Matters Of Life Longing:

Matters of Life and Death David Orentlicher, 2001-12-02 Orentlicher uses controversial life and death issues as case studies for evaluating three models for translating principle into practice Physician assisted suicide illustrates the application of generally valid rules a model that provides predictability and simplicity and more importantly avoids the personal biases that influence case by case judgments The author then takes up the debate over forcing pregnant women to accept treatments to save their fetuses He uses this issue to weigh the avoidance of perverse incentives an approach to translation that follows principles hesitantly for fear of generating unintended results And third Orentlicher considers the denial of life sustaining treatment on grounds of medical futility in his evaluation of the tragic choices model which hides difficult life and death choices in order to prevent paralyzing social conflict

RECONCILIATION: A Matter of Life and Death Dwight Dumas, 2020-01-13 Everyone will experience separation in relationships whether personal spiritual or professional Severed relationships are often devastating This book exposes the reader to diabolical strategies that perpetuate division while offering solutions that render these tactics impotent The aim of the remedies provided is to bring healing and restoration to severed relationships Dwight Dumas takes you on a journey of understanding the Biblical mandate for the believer to be a reconciler This vital role is much more than a good idea a noble recommendation or the right thing to do it s truly a Matter of Life and Death

The Things of Life Alexey Golubev, 2020-12-15 The Things of Life is a social and cultural history of material objects and spaces during the late socialist era It traces the biographies of Soviet things examining how the material world of the late Soviet period influenced Soviet people s gender roles habitual choices social trajectories and imaginary aspirations Instead of seeing political structures and discursive frameworks as the only mechanisms for shaping Soviet citizens Alexey Golubev explores how Soviet people used objects and spaces to substantiate their individual and collective selves In doing so Golubev rediscovers what helped Soviet citizens make sense of their selves and the world around them ranging from space rockets and model aircraft to heritage buildings and from home gyms to the hallways and basements of post Stalinist housing Through these various materialist fascinations The Things of Life considers the ways in which many Soviet people subverted the efforts of the Communist regime to transform them into a rationally organized disciplined and easily controllable community Golubev argues that late Soviet materiality had an immense impact on the organization of the Soviet historical and spatial imagination His approach also makes clear the ways in which the Soviet self was an integral part of the global experience of modernity rather than simply an outcome of Communist propaganda Through its focus on materiality and personhood The Things of Life expands our understanding of what made Soviet people and society Soviet

Matter and Desire Andreas Weber, 2017 Nautilus Award Gold Medal Winner Ecology Environment In Matter and Desire internationally renowned biologist and philosopher Andreas Weber rewrites ecology as a tender practice of forging relationships of yearning for connections and of expressing these desires through our bodies Being alive is an erotic process

constantly transforming the self through contact with others desiring ever more life In clever and surprising ways Weber recognizes that love the impulse to establish connections to intermingle to weave our existence poetically together with that of other beings is a foundational principle of reality The fact that we disregard this principle lies at the core of a global crisis of meaning that plays out in the avalanche of species loss and in our belief that the world is a dead mechanism controlled through economic efficiency Although rooted in scientific observation Matter and Desire becomes a tender philosophy for the Anthropocene a poetic materialism that closes the gap between mind and matter Ultimately Weber discovers in order to save life on Earth and our own meaningful existence as human beings we must learn to love **Wholly Jesus: His surprising**

approach to wholeness and why it matters today Mark Wesley Foreman,2008 In compelling fashion Wholly Jesus clarifies the foundational and frequently misinterpreted meaning of Jesus offer of salvation and heaven that to follow Him is to find wholeness in body mind and spirit The clarification has huge implications for the effectiveness of today s Christian church and subsequently for the redemption of lives and cultures **A Life That Matters** P. California Cooper,2011-02-02 A fourth collection of stories by the award winning author Live a Life That Matters Jean Maalouf,2018-05-25 What are you living for OK Youve got the house and the car of your dreams youve got the latest electronic devices you were obsessed with youve made all the trips of your reverie and imagination and youve achieved what you always wanted to achieve But somehow something was and still is missing Where are the promises of the happy ever after relationships the fun of the rich and famous and the security of the good life these things were supposed to deliver What is the meaning of it all Now what Sooner or later we will come to the conclusion that these things even if they are nice to have are not what matter most in life not by a long shot Otherwise why are we never satisfied and continue to want more Why do we play the happy persons when we really are not And after all our accumulated successes how in the world are we still missing what matters mostour true self realization and the fulfillment of our

fundamental goal In a unique style both profound and simple philosopher Maalouf points to the very core of what matters most His long years of studies two doctorates and writing experience more than forty published books led him to firmly suggest in this book that life is not only the total sum of the most comfortable income possessions position prestige and passion for every convenience Life is essentially and especially a continuous search for a deeper meaning that can be found in that everlasting hunger of our restless minds and hearts and in our most fundamental purpose and particular life mission We don't only exist we live a full life that is lived in the spirit of Saint Irenaeus's famous line The glory of God is a human being who is fully alive Otherwise no true fulfillment is possible Fully alive explains Dr Maalouf requires us to live a meaningful life not by aggrandizing the ego but by emptying it It takes what matters most to let go of the superficial mirages of the false self It takes the awakening of the holy hunger and divine longing to decipher the meaning of life that constitutes the true self In the end what really counts is not to live according to the creature's distractions but according to the Creator's statutes not to become what our culture prescribes but to incarnate what our fundamental purpose and mission inspire and not what makes a living but what makes a life
