduring and endearing interest Yet while innumerable books have focused on the legends and gossip surrounding this charismatic figure Barbara Perry's is the first to focus largely on Kennedys White House years portraying a First Lady far more complex and enigmatic than previously perceived Noting how

Jackie's celebrity and devotion to privacy have for years precluded a more serious treatment. Perry's engaging and well-crafted story illuminates Kennedy's immeasurable impact on the institution of the First Lady. Perry vividly illustrates the complexities of Jacqueline Bouvier's marriage to John F. Kennedy and shows how she transformed herself from a reluctant political wife to an effective confident presidential partner. Perry is especially illuminating in tracing the First Lady's mastery of political symbolism and imagery along with her use of television and state entertainment to disseminate her work to a global audience. By offering the White House as a stage for the arts, Jackie also bolstered the president's Cold War efforts to portray the United States as the epitome of a free society. From redecorating the White House to championing Lafayette Square's preservation to lending her name to fund raising for the National Cultural Center, she had a profound impact on the nation's psyche and cultural life. Meanwhile, her fashionable clothes and glamorous hairdos stood in stark contrast to the dowdiness of her predecessors and the drab appearances of Communist leaders' spouses. Never before or since have a First Lady and her husband sparkled with so much hope and vigor on the stage of American public life. Perry's deft narrative captures all of that and more, even as it also insightfully depicts Jackie's struggles to preserve her own identity amid the pressures of an institution she changed forever. Grounded on the author's painstaking research into previously overlooked or unavailable archives at the Kennedy Library and elsewhere, as well as interviews with Jacqueline Kennedy's close associates, Perry's work expands and enriches our understanding of a remarkable American woman.

First Ladies Dorothy Schneider, Carl J. Schneider, 2005. Presents a collection of chronologically arranged entries of America's first ladies from Martha Washington to Laura Bush and includes brief biographical information as well as explaining their roles and responsibilities in the White House.

Women and the White House Justin S. Vaughn, Lilly J. Goren, 2012-11-30. As the first female vice president takes office, this volume explores gender perceptions and the executive role. An important impressive book. Lane Crothers, author of *Globalization and American Popular Culture*. The president of the United States has traditionally served as a symbol of power, virtue, ability, dominance, popularity, and patriarchy. In recent years, however, a number of high-profile female candidacies have provoked new interest in gendered popular culture and how it influences Americans' perceptions of the country's highest political office. In this timely volume, editors Justin S. Vaughn and Lilly J. Goren lead a team of scholars in examining how the president and the first lady exist as a function of public expectations and cultural gender roles. The authors investigate how the candidates' messages are conveyed, altered, and interpreted in hard and soft media forums, from the nightly news to daytime talk shows and from tabloids to the blogosphere. They also address the portrayal of the presidency in film and television productions, such as 1964's *Kisses for My President* and 2005's *Commander in Chief*. With its strong multidisciplinary approach, *Women and the White House* commences a wider discussion about the growing possibility of a female president in the United States, the ways in which popular perceptions of gender will impact her leadership, and the cultural challenges she will face.

Michelle Obama Elizabeth J. Natalle, Jenni Simon, 2015-08-27

Michelle Obama First Lady American Rhetor is an edited anthology that explores the persona and speech making of the country's first African American first lady. The result of these thought provoking essays is an interdisciplinary text that explores the First Lady from a rhetorical and cultural point of view. Authors analyze her Democratic National Convention speeches, her brand as First Lady, her communication from her latest trip to Africa, her agenda rhetoric in 'Let's Move' and 'Reach Higher' and her coming out as a Black feminist intellectual when she spoke at Maya Angelou's memorial service. Readers will recognize Michelle Obama as a rhetor of our times, a woman who influences America at the intersections of gender, race, and class and who is representative of what women are today. George W. Bush Bryan Hilliard, Tom

Lansford, Robert P. Watson, 2012-02-01 Bringing together presidential scholars, leading voices on the presidency and former White House aides, this book provides a timely and thorough assessment of George W. Bush at the historic midpoint of his presidency. The book covers Bush's character and leadership style, domestic policy, foreign policy, and the War on Terror and the Bush administration. It concludes with a report card on the Bush presidency whereby the President, his staff, and his legislative record are graded. **Almost Madam President** Nichola D. Gutgold, 2009-01-01

All around the world, women are presidents and prime ministers; yet in America, we have yet to elect the first woman president. When Barack Obama accepted the nomination as the Democratic candidate for president in 2008, the media were quick to point out that Hillary Clinton lost. Yet Clinton won almost 18 million votes and was the first front runner woman candidate. **Almost Madam President: Why Hillary Clinton Won in 2008** argues that Hillary Clinton gained more than she lost in her bid for the presidency. This book takes the reader on a rhetorical journey through Hillary Clinton's 2008 presidential campaign, focusing on Clinton's sophisticated YouTube style announcement speech, the debates, and the many notable stump speeches and media events on the campaign trail. Along the way, Gutgold examines the obstacles and opportunities of women as presidential candidates.

