Zoo Studies Tracy McDonald, Daniel Vandermommers, 2019-06-19 Do both the zoo and the mental hospital induce psychosis as humans are treated as animals and animals are treated as humans How have we looked at animals in the past and how do we look at them today How have zoos presented themselves and their purpose over time In response to the emergence of environmental and animal studies anthropologists sociologists philosophers theorists literature scholars and historians around the world have begun to explore the significance of zoological parks past and present Zoo Studies considers the modern zoo from a range of approaches and disciplines united in a desire to blur the boundaries between human and nonhuman animals The volume begins with an account of the first modern mental hospital La Salpêtrière established in 1656 and the first panoptical zoo the menagerie at Versailles created in 1662 by the same royal architect the final chapter presents a choreographic performance that imagines the Toronto Zoo as a place where the human body can be inspired by animal bodies From beginning to end through interdisciplinary collaboration this volume decentres the human subject and offers alternative ways of thinking about zoos and their inhabitants This collection immerses readers in the lives of animals and their experiences of captivity and asks us to reflect on our own assumptions about both humans and animals An original and groundbreaking work Zoo Studies will change the way readers see nonhuman animals and themselves

Averting Extinction Timothy W.

Clark, Susan Gail Clark, 2005-05-01 The black footed ferret once thought extinct was rediscovered in Wyoming in 1981 In this book Tim Clark tells the story of subsequent efforts to save the black footed ferret showing how it points up the necessity of finding new ways to conserve and restore species According to Clark the problems facing conservation are not fundamentally biological but stem from human systems policy decisions organizational priorities and professional rivalries The focus in conservation he says must shift from science to practical problem solving Clark first describes and analyzes efforts to restore the black footed ferret after 1981 and looks at the processes people institutions and programs that were involved in that endeavor Finding that the ferret case illustrates many things that go wrong in the implementation of complex environmental policy Clark then proposes fresh approaches to endangered species recovery He gives guidelines for improving decisionmaking and development of policies for devising organizational strategies and structures that are more conducive to learning and for a new civic professionalism that will raise the standards for performance and better meet society s needs This policy oriented approach he contends will open up new avenues methods and hope for species recovery A very important work that will be widely read discussed and argued Steven J Bissell Colorado Division of Wildlife A valuable contribution to a general science policy field where clear and sophisticated thinking is rare Garry D Brewer School of Natural Resources and the Environment University of Michigan Ann Arbor **Endangered Species Technical Bulletin** ,1986 Captive Breeding James Wyman Carpenter,1987 **The Mating Game** Bonnie Vanak,2017-03-10 Unfair Game Michael Ashcroft,2020-06-16 In April 2019 Lord Ashcroft published the results of his year long investigation into South Africa s captive bred lion industry Over eleven pages of a single edition of the Mail on Sunday he showed why this sickening trade which involves appalling cruelty to the King of the Savannah from birth to death has become a stain on the country Unfair Game to be published in June 2020 features the shocking results of a new inquiry Lord Ashcroft has conducted into South Africa s lion business In the book he shows how tourists are unwittingly being used to support the abuse of lions he details how lions are being tranquilised and then hunted in enclosed spaces he urges the British government to ban the import of captive bred lion trophies and he demonstrates why Asia s insatiable appetite for lion bones has become a multimillion dollar business linked to criminality and corruption which now underpins South Africa s captive lion industry **Wildlife Management and Conservation** Paul R. The Heart of the Wild Ben A. Minteer, Jonathan B. Losos Losos, 2024-08-13 Timely and provocative reflections on the future of the wild in an increasingly human world The Heart of the Wild brings together some of today's leading scientists humanists and nature writers to offer a thought provoking meditation on the urgency of learning about and experiencing our wild places in an age of rapidly expanding human impacts These engaging essays present nuanced and often surprising perspectives on the meaning and value of wildness amid the realities of the Anthropocene They consider the trends and forces from the cultural and conceptual to the ecological and technological that are transforming our relationship with the natural world and sometimes seem only to be pulling us farther away from wild places and species with each passing day The contributors make impassioned defenses of naturalism natural history and nature education in helping us to rediscover a love for the wild at a time when our connections with it have frayed or been lost altogether Charting a new path forward in an era of ecological uncertainty The Heart of the Wild reframes our understanding of nature and our responsibility to learn from and sustain it as the human footprint sinks ever deeper into the landscapes around us With contributions by Bill Adams Joel Berger Susan Clayton Eileen Crist Martha L Crump Thomas Lowe Fleischner Harry W Greene Hal Herzog Jonathan B Losos Emma Marris Ben A Minteer Kathleen Dean Moore Gary Paul Nabhan Peter H Raven Christopher J Schell Richard Shine and Kyle Whyte *Heart of Mid-Lothian.
