Connections Between Mathematics and English Language: Students Perspective

Himani Arya

ABSTRACT

In the present era, Mathematics and English Language are equally important. But if we pay attention to their disciplines, one belongs to the Sciences and the other to Humanities. Although both languages are used daily, still their connections are partially noticed and discussed. Even if it is done then only be from the Teachers' perspective. This study explores the perspective of Students to observe their thoughts on the language connection between Mathematics and English. This study covers sixty students from three different schools from Tehsil kichha in Udham Singh District of Uttarakhand. It attempts to the Students' Perspective to observe their interests and knowledge of Language connections. It compares the collected data to show the level of connection from the Students' perspective. The selection of Sixty students and three schools was randomly done in which two schools are CBSE affiliated and one of them is to the State board.

Keywords: Language, Language Connections, Humanities and Sciences, Students' Perspective.

INTRODUCTION

The English language is used in every field. It is an international language used to communicate with and within countries. It is useful in studying other subjects and understanding them in a better way. Mathematics is an essential part of life as it is helpful in daily life financial affairs. Every field needed these two languages in equal ways. For example - Shops' names are mostly titled in the English language while billing the numeric values Mathematical Language is used. Both languages are very much important to all. These languages are studied in schools. Several studies are done to observe Teachers' perspectives on the connection between both languages. Teachers are mature enough to understand the importance of these languages
