Mertens, 2013-04-17 In 1976 the first session on the teaching of evaluation was held at an annual meeting of evaluators A few hardy souls gathered to exchange ideas on improving the teaching of evaluation At subsequent annual meetings these informal sessions attracted more and more participants eager to talk about common teaching interests and to exchange reading lists syllabuses assignments and paper topics The sessions were irreverent innovative lively and unpredictable Eventually the group formalized itself with the American Evaluation Association as the Topical Interest Group in the Teaching of Evaluation TIG TOE

As word of TIG TOE's activities spread instructors from all over the country clamored for assistance and advice. It became apparent that a handbook was needed: a practical interdisciplinary guide to the teaching of evaluation. Donna M. Mertens, a long-standing member of TIG TOE and an accomplished teacher of evaluation, volunteered to edit the book, and her skills, sensitivity, and experience in the craft of teaching are apparent throughout.

Handbook Of Mathematical Science Communication Anna Maria Hartkopf, Erin Henning, 2022-12-28 Mathematical science communication, as well as the field of science communication in general, has gained momentum over the last few decades. Mathematical science communication aims to inform the public about contemporary research, enhance factual and methodological knowledge, and foster a greater interest and support for the science of mathematics. This enables the public to apply it to their practical life and to decision making on a greater scale. These objectives are met in the various formats and media through which mathematical science communication is brought to the public. The first 13 chapters of the book consist of best practice examples from the areas of informal math education, museums and exhibitions, and the arts. The final 5 chapters discuss the structural aspects of mathematical science communication and contribute to the basis for its theoretical framework.

The Healthy Eating and Active Time Club Curriculum Christina Economos, Jessica Collins, Sonya Irish Hauser, Erin Hennessy, David Hudson, Erin M. Boyd Kappelhof, Sandra Klemmer, Claire Kozower, 2014-07-18 Early elementary years are perfect for instilling healthy habits in children, and *The Healthy Eating and Active Time Club Curriculum: Teaching Children to Live Well* offers you the resources and tools you need to instill those healthy habits. The text helps children understand what a healthy diet is and how to stay physically active every day. The children learn how to make healthier nutrition and activity choices and they discover how healthy eating and regular physical activity keep them feeling their best. *The Healthy Eating and Active Time Club Curriculum: Teaching Children to Live Well* comes with a web resource that contains two sections. The first section supplies many reproducibles, including activity and food cards, worksheets, separate activity books for grades 1 to 3, and Cool Moves, which are warm up and cool down exercises for use in the classroom. This section also offers a chart that details how the curriculum meets Massachusetts state education standards, which have incorporated the common core standards in English language arts, math, comprehensive health, history and social science, arts, and science, technology, and engineering. The second section of the web resource contains a detailed book called *After School HEAT Club Curriculum*. This web book reinforces the print book's material and contains lessons and activities for after school programs that extend the classroom learning and bring that learning to life. These activities include art projects, active games, food activities including using healthy recipes, and ways to educate the entire family about healthy living. *The Healthy Eating and Active Time Club: Teaching Children to Live Well* and its accompanying resources offer an array of tools for teachers: grade-specific activity books on the web resource allowing you to print out materials that you need for each lesson; extensions that connect the book's content to physical education, library, and art; academic connections that help you incorporate the contents into comprehensive health

math science and technology language arts social studies and art lessons Background information that gives you everything you need to know and teach the lessons including objectives preparation materials and key talking points A Go Green section in each lesson that helps you incorporate environmental messages into the lesson if you so choose The Healthy Eating and Active Time Club Teaching Children to Live Well is a multifaceted resource that will help you engage students with activities that teach valuable lessons and life skills Through this resource students will learn the value of increasing their consumption of fruits vegetables low fat milk and whole grains decrease their intake of foods high in saturated fat and sugar and increase their time in physical activity They will also learn how to decrease their screen time while discovering how to engage in environmentally friendly practices The Healthy Eating and Active Time Club Teaching Children to Live Well is a win win for you and your students
