Lost Comrades Socialists Of The Front Generation 1918 1945

Cyprian Blamires

Lost Comrades Socialists Of The Front Generation 1918 1945:

Lost Comrades Dan S. White, 1992 The concept of generation as a historical category has never been used more effectively than in Lost Comrades The socialists of the Front Generation young men in 1914 were driven into political activity and ideological exploration by the experience of the First World War Their efforts to renew socialism to carry it beyond Marxism and beyond the working class were profound and original yet ultimately they failed Lost Comrades follows the Front Generation socialists from their questioning of Marxist orthodoxies in the 1920s into their confrontations with the twin challenges of fascism and world depression in the early 1930s Responding to these dangers they devised with little success counterpropaganda against the fascists and planning blueprints for the economy Eventually some of the most prominent Sir Oswald Mosley in Britain Hendrik de Man in Belgium Marcel Datin in France shifted their hopes to fascism or during the Second World War to collaborationism in Hitler's Europe Others however like Carlo Mierendorff and Theodor Haubach in Germany ended as martyrs in the anti Nazi resistance Yet even these divergent paths showed parallels reflecting their common starting point In tracing these unfulfilled careers White brings a new clarity to the hopes and limitations of European socialism between the two world wars

A History of Fascism, 1914-1945 Stanley G. Payne, 1996-01-01 A History of Fascism is an invaluable sourcebook offering a rare combination of detailed information and thoughtful analysis It is a masterpiece of comparative history for the comparisons enhance our understanding of each part of the whole The term fascist used so freely these days as a pejorative epithet that has nearly lost its meaning is precisely defined carefully applied and skillfully explained The analysis effectively restores the dimension of evil Susan Zuccotti The Nation A magisterial wholly accessible engaging study Payne defines fascism as a form of ultranationalism espousing a myth of national rebirth and marked by extreme elitism mobilization of the masses exaltation of hierarchy and subordination oppression of women and an embrace of violence and war as virtues Publishers Weekly

The Labour Party, Denis Healey and the International Socialist Movement Ettore Costa, 2018-05-18 This book describes how after the Second World War the Labour Party assumed leadership of the International Socialist Movement thanks to the achievements of the Attlee Government International Secretary Denis Healey guided the reconstruction of the Socialist International through the early Cold War making the British vision for socialist internationalism prevail over the French and Belgian At first the provisional Socialist International International Socialist Conference and Cominfo supported cohabitation with pro communist socialists and the USSR but with the Sovietisation of Eastern Europe it committed to militant anti communism Ambiguity between the Labour Party and Labour Government influenced British policy in Austria Czechoslovakia Greece Italy and Poland while the characterization and stereotypes of Eastern and Southern Europe shaped the language and actions of the British Furthermore the book shows how international contacts and the British and Swedish model encouraged the transition of socialist parties to responsible government parties fully embracing Western democracy and prepared the ideological revision of the 1950s

