Dual Tableaux: Foundations, Methodology, Case Studies Ewa Orłowska, Joanna Golińska-Pilarek, 2012-01-07 This book presents logical foundations of dual tableaux together with a number of their applications both to logics traditionally dealt with in mathematics and philosophy such as modal intuitionistic relevant and many valued logics and to various applied theories of computational logic such as temporal reasoning spatial reasoning fuzzy set based reasoning rough set based reasoning order of magnitude reasoning reasoning about programs threshold logics logics of conditional decisions The distinguishing feature of most of these applications is that the corresponding dual tableaux are built in a relational language which provides useful means of presentation of the theories In this way modularity of dual tableaux is ensured We do not need to develop and implement each dual tableau from scratch we should only extend the relational core common to many theories with the rules specific for a particular theory

Computer Science Logic Jörg Flum, Mario Rodríguez-Artalejo, 1999-09-08 The 1999 Annual Conference of the European Association for Computer Science Logic CSL 99 was held in Madrid Spain on September 20-25 1999 CSL 99 was the 13th in a series of

annual meetings originally intended as International Workshops on Computer Science Logic and the 8th to be held as the annual Conference of the EACSL The conference was organized by the Computer Science Departments DSIP and DACYA at Universidad Complutense in Madrid UCM The CSL 99 program committee selected 34 of 91 submitted papers for presentation at the conference and publication in this proceedings volume Each submitted paper was refereed by at least two and in almost all cases three different referees The second refereeing round previously required before a paper was accepted for publication in the proceedings was dropped following a decision taken by the EACSL membership meeting held during CSL 98 Brno Czech Republic August 25 1998 **Index of Conference Proceedings** British Library.
