The Futility of Philosophical Ethics James Kirwan, 2022-02-24 The Futility of Philosophical Ethics puts forward a novel account of the grounds of moral feeling with fundamental implications for philosophical ethics It examines the grounds of moral feeling by both the phenomenology of that feeling and the facts of moral feeling in operation particularly in forms such as moral luck vicious virtues and moral disgust

that appear paradoxical from the point of view of systematic ethics Using an analytic approach James Kirwan engages in the ongoing debates among contemporary philosophers within metaethics and normative ethics Instead of trying to erase the variety of moral responses that exist in philosophical analysis under one totalizing system Kirwan argues that such moral theorizing is futile His analysis counters currently prevalent arguments that seek to render the origins of moral experience unproblematic by finding substitutes for realism in various forms of noncognitivism In reasserting the problematic nature of moral experience and offering a theory of the origins of that experience in unavoidable individual desires Kirwan accounts for the diverse manifestations of moral feeling and demonstrates why so many arguments in metaethics and normative ethics are necessarily irresolvable

Aristotle Henry B. Veatch, 1974-06-22 Under the guidance of Professor Veatch Aristotle stands forth again as the philosopher who above all speaks simply and directly to the common sense of all mankind Today Professor Veatch believes the time may be ripe for a belated recognition that Aristotle is a truly live option in philosophy The discussion begins with the *Physics* for Aristotle the discipline embracing all aspects of the natural world and examines Aristotle's doctrine of categories and his celebrated four causes Turning to the *De Anima* Professor Veatch casts aside many errors of interpretation which have come about because of mistaken readings of the term soul and gives an intelligible account of Aristotle's psychology seen within the context of his system as a whole Next the varieties of human achievement are surveyed in Aristotelian terms with introductory discussions of the *Ethics* *Politics* and the *Poetics* Turning to the *Metaphysics* the author demonstrates that the question of the unity of subject matter in Aristotle's metaphysics does not warrant the great difficulty that has been made of it Finally reversing to good effect the traditional order Aristotelian logic is presented with superb clarity and ease