Gender and Political Communication in America Janis L. Edwards, 2009-01-01 At a time when presidential campaigns are shaped to appeal to women voters when masculinity constructs impinge on wartime leaders and when the United States appears to move towards the possibility of a woman president, it is vital that communication scholarship addresses the issue of gender and politics in a comprehensive manner. **Gender and Political Communication in America: Rhetoric, Representation, and Display** takes on this challenge as it investigates from a rhetorical and critical standpoint the intersection and mutual influences of gender and political communication as they are realized in the nation's political discourse. Representing some of the leading investigators on gender and political communication as well as emerging scholars, the volume's contributors update and interrogate contemporary issues of gendered politics applicable to the 21st century, including the historic 2008 election. Through their original research, the contributors offer critical examinations of the impact of salient theories and models of gender studies as they relate to historical and contemporary roles and practices in the political sphere. **Gender and Political Communication in America's** broad and diverse engagement with the subject matter makes it a must read for those

interested in women's studies and political communication **Anticipating Madam President** Robert P. Watson, Ann Gordon, 2003 Annotation Conveying the complexity and challenges surrounding the pursuit of the White House the authors explore the conditions the first female president will encounter both on the campaign trail and in office **Women, Power, and Politics** Lori Cox Han, Caroline Heldman, 2023-05-29 As women continue to gain more prominence as active participants in the American political and electoral process as voters candidates and officeholders it becomes even more important to understand how gender shapes political power and the distribution of resources within our society There are many areas of research in a variety of disciplines focusing on women gender and feminism and many of them intersect with a discussion of women in American politics Our goal in writing this book is to present these topics in an interesting lively and timely way through an analysis of contemporary political gender related issues We hope to have provided just enough of an historical context to get students interested in the evolution of women in American political life and enough theory and analysis to inspire them to seek more information and knowledge about gender justice today The study of women and U S politics as well as the role gender plays in the broader political context has emerged as a powerful voice within the discipline of Political Science in the last few decades As such we hope that readers find this text a useful addition to the ongoing dialogue while instructors find it to be a useful pedagogical tool for their courses on women gender and politics **The Presidency and Women** Janet M. Martin, 2009-09-13 By identifying the parallel emergence of the women's movement and the growth in the executive branch Martin skillfully demonstrates how our political system can accommodate the demand for change and also maintain a stable government Perspectives on Political Science Martin's analysis provides overdue insight into the relationship between the presidency as an institution and women as a leading interest group National Journal **Dutiful Service** Robert E. Dewhirst, 2004 Throughout her time in the White House Mamie Eisenhower was one of America's most beloved First Ladies The last First Lady to be born in the nineteenth century Mamie Eisenhower in many ways personified traditional views of the proper role of women in the first half of the twentieth century She supported her husband and his career wholeheartedly and did all she could to help him achieve his goals This volume chronicles her life from her comfortable and affluent childhood through a nomadic life as an Army wife to the halls of power and influence in the White House Affairs of State Robert P. Watson, 2012-09-06 In recent years Arnold Schwarzenegger Eliot Spitzer John Edwards Newt Gingrich Herman Cain and countless other politicians have made headlines for their sexual scandals But such stories are not new Indeed there is a long history of misbehavior in politics including in the nation's highest office Bill Clinton it can safely be said was not the first president to misbehave nor was he the worst In fact there is a long history of presidential peccadilloes Many presidents have been influenced and had their careers affected by the hand of a woman sometimes that of a wife or mother but at other times that of a mistress But these stories are rarely told Instead history has tended to glorify our leaders Such a scrubbed version of the lives of presidents however omits their marital woes love lives and sexual

peccadilloes As Robert P Watson reveals it is precisely these intimate and all too human moments that provide some of the most valuable insights into our leaders Affairs of State is not just about sex and scandal the who did it of history although such incidents are described in detail It is a book about love marriage and affairs in the White House offering an intimate character study of the First Couples who made history To see the author discuss his book on Inside South Florida please click [here](#) To see him discuss the book on C SPAN please click [here](#) [A Companion to First Ladies](#) Katherine A.S.

Sibley,2016-03-14 This volume explores more than two centuries of literature on the First Ladies from Martha Washington to Michelle Obama providing the first historiographical overview of these important women in U S history Underlines the growing scholarly appreciation of the First Ladies and the evolution of the position since the 18th century Explores the impact of these women not only on White House responsibilities but on elections presidential policies social causes and in shaping their husbands legacies Brings the First Ladies into crisp historiographical focus assessing how these women and their contributions have been perceived both in popular literature and scholarly debate Provides concise biographical treatments for each First Lady

Rosalynn Carter Scott Kaufman,2007 A portrait of an ambitious brilliant and hardworking woman It details the many roles Rosalynn played in support of President Jimmy Carter and also documents the ambivalence of the American public to some of her activities

Eleanor Roosevelt Maurine Hoffman Beasley,2010 The first book devoted to Eleanor Roosevelt s 1933 1945 tenure in the White House the longest of any first lady Provides an insightful account of how she merged her private and public lives to transform the ambiguous role of first lady into an important institution of the American political system

42 Michael Nelson,Barbara A. Perry,Russell L. Riley,2016-07-14 This book uses hundreds of hours of newly opened interviews and other sources to illuminate the life and times of the nation s forty second president Bill Clinton Combining the authoritative perspective of these inside accounts with the analytic powers of some of America s most distinguished presidential scholars the essays assembled here offer a major advance in our collective understanding of the Clinton White House Included are path breaking chapters on the major domestic and foreign policy initiatives of the Clinton years as well as objective discussions of political success and failure 42 is the first book to make extensive use of previously closed interviews collected for the Clinton Presidential History Project conducted by the Presidential Oral History Program of the University of Virginia s Miller Center These interviews recorded by teams of scholars working under a veil of strict confidentiality explored officials memories of their service with President Clinton and their careers prior to joining the administration Interviewees also offered political and leadership lessons they had gleaned as eyewitnesses to and shapers of history Their spoken recollections provide invaluable detail about the inner history of the presidency in an age when personal diaries and discursive letters are seldom written The authors producing this volume had first access to more than fifty of these cleared interviews including sessions with White House chiefs of staff Mack McLarty and Leon Panetta Secretaries of State Warren Christopher and Madeleine Albright National Security Advisors Anthony Lake

and Sandy Berger and a host of political advisors who guided Clinton into the White House and helped keep him there This book thus provides a multidimensional portrait of Bill Clinton s administration drawing largely on the observations of those who knew it best
