and self harm has increased among Japanese women who report receiving mixed messages about how to be women. Mirroring this women's self directed violence has increasingly been thematised in diverse Japanese narrative and visual culture. This book examines the relationship between normative femininity and women's self directed violence in contemporary Japanese culture. To theoretically define the complexities that constitute normativity the book develops the concept of contradictory femininity and shows how in Japanese culture women's paradoxical roles are thematised through three character construction techniques broadly derived from the doppelgänger motif. It then demonstrates how eating disorders and self harm are included in normative femininity and suggests that such self directed violence can be interpreted as coping strategies to overcome feelings of fragmentation related to contradictory femininity. Looking at novels, artwork, manga, anime, TV dramas and news stories the book analyses both globally well known Japanese culture such as Murakami Haruki's literary works and Miyazaki Hayao's animation as well as culture unavailable to non Japanese readers. The aim of juxtaposing such diverse narrative and visual culture is to map common storylines and thematisation techniques about normative femininity, self harm and eating disorders. Furthermore it shows how women's private struggles with their own bodies have become public discourse available for consumption as entertainment and lifestyle products. Highly interdisciplinary it will be of huge interest to students and scholars of Japanese studies, Japanese culture and society and gender and women's studies as well as to academics and consumers of Japanese literature, manga and animation.

Japan and Japonisme Noriko N. Murai, 2025-10-24. *Japan and Japonisme: The Self and the Other in Representations of Japanese Culture* explores Japan's engagement with and responses to Japonisme and presents new perspectives on the history and enduring influence of Japonisme as a cultural discourse. The term Japonisme has come to encapsulate the West's interests in Japanese arts and culture in the late nineteenth and early twentieth centuries. Japonisme contributed to Japan's global reputation as an artistic nation but it also produced persistent stereotypes about the Japanese such as the image of geisha. This pioneering anthology also demonstrates how Japan has espoused the modern Western fascination with its arts and culture to create and promote its national cultural identity. *Japan and Japonisme* introduces innovative studies on Japonisme by leading experts in the field and covers the visual arts, art criticism and exhibitions, fashion, literature, horticulture and popular culture in France, Italy, the United Kingdom and the United States.

much much more **The Modern Amazons** James Ursini, Dominique Mainon, 2006-03-01 Book The Modern Amazons Warrior Women on Screen documents the public's seemingly insatiable fascination with the warrior woman archetype in film and on television. The book examines the cautious beginnings of new roles for women in the late fifties, the rapid development of female action leads during the burgeoning second wave feminist movement in the late sixties and seventies, and the present-day onslaught of female action characters now leaping from page to screen. The book itself is organized into chapters that group women warriors into sub-genres: e.g. classic Amazons like Xena Warrior Princess and the women of the Conan films; superheroes and their archenemies such as Wonder Woman, Batgirl, and Catwoman; revenge films such as the Kill Bill movies; Sexploitation and Blaxploitation films such as Coffy and the Ilsa trilogy; Hong Kong cinema and warriors like Angela Mao, Cynthia Rothrock, and Zhang Ziyi; sci-fi warriors from Star Trek, Blade Runner, and Star Wars; supersleuths and spies like the Avengers and Charlie's Angels; and gothic warriors such as Buffy the Vampire Slayer and Kate Beckinsale in Underworld and Van Helsing. In addition, the book is lavishly illustrated with over 400 photos of these popular culture icons in action, interesting articles and sidebars about themes, trends, weapons, style, and trivia, as well as a complete filmography of more than 150 titles.

Encyclopedia of Romance Fiction Kristin Ramsdell, 2018-09-07 As the first encyclopedia solely devoted to the popular romance fiction genre, this resource provides a wealth of information on all aspects of the subject. Romance fiction accounts for a large share of book sales each year, and contrary to popular belief, not all of its readers are women; roughly 16 percent are men. This enormously popular genre continues to captivate people reading for pleasure, and it also commands a growing amount of academic interest. Included are alphabetically arranged reference entries on significant authors, along with works, themes, and other topics. The articles are written by scholars, librarians, and industry professionals with a deep knowledge of the genre and so provide a thorough understanding of the subject. An index provides easy access to information within the entries, and bibliographies at the end of each entry, a general bibliography, and a suggested romance reading list allow for further study of the genre.

Media Intertextualities Mie Hiramoto, 2012-05-09 This collection of critical essays, originally published in *Pragmatics and Society* 1/2 2010, discusses how normative biases that shape our relation to the world are constructed through discursive practice in media discourse. The intertextual perspective it adopts is crucial for our understanding of how media representations of speakers and languages shape many of our preconceptions of others. Mediatization is inherently intertextual; the very nature of this process involves extracting the speech behavior of particular speakers or groups from a highly specific context and refracting and reshaping it to be inserted in another stream of representation. The notion of intertextuality becomes a useful concept for the linguistic anthropological study of media discourse in the context of modernity, as it provides us with a tool for exploring the semiotic processes that underlie the way in which the media negotiate and reinscribe the complex relationships of identity that characterize late modern subjecthood.

Asian Cinema and the Use of Space Lilian Chee, Edna Lim, 2015-04-24 Asian cinemas are connected to global networks

and participate in producing international film history while at the same time influenced and engaged by spatial cultural social and political transformations This interdisciplinary study forwards a productive pairing of Asian cinemas and space where space is used as a discursive tool to understand cinemas of Asia Concentrating on the performative potential of cinematic space in Asian films the contributors discuss how space re constructs forms of identities and meanings across a range of cinematic practices Cities landscapes buildings and interiors actively shape cinematic performances of such identities and their significances The essays are structured around the spatial themes of ephemeral imagined and contested spaces They deal with struggles for identity belonging autonomy and mobility within different national and transnational contexts across East Southeast and parts of South Asia in particular which are complicated by micropolitics and subcultures and by the interventions and interests of global lobbies

Starlit Ruins Simon Woodington, 2017-03-29 What if Sailor Moon were sent to the war torn magic rich Earth of Palladium's Rifts What if a new player replaced Beryl with brutal new tactics What if a new team of young heroes filled the gap left by the Sailor Senshi on Earth Can a rag tag group of magically gifted individuals protect Japan What will it take to defeat the new more visceral approach of the Negaforce

Shōjo Across Media Jaqueline Berndt, Kazumi Nagaike, Fusami Ogi, 2019-02-22 Since the 2000s the Japanese word shōjo has gained global currency accompanying the transcultural spread of other popular Japanese media such as manga and anime The term refers to both a character type specifically as well as commercial genres marketed to female audiences more generally Through its diverse chapters this edited collection introduces the two main currents of shōjo research on the one hand historical investigations of Japan's modern girl culture and its representations informed by Japanese studies and gender studies concerns on the other hand explorations of the transcultural performativity of shōjo as a crafted concept and affect prone code shaped by media studies genre theory and fan culture research While acknowledging that shōjo has mediated multiple discourses throughout the twentieth century discourses on Japan and its modernity consumption and consumerism non hegemonic gender and also technology this volume shifts the focus to shōjo mediations stretching from media by and for actual girls to shōjo as media As a result the Japan derived concept while still situated begins to offer possibilities for broader conceptualizations of girlness within the contemporary global digital mediascape
