Lost Subs Spencer Dunmore, 2007 From the ghostly wreck of the Civil War submersible Hunley to the grave of the Kursk beneath the Barents Sea here is a riveting saga of life and death that has been played out below the surface of the earth's oceans for more than a hundred years Now for the first time the gripping stories of the world's most famous lost subs are matched with amazing underwater images in this unforgettable illustrated history **The Lost Submarines of Pearl Harbor** James P. Delgado, Terry Kerby, Stephen Price, Maximilian D. Cremer, Hans K. Van Tilburg, Ole Varmer, Russell Matthews, 2016-11-16 In the pre dawn darkness of December 7 1941 five Imperial Japanese Navy submarines surfaced off the coast of Oahu Secured to the decks of these vessels were secret weapons to be deployed for the first time in modern warfare two man midget submarines intended to enter Pearl Harbor without being detected and torpedo the US Navy battleships lying at anchor there None of them would return from their mission One of the last remaining and persistent mysteries of the Pearl Harbor attack is that of the Japanese Midget Submarines It is a fascinating story of innovation courage secrets and failed expectations And it is not only a story of the morning hours of December 7 but of the years before to develop these weapons and the years after where they were deployed in the great Pacific War and how they fared as weapons of war These words by Daniel J Basta from the foreword of this work capture both the essence and the impact of The Lost Submarines of Pearl Harbor James P Delgado and his coauthors have worked on the story of these incredible craft for decades They combed the records of the US Navy and the recollections of its veterans as well as Japanese Australian and British archives in order to uncover the truth They have logged hours of direct observation and research on the midget subs in their final resting places in some cases more than 1 000 feet below the surface of the Pacific And in the end they have woven a tapestry of scholarship historical sleuthing scientific insight and good storytelling that will enthrall specialists and history enthusiasts alike Submarine Lost! Daniel Lloyd Little, 2016-11-15 Finally in active service Canadas Victoria class SSKs had been derided in the press the House of Commons and by more than a few navy experts Now one of the submarines will either prove them all wrong or be destroyed trying A plan approved by Chinas leaders to gain control of the Pacific Ocean for their newly enlarged navy could bring the world to the brink of war Involving the kidnapping of a Canadian submariner they are betting on Chinese control of global financial markets to ensure there will be no reprisals A Canadian submarine a CSIS agent and a group of friends and former enemies however stand in their way Commander Rene Bourgeois is proud of his command and her crew but when HMCS Victoria stumbles upon the Chinese plot the skills of her captain and crew will be tested to the breaking point One wrong move could spell doom for the boat and along with it the Royal Canadian Navys future hopes for a submarine service www.submarinelost.com **Lost Subs** Spencer Dunmore, 2001-01-01 As millions have come to know from such immensely popular books and movies as The Hunt for Red October and U 571 the world of submarines is secretive and dangerous On the ocean floor lie over a century and a half of subs lost both in war and in peace

Presumed Lost Stephen Moore, 2009-10-01 When submarines failed to return to port from patrol they were officially listed by the Navy as overdue and presumed lost Loved ones were notified by the War Department that their siblings spouses and sons were missing in action and presumed lost While 52 U S submarines were sunk in the Pacific the Japanese took prisoners of war from the survivors of only seven of these lost submarines *Presumed Lost* is the compelling story of the final patrols of those seven submarines and the long captivity of the survivors Of the 196 sailors taken prisoner 158 would survive the horrors of the POW camps where torture starvation and slave labor were common This is the most complete and accurate record of their captivity experiences ever compiled Author Stephen L Moore draws on personal interviews with the survivors as well as on diaries family archives and POW statements to reveal new details and correct longstanding errors in previously published accounts Moore's research brought to light the following facts Most crewmen from *USS Perch* endured 1 298 days of captivity without their families ever being told that they were still alive The *Perch* and *USS Grenadier* were so badly damaged by enemy depth charge attacks that their crews were forced to scuttle their ships *USS Sculpin* and *USS S 44* went down fighting with only forty two men from the *Sculpin* being taken prisoner and half of them perishing on the way to Japan *USS Tang* and *USS Tullibee* victims of their own faulty circling torpedoes had few survivors five of whom managed to escape from the sunken burning *Tang* when it was 180 feet below the ocean surface As many as six men survived the loss of *USS Robalo* after it struck a mine off Palawan but none of those survived the prison camps The book includes dozens of rare photos of the POWs many of which have never before been published Appendices include final muster rolls of the seven submarines and a complete list of the U S submariners who were held as POWs with details of their various camps of internment