A

Companion to Europe, 1900 - 1945 Gordon Martel, 2011-03-21 This volume brings together a distinguished group of international scholars to discuss the major debates in the study of early twentieth century Europe Brings together contributions from a distinguished group of international scholars Provides an overview of current thinking on the period Traces the great political social and economic upheavals of the time Illuminates perennial themes as well as new areas of enquiry Takes a pan European approach highlighting similarities and differences across nations and regions *European Socialism* William Smaldone, 2019-10-16 This accessible text offers a concise but comprehensive introduction to European socialism which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century Striving for sweeping social economic cultural and political change socialists were a diverse lot However they were united by principles asserting the social and political equality of all people ideas that won the adherence of millions and struck fear in the hearts of their numerous opponents William Smaldone shows how over the course of 200 years socialists successfully promoted the democratization of European society and a more equitable division of wealth At the same time he illustrates how conflicts over the means of achieving their aims divided them into rival socialist and communist currents a rift that undercut the struggle against fascism and helped lay the groundwork for Europe's division during the Cold War Although many predicted the demise of socialism as a potent force after the end of the Cold War the Soviet Union's dissolution and the rise of neo liberal ideology recent developments show that such a judgment was premature The author argues that the growth of new socialist parties across Europe indicates that socialist ideas remain vibrant in the face of capitalism's failure to solve chronic social and economic problems especially following the deep global crisis that began in 2008 Combining an analytical narrative with a selection of primary texts and visual images this book provides undergraduate students with a brief readable history including an overview of how socialist political movements have evolved over time and stressing the rich diversity that has characterized socialism's foundations from its beginning This new edition brings this text up to date and examines the European socialist movement in the face of 21st century challenges It includes a new preface including the 2017 American election updated bibliographies two new chapters and an afterword Everything Is Possible Joseph Fronczak, 2023-01-24 The fascinating history of how the antifascist movement of the 1930s created the left as we know it today In the middle years of the Great Depression the antifascist movement became a global political force powerfully uniting people from across divisions of ideology geography race language and nationality Joseph Fronczak shows how socialists liberals communists anarchists and others achieved a semblance of unity in the fight against fascism Depression era antifascists were populist militant and internationalist They understood fascism in global terms and they were determined to fight it on local terms In the United States antifascists fought against fascism on the streets of cities such as Chicago and New York and they connected their own fights to the ones raging in Germany Italy and Spain As he traces the global trajectory of the antifascist movement Fronczak argues that its most significant legacy is its creation of the left as we know it

today an international conglomeration of people committed to a shared politics of solidarity **The Primacy of Politics**

Sheri Berman, 2006-08-07 Political history in the industrial world has indeed ended argues this pioneering study but the winner has been social democracy an ideology and political movement that has been as influential as it has been misunderstood Berman looks at the history of social democracy from its origins in the late nineteenth century to today and shows how it beat out competitors such as classical liberalism orthodox Marxism and its cousins Fascism and National Socialism by solving the central challenge of modern politics reconciling the competing needs of capitalism and democracy Bursting on to the scene in the interwar years the social democratic model spread across Europe after the Second World War and formed the basis of the postwar settlement This is a study of European social democracy that rewrites the intellectual and political history of the modern era while putting contemporary debates about globalization in their proper intellectual and historical context **Marxist Intellectuals and the Working-class Mentality in Germany, 1887-1912** Stanley

Pierson, 1993 How does one explain the presence of educated recruits in movements that were overwhelmingly working class in composition How did intellectuals function within the movements In the first in depth exploration of this question Stanley Pierson examines the rise development and ultimate failure of the German Social Democrats the largest of the European socialist parties from 1887 to 1912 Prominent figures such as Karl Kautsky August Bebel Rosa Luxemburg and Eduard Bernstein are discussed but the book focuses primarily on the younger generation These forgotten intellectuals Max Schippel Paul Kampffmeyer Conrad Schmidt Paul Ernst and others struggled most directly with the dilemmas arising out of the attempt to translate Marxist doctrines into practical and personal terms These young writers speakers and politicians set out to supplant old ways of thinking with a Marxist understanding of history and society Pierson weaves together over thirty intellectual biographies to explore the relationship between ideology and politics in Germany He examines the conflict within Social Democracy between the revisionist intellectuals who sought to adapt Marxist theory to changing economic and social realities and those orthodox and radical intellectuals who attempted to remain faithful to the Marxist vision By examining the struggles of the socialist intellectuals in Germany Pierson brings out the special features of German cultural social and political life before World War I His study of this critical time in the development of the German Social Democratic party also illuminates the wider development of Marxism in Europe during the twentieth century **Welfare and Social Policy in**

Britain Since 1870 Lawrence Goldman, 2019-01-24 This collection of twelve essays reviews the history of welfare in Britain over the past 150 years It focuses on the ideas that have shaped the development of British social policy and on the thinkers who have inspired and also contested the welfare state It thereby constructs an intellectual history of British welfare since the concept first emerged at the end of the nineteenth century The essays divide into four sections The first considers the transition from laissez faire to social liberalism from the 1870s and the enduring impact of late Victorian philosophical idealism on the development of the welfare state It focuses on the moral philosophy of T H Green and his influence on key

