Losing A Parent Fiona Marshall, 2009-04-28 Whether from a sudden accident or a slow terminal illness the death of a parent is devastating to adults and children alike In *Losing a Parent* Fiona Marshall helps readers understand the process of coping with a parent's death from preparing for death to recognizing the different stages of grief from nurturing the relationship with the surviving parent to harnessing new strength to carry on with life Wise compassionate and practical *Losing a Parent* is an invaluable source of support for a time of overwhelming loss *Living, Loving and Loss* Brad DeFord, Richard Gilbert, 2016-12-05 One of the unspoken aspects of mourning concerns the ways that loss affects our intimate relationships and our sexual expressiveness This text opens these subjects for conversation with the aim of promoting the trust care and respect that enable us to be vulnerable It purposefully covers a range of topics including 1 the meaning of intimacy and the significance of sexuality providing a basis for the use of these terms throughout the book 2 death grief and differences in sexual orientation including death and intimacy in the lesbian gay bisexual and transgender LGBT community and the losses endured by young people due to gender issues 3 loss of relationship and restoration of intimacy in families including pharmacological effects on the grief processes of widowers grieving a not so loved parent the layered losses of infertility and intimacy and the tolls of war intimacy and sexuality challenges for soldiers and their families 4 adjusting to life's losses associated with aging or illness or infirmity including Alzheimer's and dementia related illnesses physical health losses after 50 and intimacy sex and hospice self determination and dignity at the end of life and 5 religious bases that have shaped our perspectives for understanding intimacy sexuality and healing after loss and which give us hope including the spiritual reflections of a rabbi and a Christian voice in defining what is right Set in a framework that is both psychological and spiritual the well researched contributions are intended to acknowledge these experiences both professionally and personally The book concludes with an extensive bibliography valuable for research and reference This book will be of value in undergraduate and graduate courses on thanatology as well as for anyone interested in knowing more about grief both those currently bereaved and those who wish to support others in mourning The contributors appreciate both the importance of our capacities for intimacy and sexuality and our inhibitions and hesitations in giving voice to our needs and concerns perhaps especially when we are grieving The information and compassionate understanding they provide encourage us to bridge the gap between the secret and the private and to share what is close to our hearts
