imperatives of training supervision and regulation and with the significant changes in the profession due to the invention of brief time limited intermittent and recurrent psychotherapy An overall theme is the conviction that what patients and therapists share is vulnerability and that the therapist is a wounded healer whose reparative tendency informs his professional choice his therapeutic empathy and his capacity to bear the rigours of therapeutic work Thus an unconscious connection between the helper and the helped is the driving force of every therapeutic relationship for better and for worse Its responsible management requires thorough training ongoing supervision and a firm frame in order to contain the powerful forces operating when two strangers meet for the purpose of therapy *Psychotherapy and Culture* Zack Eleftheriadou, 2018-05-08 this book focuses on cross cultural relationships and examines how culture and racial factors manifest in the clinical setting It discusses on how to work with both cross cultural differentiation and integration