figures in the history of British social policy like William Beveridge R H Tawney and William Temple The second section is devoted to the concept of planning which was once in the mid twentieth century at the heart of social policy and its implementation but which has subsequently fallen out of favour A third section examines the intellectual debate over the welfare state since its creation in the 1940s Though a consensus seemed to have emerged during the Second World War over the desirability and scope of a welfare state extending from the cradle to the grave libertarian and conservative critiques endured and re emerged a generation later A final section examines social policy and its implementation more recently both at grass roots level in a study of community action in West London in the districts made infamous by the fire at Grenfell Tower in 2017 and at a systemic level where different models of welfare provision are shown to be in uneasy co existence today The collection is a tribute to Jose Harris emeritus professor of history in the University of Oxford and a pioneer of the intellectual history of social policy Taken together these essays conduct the reader through the key phases and debates in the history of British welfare

Historical Dictionary of Socialism James C. Docherty, Peter Lamb, 2006-10-02 Primarily concerned with the historical roots and contemporary condition of socialism the second edition of the Historical Dictionary of Socialism offers information on writers activists ideas political parties institutions and movements that sought and in many cases are still seeking to change the social and political order It reflects the diversity in the broad movement of the left the many variants of which include reformist social democracy revolutionary Marxism the New Left and contemporary anti capitalism Taking up where the first edition left off this thoroughly revised dictionary shows how socialism has been reacting reforming and also expanding This is done through a chronology a list of acronyms and abbreviations an introductory essay a bibliography and a cross referenced dictionary section with 114 new entries some on the current leadership others on the many new parties of Central and Eastern Europe and the Third World and yet others on the reaction to globalization This book will provide a mine of information for teachers and students of political ideologies comparative politics political sociology labor history and political theory

Hendrik de Man and Social Democracy Tommaso Milani, 2020-06-15 The book investigates the intellectual and political trajectory of the Belgian theorist Hendrik de Man 1885 1953 by examining the impact that his works and activism had on Western European social democracy between the two world wars Based on multinational archival research the book highlights how the idea of economic planning became part of a wider effort to address an ideological crisis within the socialist movement and revitalise the latter amidst the Great Depression A heavily controversial figure also because of his subsequent involvement in Belgian wartime collaboration de Man played a pivotal role in challenging traditional Marxist assumptions about the role of the state under capitalism and in promoting transnational exchanges between unorthodox social democrats across Europe Starting from de Man s experience in World War I the book analyses his departure from Marxism his elaboration of an alternative social democratic paradigm his entry in Belgian politics as well as the reception of his thought in France and Britain

British Fascism, the Labour Movement and

the State N. Copsey, D. Renton, 2005-04-26 Considerable attention has been paid to far right parties and their leaders Oswald Mosley A K Chesterton John Tyndall and Nick Griffin But what about the forces that have been organised in opposition to fascism in Britain British Fascism the Labour Movement and the State brings together the leading historians in the field to trace the history of labour movement responses to the far right from the 1920s to the present It examines the rise and fall of different fascist groups in terms of wider social processes above all the hostility of the labour movement left wing parties the women s movement and the trade unions

Colonial Ambivalence, Cultural Authenticity, and the Limitations of Mimicry in French-ruled West Africa, 1914-1956 James Eskridge Genova, 2004 Colonial Ambivalence Cultural Authenticity and the Limitations of Mimicry in French Ruled West Africa 1914 1956 offers an innovative and provocative reassessment of the history and legacies of French colonial rule in West Africa between the First World War and the late 1950s Making critical use of postcolonial and cultural theory James E Genova argues that the colonizers and the colonized were locked in a struggle for authority increasingly structured by competing notions of what it meant to be French or African This book breaks new ground by demonstrating the centrality of the cultural question in the imperial encounters between France and West Africa It maps the emergence of the French educated elite as a social class in French West Africa as a window into the complex relationship between agency and structural context in the making of history A disjunction developed between decolonization and liberation in the colonial liaison of France and West Africa that left colonizers and colonized trapped in a neocolonial cultural framework actualizing Frantz Fanon s deepest fears about the postcolony

Convergence or Divergence? Jeremy Black, 1994-04-12 Relations with Continental Europe have been a central issue in British history Several crucial questions can be identified first how similar or dissimilar was Britain to other European countries in respect of its economy and political culture secondly how far can similarity and difference be understood in terms of convergence and divergence or of roughly parallel tracks reflecting and sustaining longstanding differences thirdly did British people feel themselves to be Europeans fourthly did the British people take an informed and sympathetic interest in what was happening on the Continent or did their ignorance of Europe lead to insularity and xenophobia and fifthly to what extent was the British stage and Britain as a whole involved in the affairs of Europe diplomatically militarily economically culturally This wide ranging thoughtful and provocative study tackles these questions from the late Iron Age to the current debate about European integration It is at once an important contribution to British history and a crucial work for those seeking to understand Britain s past and present position in Europe

Collapsed empires José M. Faraldo, 2020-01-01 The Russian Revolution of 1917 born of the collapses of the War exerted its influence all along the globe and for a long time In Europe and the Mediterranean world the effects of World War I were overwhelming Taking as point of departure the year of the Russian revolutions this book focus on the consequences of the imperial and state collapses after 1917 in spatial and chronological dialogue researching the changing of institutions that created narratives and representations of national memories exploring the nationalist

movements that shaped the new countries and describing the communist activists that helped to transform the old world within the framework of a tragedy of terrible dimensions Jos M Faraldo is Associate Professor in the Department of Modern and Contemporary History of the Universidad Complutense de Madrid *Selected Political and Economic Writings* Eugen Varga, 2020-12-15 Born in 1879 Eugen Varga would become the most prominent Marxist economist in the Soviet Union Stalin's economist This volume contains a wide and representative selection of his works dating from his entry into the Hungarian Communist Party in 1919 through to his criticisms of John Maynard Keynes in the 1950s It includes the entire text of his *Economic Problems of the Proletarian Dictatorship* according to Lenin probably the best work on the collapse of the revolutionary government in Hungary A detailed critical introduction by Varga's biographer Andr Mommen supplies valuable background detail on the circumstances of Varga's work contextualising it in relation to political events and the development of orthodox economic theory in the USSR World Fascism Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism's heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale *World Fascism A Historical Encyclopedia* covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology's lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism's enduring appeal Popular Sovereignty and the Crisis of German Constitutional Law Peter C. Caldwell, 1997 A path breaking critical analysis of the meaning and interpretation of the German constitution in the Weimar years 1919 1933 Political Ideas in Modern Britain Rodney Barker, 2013-01-11 The rise of the New Right and the collapse of state communism in 1989 has fundamentally changed political thinking in the late twentieth century Rodney Barker has revised and extended his classic text *Political Ideas in Modern Britain* in the light of these changes His accessible account of political thinking in Britain since the 1880s now includes detailed analysis of the demise of traditional conservatism and socialism the rise and decline of the New Right the growth of feminism liberalism and pluralism *Political Ideas in Modern Britain* charts the changing intellectual landscape of political thinking illustrating how contemporary political thought is both rooted in tradition and a radical transformation of it Whether the future is liberal communitarian pluralist or simply uncertain

this is an essential guide for students of British politics Rodney Barker is Senior Lecturer in Government at the London School of Economics and Political Science **Historical Dictionary of Socialism** Peter Lamb, 2024-02-20 Socialism has been an influential force for social change for almost two centuries Its philosophy and ideology have inspired millions while simultaneously arousing fear and revulsion in its enemies Having emerged after the French Revolution in the effort to build upon and develop the egalitarian ideas of the Enlightenment socialism has taken many forms It has furthermore sometimes been manipulated and reformulated by opportunists who have built authoritarianism and totalitarian dictatorships in its name Opponents seize on such examples to frighten away people who may otherwise have found socialism attractive Socialism has survived such criticism and misrepresentation as its core principles have struck a chord with generations of people concerned with social justice Historical Dictionary of Socialism Fourth Edition contains a chronology an introduction a glossary and an extensive bibliography The dictionary section has over 500 cross referenced entries on activists politicians political thinkers political parties and organizations and key topics concepts and aspects of socialist theory This book is an excellent access point for students researchers and anyone wanting to know more about socialism
